The Midwestern Novel Nancy L. Bunge, 2014-12-12 With Huckleberry Finn American fiction changed radically and shifted its setting to the middle of the country A focus on social issues replaced the philosophic and psychological explorations that dominated the work of Melville and Hawthorne Colloquial speech rather than elevated language articulated these fresh ideas while common folk rather than dramatic characters like Ahab and Hester Prynne played central roles This transformation of American literature has been largely ignored while during the 130 years since Huckleberry Finn the Midwest has continued to produce writers whose work like Twain's addresses injustice by portraying the decency of ordinary people Since the end of the 19th century Midwestern authors have dismissed the elite and celebrated those whom the power structure typically excludes children women African Americans and the lower classes Instead of wealth and power this literature values authenticity and compassion The book explores this literary tradition by examining the work of 30 Midwestern writers including F Scott Fitzgerald Willa Cather Ernest Hemingway Richard Wright Saul Bellow Toni Morrison Jonathan Franzen Jane Smiley and Louise Erdrich **How Poetry Works** Phil Roberts, 2000-04-27 In this refreshing and inspiring book Phil Roberts asserts that poetry like music is based on sound and so close attention should be paid to its rhythms and metrical

patterns He illustrates his points with lively examples ranging from nursery rhymes and limericks to recent experimental forms as well as familiar pieces from over the centuries The book concludes with a Millennium Anthology a salute to the poetry of the past thousand years including pieces from England Ireland Scotland and Wales as well as Australia Canada New Zealand and the USA

The Man from Buena Vista Charles Edward Eaton, 2001

Surviving the Storm Cheryl Krauter, 2017-02-27 *Surviving the Storm* presents a humanistic psychological perspective on how to support cancer survivors by offering an individualized narrative structure designed to help them tell their stories This is a book for people who need to

tell the story of how they've been touched by cancer. It doesn't tell what to eat or how much to exercise or what to think and feel. Instead, it introduces a contemplative perspective and gives readers a pragmatic structure to help them tell their unique story of surviving or living with cancer. It helps them discover their authentic voice, giving them a way to speak in their own words. Workbook sections are the core of this book and offer a narrative structure created for patients, partners, families, and friends, with an emphasis on the different needs and questions of each group. This book focuses on the whole person, their potential, and their natural drive toward authenticity. A contemplative perspective emphasizes shared human needs, such as love, belonging, and personal meaning, and expands beyond the learning-based, behavioral, and psychosocial resources that are currently available to cancer patients and their families. The book provides options that differ from the support group and medical models of treatment, opening up an alternative to the mode of managing or tolerating the issues of cancer into the realm of awareness, exploration, acceptance, and transformation. While it is tempting to find solutions and try to solve, there is much to be gained from learning how to live with uncertainty and from delving more deeply into the emotional residue of cancer. Included are definitions of the different phases of cancer survivorship, material that gives survivors a viewpoint that normalizes the challenges they face, and current research and literature. Personal stories of cancer survivors are highlighted, and poetry and writings related to cancer are interspersed throughout the book to make it more personal.

On Sacred Ground Nicholas O'Connell, 2011-10-01 *On Sacred Ground* explores the literature of the Northwest, the area that extends from the Pacific Ocean to the Rocky Mountains and from the forty-ninth parallel to the Siskiyou Mountains. The Northwest exhibits astonishing geographical diversity, and yet the entire bioregion shares a similarity of climate, flora, and fauna. For Nicholas O'Connell, the effects of nature on everyday Northwest life carry over to the region's literature. Although Northwest writers address a number of subjects, the relationship between people and place proves the dominant one, and that has been true since the first tribes settled the region and began telling stories about it thousands of years ago. Indeed, it is the common thread linking Chief Seattle to Theodore Roethke, Narciissa Whitman to Ursula K. Le Guin, Joaquin Miller to Ivan Doig, Marilynne Robinson to Jack London, Betty MacDonald to Gary Snyder. Tracing the history of Pacific Northwest literary works from Native American myths to the accounts of explorers and settlers, the effusions of the romantics, the sharply etched stories of the realists, the mystic visions of Northwest poets, and the contemporary explosion of Northwest poetry and prose, O'Connell shows how the most important contribution of Northwest writers to American literature is their articulation of a more spiritual human relationship with landscape. Pacific Northwest writers and storytellers see the Northwest not just as a source of material wealth but as a spiritual homeland, a place to lead a rich and fulfilling life within the whole context of creation. And just as the relationship between people and place serves as the unifying feature of Northwest literature, so also does literature itself possess a perhaps unique ability to transform a landscape into a sacred place.

Gilcrest, 2002-05-01 This work covers important and neglected ground environmental language theory Gilcrest poses two overarching questions To what extent does contemporary nature poetry represent a recapitulation of familiar poetics And to what extent does contemporary nature poetry engage a poetics that stakes out new territory He addresses these questions with important thinkers especially Kenneth Burke and considers such poets as Frost Kunitz Heaney Ammons Cardenal and Rich
