Storia Della Filosofia Antichita E Medioevo:

Storia della filosofia antica e medievale, 1960 Tra antichità e modernità. Studi di storia della filosofia medievale e rinascimentale Fabrizio Amerini, Simone Fellina, Andrea Strazzoni, Atti: Storia della filosofia antica e medievale, 1960

La filosofia del "primo" Aristotele Enrico Berti, 1997 **A Treatise of Legal Philosophy and General Jurisprudence** Michael Lobban, 2016-02-12 The first ever multivolume treatment of the issues in legal philosophy and general jurisprudence from both a theoretical and a historical perspective. The work is aimed at jurists as well as legal and practical philosophers. Edited by the renowned theorist Enrico Pattaro and his team this book is a classical reference work that would be of great interest to legal and practical philosophers as well as to jurists and legal scholars at all levels. The work is divided. The theoretical part published in 2005 consisting of five volumes covers the main topics of the contemporary debate. The historical part consisting of six volumes Volumes 6-8 published in 2007 Volumes 9 and 10 published in 2009 Volume 11 published in 2011 and volume 12 forthcoming in 2015 accounts for the development of legal thought from ancient Greek times through the twentieth century. The entire set will be completed with an index. Volume 7 The Jurists Philosophy of Law from Rome to the Seventeenth Century edited by Andrea Padovani and Peter Stein. Volume 7 is the second of the historical volumes and acts as a complement to the previous Volume 6 discussing from the jurists perspective what that previous volume discusses from the philosophers perspective. The subjects of analysis are first the Roman jurists conception of law second the metaphysical and logical presuppositions of late medieval legal science and lastly the connection between legal and political thought up to the 17th century. The discussion shows how legal science proceeds at every step of the way from Rome to early modern times as an enterprise that cannot be untangled from other forms of thought thus giving rise to an interest in logic medieval theology philosophy and politics all areas where legal science has had an influence. Volume 8 A History of the Philosophy of Law in The Common Law World 1600-1900 by Michael Lobban. Volume 8 the third of the historical volumes offers a history of legal philosophy in common law countries from the 17th to the 19th century. Its main focus like that of Volume 9 is on the ways in which jurists and legal philosophers thought about law and legal reasoning. The volume begins with a discussion of the common law mind as it evolved in late medieval and early modern England. It goes on to examine the different jurisprudential traditions which developed in England and the United States showing that while Coke's vision of the common law continued to exert a strong influence on American jurists in England a more positivist approach took root which found its fullest articulation in the work of Bentham and Austin. **Handbook of the History of the Philosophy of Law and Social Philosophy** Gianfrancesco Zanetti, Mortimer Sellers, Stephan Kirste, 2023-04-03 This Handbook discusses representative philosophers in the history of the philosophy of law and social philosophy giving clear concise expert definitions and explanations of key personalities and their ideas. It provides an essential reference for experts and newcomers alike. **La tenaglia magistrati-economisti sui cittadini** Francesco Felis, 2019-04-30 Devono le leggi
