Feeling the Heat From the Editors of *E/The Environmental Magazine*, 2005-06-22. For an increasing number of people, global warming is not an academic and scientific debate but a matter of survival. As the planet warms at a rate of four degrees Fahrenheit per century, violent storms are increasing in frequency, icebergs are melting, sea level is rising, species are losing their habitats and temperature records are being broken. *Feeling the Heat* consists of chapter-length visits by well-known authors to actual world hot spots where people are already coping day to day with the consequences of climatic disruption. The locations for the book were strategically chosen because each represents a separate and important global warming impact such as rising tides, melting glaciers, evolving ecosystems and air pollution. *Feeling the Heat* takes global warming out of the realm of armchair speculation and arcane scientific debate, revealing the process of climate change to be ongoing, serious and immediate.

A History of the Peninsular War, Volume II January to September 1809 Sir Charles William Chadwick Oman KBE, 2014-08-15. Illustrated with 9 maps and 5 portraits. The 1807-14 war in the Iberian Peninsula was one of the most significant and influential campaigns of the Napoleonic Wars. Arising from Napoleon's strategic need to impose his rule over Portugal and Spain, it evolved into a constant drain on his resources. Sir Charles Oman's seven-volume history of the campaign is an unrivalled and essential work. His extensive use and analysis of French, Spanish, Portuguese and British participants' accounts and archival material, together with his own inspection of the battlefields, provides a comprehensive and balanced account of this most important episode in Napoleonic military history. The fate of the Iberian Peninsula was very much in the balance during the period January-September 1809 when it seemed all too possible that Napoleon would achieve control over Spain and Portugal. This volume covers the continuing Spanish resistance to French occupation, the renewed French invasion of Portugal and the return to the Peninsula and subsequent victories of Sir Arthur Wellesley, including his outmanoeuvring of the French from Oporto and culminating in the hard-fought victory at Talavera.
