[The Women's Healthy Heart Program](#) Nieca Goldberg, 2006-01-31 WINNER OF THE BOOKS FOR A BETTER LIFE AWARD One out of every two women will die of heart disease It is the single greatest health risk for women today more than stroke and all cancers combined In the course of her practice and as chief of Women's Cardiac Care at New York's Lenox Hill Hospital Dr Nieca Goldberg has come to a startling realization Women experience heart disease in a fundamentally different way than men do The physiology of a woman's heart attack is not the same as a man's the symptoms of heart disease and signs of impending heart attack differ for women and once heart disease has been recognized women often do not get the treatment and medications they require Now here are detailed age specific programs that give women the facts and the guidance they need to recognize treat and prevent heart disease including how you can rate your risk of heart disease the effects of menopause on your heart risk factors you can change starting today a heart healthy exercise plan that works for you a complete guide to heart healthy supplements the truth about hormone replacement therapy and the heart recovering from a heart attack or surgery Authoritative caring and up to the minute this is the women's health book for the new millennium

The Heart Attack Survival Guide Mark Greener, 2012-04-19 Coronary heart disease the commonest cause of heart attacks remains the leading cause of death in the UK despite rates falling in the last few decades despite numerous therapeutic advances and despite increased awareness Rates are especially high in economically deprived communities some ethnic groups and at certain ages but everyone's at

risk This book aims to help people at high risk prevent their first or subsequent heart attack as well as helping those who experience a heart attack get back to a normal life as soon as possible As this book shows combining drugs and lifestyle changes can help you survive and prevent heart attacks Topics include The anatomy and physiology of the cardiovascular system Modifiable and non modifiable risk factors such as smoking diet age family history and sex Causes and types of heart attack Why heart attacks are more common at certain times of day Prognosis what makes survival more likely Symptoms in men women and the elderly Diagnosis and treatment After a heart attack physical psychological and lifestyle factors Preventing heart attacks Caring for a loved one after a heart attack The South Beach Heart Health Revolution Arthur Agatston,2008-12-30 Pioneering cardiologist and 1 bestselling author Agatston presents a proven program for preventing heart attacks and strokes and helps readers to assess their cardiac risks avoid unnecessary surgery and beat the odds of suffering from cardiovascular disease *Let's Stop the #1 Killer of Americans Today* Harry A. Elwardt,2006-03-30 Even with Americas most advanced surgical procedures and pharmaceutical drugs nearly one million Americans are still dying every year of heart disease We are failing miserably at stopping this silent killer which is not just a man problem in fact 500 000 women fall victim to heart disease each year dwarfing breast cancer Heart Disease which costs the American public over 298 billion dollars a year is just one form of cardiovascular disease others include hypertension high cholesterol diabetes coronary artery disease peripheral artery disease congenital heart disease congestive heart failure and stroke Dr Harry Elwardt is a doctor of naturopathy with a Ph D in health and nutrition He believes there is no reason for this killer to rule the day That through education of the causes of cardiovascular disease the use of the latest in early detection devices and the implementation of a good diet exercise and nutritional supplement program heart disease numbers can begin to decline in America We may be winning the war on terror but we are losing the war against this illusive enemy Dont wait until you or someone you love fall victim to this ruthless killer Dr Harry Elwardt has declared war on heart disease and in this book he lays out a strategic plan of attack He believes it is the choices we make right now not leaving it to chance that determines our wellness and our destiny Wont you join him in turning the tide in this covert war against the American people **Do I Need to See the Doctor?** Brian Murat,Greg Stewart,John Rea,2013-04-22 Previous eds published under title Do I need to see the doctor a guide for treating common minor ailments at home for all ages *PEOPLE OF THE STATE OF MICHIGAN V REGINALD H. HARDING, JR.; PEOPLE OF THE STATE OF MICHIGAN V CHRISTOPHER C. BUSH, 443 MICH 693 (1993)* ,1993 91097 Self Examination Thomas Arno MD FACC,2016-10-18 Dr Tom Arno will tell you without reservation that Marcus Welby is an inaccurate portrayal of the American physicians demeanorgrossly inaccurate Understandably in the sixties we wanted to think doctors were calm and self assured but Welby never showed himself emotionally He was milquetoast toast a shoe salesman wearing a white coat Ben Casey was considerably more believable if only because Vince Edwards who played the title role was intense and brooding lending him an air of professional pique and borderline

arrogance Truth be told ole Bens character is pretty close to the real thing with internship and residency when competition fierce and everyones jockeying for position with the higher ups Come to think of it maybe Ben was cranky from fatigue an occupational hazard especially during training years That is the truth and I know because I lived through it The American people need to be informed about the reality of medical school and beyond and how doctors are affected spiritually and physically personally and professionally No one sails through it unscathed no one is immune Angina and Heart Attack Phil Jevon,2012-01-26 Angina and Heart Attack The Facts helps patients and their families to understand what angina is the causes risk factors symptoms treatment and how to manage and live with it *The Heart Attack Recovery Plan* David Symes,2011-11-30 The after effects of a heart attack are wide ranging and some of them unexpected Physical health can never be taken for granted again A balanced diet becomes a must But the psychological effects too should not to be overlooked Previously active and self confident people can find the fear of a repeat attack will prevent them from enjoying sport or active hobbies Partners may find that they are worried about having sex Obsessive concern about the condition may dominate conversation Coming to terms with such a dramatic experience will go through a number of common phases This practical accessible and authoritative guide explains not only what causes a heart attack but also how to come to terms with recovery It explains how to get the best from your GP how to live safely but fully Complete with general nutritional guidelines this realistic guide is invaluable reading to all those living through a heart attack in the family It will help you to keep your risk to a minimum and get your health back in good shape *Heart*,1920 Review of the Food Stamp Act of 1977 United States.
