Odyssey of the Voice Jean Abitbol, 2006 Renowned French otolaryngologist Jean Abitbol a lifetime student of the

human voice takes readers on an unforgettable odyssey spanning man's first use of voice through the acquisition of language to the use of voice as an expression of self. With great wit and charm, Dr. Abitbol's narrative encompasses everything from the psychological to the physiological, from explaining the workings of the voice to celebrating the human voice's highest achievements. He describes a fascinating history of the voice: its origins, its course since the Homo Sapiens first sentences, its episodes of hoarseness and its achievements from the newborn cry to the coloratura soprano from the impersonator to the ventriloquist. After exploring what is known about the voice, Dr. Abitbol tells us what our voices are capable of. He examines what he describes as the magic of the voice, the voice as a fingerprint, a reflection of our personality in expressing our sex and sexuality. A great portion of this odyssey is devoted to singing and singers, both to the complexity of singing in general and to lyrical singing, the intricacies of which require participation of the mechanical, emotional, and cerebral systems. The mysteries of the voice unfold as Dr. Abitbol guides readers through the latest physiological and pathological research, using examples of historical figures, patients, and celebrities' voices to explain how the ways in which the body moves affect the way the voice sounds and how vocal quality is unique to each human being. A unique tour de force of the human vocal instrument, *Odyssey of the Voice* changes the way we think about our voices.

Puberphonia Kumaresan Remedy: Boys talking in a child's or lady's voice Dr. M. Kumaresan, Dr. K. Navin Bharath, 2024-07-24 The content of this book is mainly research work personally discovered for the first time in the whole history of the world and is completely new. The use of sophisticated measurement systems based on scientific concepts and other such technologies has greatly improved understanding of the generation of speech and the treatment of puberphonia, giving rise to new scientific theories and concepts. Science ideas are subject to change. Ideas about voice boxes have changed, which led to the development of puberphonia voice correction.

Sareen,2021-10-25 This is the first in depth study to examine the history treatment and conditions of more than 2500 Japanese prisoners of war who were captured by British forces on the Burma front and kept in India during the period 1942 46 Drawing on original sources including the National Archive of India the International Committee of the Red Cross as well as limited government records in the UK USA and Japan together with some former Japanese POWs first hand accounts the author has been able to provide a detailed picture of the way of life of these prisoners the organization of camp life as well as the policies that governed their incarceration In so doing the author fills a significant gap both in Pacific War studies and prisoner of war history The manner of the capture and surrender of the Japanese was unique in that they were captured for the most part when they were either seriously wounded or sick or had become unconscious due to hunger or disease while fighting on the Arakan Imphal and Kohima Burma fronts A few in good health gave themselves up but there was no mass surrender even by a single regiment or unit ever took place thus giving rise to the myth that no Japanese soldier ever became a prisoner of war This account sets the history straight and will be widely welcomed by the generalist and specialist alike particularly those studying the history of this period including POW history as well as students of international law and the work of international agencies such as the Red Cross **Just Relax!** Kotra Siva Rama Krishna, It is in circulation in the village of Mummara that some sorcerers were burnt alive in a hut in the suburbs of that village as they were doing atrocities on the villagers later the spirits of the sorcerers were buried and spell bounded under the earth as they continued their atrocities on the villagers by another sorcerer who had been brought from a faraway place It was part of that story that the spells would hold the spirits only for a period of hundred years and there was a chance that they become spell free at anytime during the period of hundred years also All the villagers and the present village chief Kodandapani were also feeling fear as there were strange incidents happening in the village and in their houses also The father of the previous village chief Parasuram wrote about those matters in a notebook and handed over the same to Parasuram but he lost the same somewhere Niranjan a reputed psychologist heard the spirits story of Mummara village from his mother whose parents used to live in that village He did not know why but whenever he remembered that story he felt strange connection with the village and the spirits story there in He opined that he would have played an important role in burying and spell binding the spirits in that village and he thought

that he has a responsibility to solve the spirits problem of that village Sarath was another person the friend of Sudhir who was the son of Kodandapani also felt strange whenever he was in the village and whenever he heard the spirits story Sarath also believed strongly that he has some connection with the said spirits story Because of his strong sudden feeling towards Mummara village he came into it and stayed in the house of Kodandapani thinking furiously what to do Vinay was an interesting character in that village even he was educated he has belief and interest on paranormal which irritated Supraja psychologist and daughter of Kodandapani to the maximum But she was attracted towards him strongly despite her disgust on his interest on paranormal so she could not refrain herself from expressing her love to him Still she did not like Rupa and Manoj consulting Vinay for solving the problem of her daughter Savitha who previously used to see spirits and now saying that a spirit entered into her body Supraja convinced Rupa and her husband Manoj that their daughter has never seen any spirits and in the same way no spirit entered into her body and tried to cure Savitha with hypnotherapy She did not know what to do when her hypnotherapy failed and Rupa and Manoj started taking their daughter again to Vinay Sarika came into her house in the suburbs of the village along with her parents once again after twelve years When she came to know that her close friend Neeraja s family who used to reside just opposite to their house left their house suddenly on one midnight and no one has heard anything about them till then disturbed her a little When Sarika remembered the madness of Neeraja s mother Madhuri how the father and daughter suffered because of Madhuri s insanity she became even more upset Even the story she heard that Neeraja and her parents were murdered inside of their house and were buried there by someone was not trustworthy it made her more and more upset and uneasy Sarika started behaving hysterically as Neeraja was appearing to her and was asking her to die and become a spirit to stay with her always It was Supraja who also was a friend to Sarika be with that family and helped in solving Sarika s problem How the spirits problem of the Mummara village was solved how Sarika s problem was solved what happened to her friend Neeraja and her parents how Savitha s problem was solved are the main themes of the story Just Relax which not aims to make you scary but to relax
