Analysis, Conservation, and Restoration of Tangible and Intangible Cultural Heritage Inglese, Carlo,Ippolito, Alfonso,2018-10-12 Communities have witnessed a fundamental shift in the ways they interact with heritage sites Much of this change has been driven by the rapid democratization and widespread adoption of enabling technologies As expediency is embraced in the collection and analysis of data there may also be a certain amount of intimacy lost with both the tangible and intangible vestiges of the past Analysis Conservation and Restoration of Tangible and Intangible Cultural Heritage is a collection of innovative research on the quantitative methods and digital workflows transforming cultural heritage There is no contesting the value of advanced non destructive diagnostic imaging techniques for the analysis of heritage structures and objects Highlighting topics including 3D modeling conservation and digital surveying this book is ideally designed for conservation and preservation specialists archaeologists anthropologists historians academicians and students seeking current research on data driven evidence based decision making to improve intervention outcomes *Rome: Continuing Encounters between Past and Present* Dorigen Caldwell,2016-12-05 Few other cities can compare with Rome s history of continuous habitation nor with the survival of so many different epochs in its present This volume explores how the city s past has shaped the way in which Rome has been built rebuilt represented and imagined throughout its history Bringing together scholars from the disciplines of architectural history urban studies art history archaeology and film studies this book comprises a series of studies on the evolution of the city of Rome and the ways in which it has represented and reconfigured

itself from the medieval period to the present day Moving from material appropriations such as spolia in the medieval period through the cartographic representations of the city in the early modern period to filmic representation in the twentieth century we encounter very different ways of making sense of the past across Rome's historical spectrum The broad chronological arrangement of the chapters and the choice of themes and urban locations examined in each allows the reader to draw comparisons between historical periods An imaginative approach to the study of the urban and architectural make up of Rome this volume will be valuable not only for historians of art and architecture but also for students of cultural history and film studies

Rome in the Age of Enlightenment Hanns Gross, 2004-04-22 This is the only scholarly work in the English language on the city of Rome in the Age of the Enlightenment and the only book in any language to treat this fascinating city in all its multifarious aspects Professor Gross combines extensive archival research with the latest findings of other scholars to produce a uniquely rounded portrait of the papal capital elegantly illustrated with contemporary engravings by Piranesi and others The book is divided into two sections in the first of which Professor Gross discusses the material and institutional structures of the city including its demography economy food supply and judicial systems The second section considers aspects of intellectual cultural and artistic life Professor Gross contends not only that ancien regime Rome witnessed a decline in Counter Reformation fervour but that this decay resulted in a marked dissonance in the political social and cultural life of the city

Il volume attraverso le vicende dei Fontana racconta da un punto di vista ravvicinato l'epopea della cultura architettonica tra Manierismo e Barocco. Si tratta di una sorta di storia enciclopedica dei Fontana dove sono confluite le ricerche più recenti sulle opere di questi architetti nel quadro sociale della migrazione delle maestranze ticinesi a Roma e con l'aggiunta di alcuni correlati sull'Europa orientale. La prima parte del volume dedicata all'attività professionale dei Fontana tra Roma e Napoli. La seconda parte fornisce nuovi contributi sulle biografie declinate attraverso un'analisi delle vicende patrimoniali e familiari. La terza parte presenta il quadro dei repertori biografici primo tentativo di sistemazione di una complessa e intrigata genealogia familiare che tende a definire e decodificare un puzzle di nomi che partendo dall'area del Mendrisiotto si estese in tutta Europa.
