**Asmara - an urban history** Belula Tecle-Misghina, 2015-02-11 Like any city Asmara a young city even by the standards of young African capitals is a stage set where the drama of history has unfolded in the most intense and eloquent manner The territory of Asmara stands at the edge of a space of almost mythical civilisations ancient religions and proud empires It is also a natural acropolis in the vastness of Africa an astoundingly high crest that looks down from above on the coast of the Eritrean sea coming to a halt where the Afar Rift expands and year after year rips into the heart of Africa where lions and gnus still roam free However in its body and thus in its history Asmara is also a fragment of Europe imported atop the undulating highlands of Hamasien by the presumption of the most fragile and thus most presumptuous of colonial nations Italy Less than 130 years later history appears to have intentionally concentrated a host of events projects interests delusions conflicts and hopes in Asmara that within the vaster expanses of historical time could have filled dozens of centuries These metamorphoses were similar to immense waves lapping at a resistant soil introducing and withdrawing diverse foreign armies peoples languages and cultures and adversities The results of so much labour have forged the identity of Eritrea jealously defended for decades and jealously guarded to this day Looking carefully in libraries among printed works dedicated to particular aspects of this identity numerous and some very important it is impossible to find a history of Eritrea that is scientifically complete and up to date This is a serious shortcoming Yet everything has remained impressed upon the land and even more eloquently on the city on the face and limbs of Asmara Hence the reconstruction like that made by the author of this book of the difficult process of planning the city signifies not only restoring similar to an animation the history of the complex growth of an urban organism Lucio Valerio Barbera UNESCO Chairholder in Sustainable Urban Quality and Urban Culture notably in Africa Sapienza Universit di Roma At the end of the Thirties from Naples to Massawa the Port of Empire since 1890 an important commercial base and natural access point for anyone wishing to reach Asmara and the Eritrean uplands the voyage took five days from the port one could reach the capital of the Colony by train on an intrepid mountain rail way or by a motor road Road n 1 from Dogali Asmara was only 120 km away If one wanted to make the journey by air it took three and a half days thanks to the Empire Line which involved taking a seaplane from the Carlo Del Prete base in Ostia to Benghazi in Libya and then a plane to the Umberto Maddalena Airport in Asmara with stops at Cairo Wadi Haifa Khartoum and C ssala on the Sudanese border And right next door to the Airport stood the Teleferica Massawa Asmara an extraordinary cableway for transporting goods up on to the plateau at a height difference of 2 326 metres the cableway had been built in two years between 1935 and 1937 and at a length of 75 km was the longest industrial cableway system in the world It could move in one day the equivalent of thirty train loads but it was at its full operational capacity for only a few years in 1941 it was damaged in the war with the British and ten years later when Eritrea became a British Protectorate it was unexpectedly decided to dismantle it capital of the new country These events act as a backdrop and form a solid

framework for Tecle Misghina's research which is not only meticulous but emotionally involved of which this book is a well documented summary Her research is important in that it reconfigures and puts in order various documents both known and unpublished in order to build up a chronology and an armoury of references that are indispensable for anyone wishing to carry out further studies on the Eritrean capital For a project developed within a Doctoral programme this is in my opinion the most important outcome of her research Piero Ostilio Rossi Director of the Department of Architecture and Design Sapienza Universit di Roma The Architecture of Modern Italy Terry Kirk,2005-06-02 The history of design in Italy is explored in this authoritative and comprehensive work Design periods include the era of Piranesi the eclecticism of the 19th century the futurism of the early 20th century the dogmatic fascism of the interwar period the designs of Pier Luigi Nervi and on to the present day The Grid and the Park Adrián Gorelik,2022-02-07 Since its publication in Spanish in 1998 The Grid and the Park not only revitalized studies on the history of Buenos Aires but also laid the foundation for a specific type of cultural work on the city an urban perspective for cultural history as its author would describe it that has had a sustained impact in Latin America Public space embodied in the grid of city blocks and the park system here appears as a particularly productive category because it encompasses dimensions of the material city politics and culture which are usually studied separately From Domingo Faustino Sarmiento's figurations of Palermo Park in the mid nineteenth century to Jorge Luis Borges's discovery of the suburb in the 1920s from the modernization of the traditional center carried out by Mayor Torcuato de Alvear in the 1880s to the questioning of that centrality by the emergence of the suburban barrio the book weaves the changing ideas on public space with urban culture to produce a new history of the metropolitan expansion of Buenos Aires one of the most extensive and dynamic urban centers of the early twentieth century *Designing Grid Cities for Optimized Urban Development and Planning* Carlone, Guiseppe,Martinelli, Nicola,Rotondo, Francesco,2018-03-02 With the growth of the global population the expansion of metropolitan areas has become an essential aspect of land development With the need for more space to accommodate the growing population discussion on the best methods of expansion has arisen Designing Grid Cities for Optimized Urban Development and Planning is a critical scholarly resource that explores the expansion and extension of metropolitan areas following orthogonal development plans Featuring coverage on a wide range of topics such as built environment grid cities and orthogonal urban matrix this publication is geared towards engineers city development planners professionals academicians researchers and students seeking current research on the advantages of using orthogonal development plans for metropolitan expansion Florence: Capital of the Kingdom of Italy, 1865-71 Monika Poettinger,Piero Roggi,2017-12-28 This edited collection provides the first comprehensive history of Florence as the mid 19th century capital of the fledgling Italian nation Covering various aspects of politics economics culture and society this book examines the impact that the short lived experience of becoming the political and administrative centre of the Kingdom of Italy had on the Tuscan city both immediately and in the years that followed It reflects upon the urbanising changes that

affected the appearance of the city and the introduction of various economic and cultural innovations The volume also analyses the crisis caused by the eventual relocation of the capital to Rome and the subsequent bankruptcy of the communality which hampered Florence on the long road to modernity Florence Capital of the Kingdom of Italy 1865 71 is a fascinating study for all students and scholars of modern Italian history *History, Architecture and Heritage: Building the Architectural Identity* AA. **Sudan, 1504-2019** Elena Vezzadini, Iris Seri-Hersch, Lucie Revilla, Anael Poussier, Mahassin Abdul Jalil, 2023-07-24 This book starts from the premise that the study of exceptionally normal women and men as conceived by microhistory has radical implications for understanding history and politics and applies this notion to Sudan Against a historiography dominated by elite actors and international agents it examines both how ordinary people have brought about the most important political shifts in the country's history including the recent revolution in 2019 and how they have played a role in maintaining authoritarian regimes It also explores how men and women have led their daily lives through a web of ordinary worries desires and passions The book includes contributions by historians anthropologists and political scientists who often have a dual commitment to Middle Eastern and African studies While focusing on the complexity and nuances of Sudanese local lives in both the past and the present it also connects Sudan and South Sudan with broader regional global and imperial trends The book is divided into two volumes and six parts ordered thematically The first part tackles the entanglement between archives social history and power The second focuses on women's agency in history and politics from the Funj era to

the recent 2018 2019 revolution Part 3 includes contributions on the history and global connections of the Sudanese armed forces In the second volume part 4 intersects the themes of urban life leisure and colonial attitudes with queerness In part 5 labour identities practices and institutions are discussed both in urban milieus and against the background of war and expropriation in rural areas Finally part 6 studies the construction of social consent under various self styled Islamic regimes as well as the emergence of alternative imaginaries and acts of citizenship in times of political openness **Popolazioni mobili e pratiche sociali negli spazi pubblici** Camillo Tidore,Romina Deriu,Sara Spanu,2017-02-14T00:00:00+01:00 156233 6 *Metodo e prassi estimativa* Gianfranco Brusa,2007
