**Gay and Lesbian Literature Since World War II** Sonya L.

Jones, 2014-05-22 *Gay and Lesbian Literature Since World War II* chronicles the multifaceted explosion of gay and lesbian writing that has taken place in the second half of the twentieth century. Encompassing a wide range of subject matter and a balance of gay and lesbian concerns, it includes work by established scholars as well as young theoreticians and archivists who have initiated new areas of investigation. The contributors' examinations of this rich literary period make it easy to view the half century from 1948 to 1998 as the Queer Renaissance. Included in *Gay and Lesbian Literature Since World War II* are critical and social analyses of literary movements, novels, short fiction, periodicals, and poetry, as well as a look at the challenges of establishing a repository for lesbian cultural history. Specific chapters in this groundbreaking work trace the development of gay poetry in America after World War II, examine how AIDS is represented in the first four Latino novels to deal with the subject matter, and chronicle the birth of lesbian feminist publishing in the 1970s, showing how it created a flourishing gay literature in the 1980s and 1990s. Other chapters outline the history of *The Ladder* from its initial publication in 1956 as the official vehicle of the Daughters of Bilitis to its final issue as a privately published literary magazine in 1972; examine Baldwin's 1962 novel *Another Country* and discuss the complicated critical history of this work and its relation to Baldwin's literary reputation; racial, sexual, and political factors are taken into account; chart how *Other Voices*, *Other Rooms* by Truman Capote, and *The House of Breath* by William Goyen reveal contradictory genderings of male homosexuality, suggesting an absence of a unified model of mid twentieth century male homosexuality; argue that the 1976 novel *Lover* by Bertha Harris can be considered an exemplary novel within discussions of both postmodern fiction and lesbian theory. The author calls for Harris to be added to the group of writers such as Wittig, Anzaldúa, Lorde, and Winterson who are discussed within the context of a postmodern lesbian narrative; examine the short fiction of Canadian lesbian novelist Jane Rule in an effort to shed light on lesbian creative practice in the homophobic climate of postwar North America; argue for an understanding of Dale Peck's novel *Martin and John* as an attempt to link two apparently different processes of import to contemporary male subjects through examination of the novel alongside selected passages from Nietzsche and Freud; focus on the pragmatic issues of developing and maintaining accessible research venues from which to cultivate the study of racial and cultural diversity in lesbian lives. Document the history of the Lesbian Herstory Archives, one of the first lesbian-specific collections in the world, from its birth in the early 1970s to the present.

**The Homosexual(ity) of Law** Leslie

Moran, 2002-11 First published in 1996, Routledge is an imprint of Taylor & Francis, an informal company.

**The Course of**

**Gay and Lesbian Lives** Bertram J. Cohler, Robert M. Galatzer-Levy, 2000-08 The authors argue that there is little support for assuming that homosexuality has a biological basis. Recognizing the many pathways that lead to same gender sexual orientation, the authors conclude that the cause is much less important than understanding the meaning of being homosexual.

**The Lesbian Revolution** Sheila Jeffreys, 2018-09-03 The Lesbian Revolution argues that lesbian feminists were a vital force in the Women's Liberation Movement WLM They did not just play a fundamental role in the important changes wrought by second wave feminism but created a powerful revolution in lesbian theory culture and practice Yet this lesbian revolution is undocumented The book shows that lesbian feminists were founders of feminist institutions such as resources for women survivors of men's violence including refuges and rape crisis centres and that they were central to campaigns against this violence They created a feminist squatting movement theatre groups bands art and poetry and conducted campaigns for lesbian rights They also created a profound and challenging analysis of sexuality which has disappeared from the historical record They analysed heterosexuality as a political institution arguing that lesbianism was a political choice for feminists and indeed a form of resistance in itself Using interviews with prominent lesbian feminists from the time of the WLM and informed by the author's personal experience this book aims to challenge the way the work and ideas of lesbian feminists have been eclipsed and to document the lesbian revolution The book will be of key interest to scholars and students of women's history the history of feminism the politics of sexuality women's studies gender studies lesbian and gay studies queer studies and cultural studies as well as to the lay reader interested in the WLM and feminism more generally

**AIDS and American Apocalypticism** Thomas Lawrence Long, 2012-02-01 Since public discourse about AIDS began in 1981 it has characterized AIDS as an apocalyptic plague a punishment for sin and a sign of the end of the world Christian fundamentalists had already configured the gay male population most visibly affected by AIDS as apocalyptic signifiers or signs of the end times Their discourse grew out of a centuries old American apocalypticism that included images of crisis destruction and ultimate renewal In this book Thomas L Long examines the ways in which gay and AIDS activists artists writers scientists and journalists appropriated this apocalyptic rhetoric in order to mobilize attention to the medical crisis

prevent the spread of the disease and treat the HIV infected Using the analytical tools of literary analysis cultural studies performance theory and social semiotics AIDS and American Apocalypticism examines many kinds of discourse including fiction drama performance art demonstration graphics and brochures biomedical publications and journalism and shows that while initially useful the effects of apocalyptic rhetoric in the long term are dangerous Among the important figures in AIDS activism and the arts discussed are David Drake Tim Miller Sarah Schulman and Tony Kushner as well as the organizations ACT UP and Lesbian Avengers

Intercultural Movements attempts to answer these questions by situating detailed analyses of key textual and paratextual dimensions of selected translations within an understanding of the French fascination in the 1970s with the model of gay emancipation in the United States Through an examination of the translations of Andrew Holleran's *Dancer from the Dance* John Rechy's *Rushes* and Larry Kramer's *Faggots* the book explores the dynamic of attraction assimilation transformation and rejection that characterizes French attitudes at the time In particular representations of the figure of the queen of the effeminate homosexual are identified as particularly sensitive textual zones for understanding French views on homosexual emancipation in the light of American developments Key figures involved in these debates include translators academics and activists such as Alain Emanuel Dreuilhe Michel Foucault Guy Hocquenghem Brice Matthieussent Philippe Mikriammos and Georges Michel Sarotte many of whom lived out the translational pressures of the time through various types of physical as well as textual displacement into the foreign space More broadly the book envisages using translation and translatedness as the paradigm case for all sorts of intercultural traffic while also intimating the possibility of an intercultural studies predicated upon a vision of cultural spaces as necessarily traversed and constituted by mis recognitions of cultural others
