Structural Change In The American Economy:

Structural Change in the American Economy Anne P. Carter,1970 This work assembles comparable input output tables for 1939 1947 and 1958 along with auxiliary information on labor capital and final demand for 1939 1947 1958 and 1961 data that have not in the past been readily accessible to most students and business analysts Graphic forms of presentation liberally supplement the basic tables The study shows how technological change has affected industrial specialization as well as direct primary inputs and how these components of change are interrelated

New Firms, Economic Performance and Structural Change in the American Economy Gary R. Saxonhouse,1996 *Energy Use and the U.S. Economy* ,1990

Energy Use and the U.S. Economy United States. Congress. Office of Technology Assessment,1990 **Technology and the American Economic Transition** ,1988 *Applications of the Input-Output Framework* Kakali Mukhopadhyay,2018-12-05 This book provides a fresh perspective on the ever growing relevance of input output analysis in problem solving It is based on the 19th National Conference of the Input Output Research Association of India IORA held in 2017 in Mumbai India The conference promoted the exchange of ideas on input output analysis and related methods among economists government officials policymakers academicians and industrialists The book captures the unique ideas of prominent scholars extends the basic input output framework analytical tool outlines the possible impacts of some major policy decisions adopted by the Government of India and puts forward concrete policy suggestions In addition it highlights the versatility of the Leontief model which is currently being extended to cover a diverse spectrum of policy issues ranging from agricultural productivity to science and technology and from carbon hotspots to energy and environmental consequences A perfect blend of theory and application the book provides a realistic outlook on sensitive economies and interdependencies between sectors

Productivity and U.S. Economic Growth Dale Weldeau Jorgenson, Frank M. Gollop, Barbara M. Fraumeni,1987 Between 1948 and 1979 economic activity in the United States increased almost twice as much as over the entire preceding course of American history The traditional explanation of this remarkable development emphasizes productivity growth In the most sophisticated study to date of the factors currently affecting economic growth the authors of this book show that capital formation is far more important with the growth of labor resources and productivity a distant second Their conclusions rest on a far more detailed empirical base than any ever assembled in studies of economic growth For example the authors distinguish among 81 600 types of labor input broken down by age sex education occupation and industry of employment Similarly they disaggregate capital by industry class of asset and tax treatment Their analysis of economic growth is from the bottom up rather than the top down approach used in earlier work The new findings imply that efforts to revive U S economic growth must focus on increased supplies of capital and labor inputs This is the key to more rapid growth and international competition One of the most important features of the book is the way in which it successfully integrates the theory of producer behavior with the indexing and measurement of production

growth The authors present startling new findings showing that less than one fourth of overall growth is attributable to advances in productivity **Government Reports Announcements & Index** ,1988 **Research, Technological Change, and Economic Analysis** Bela Gold,1977 Energy in the American economy, 1850-1975 Resources for the Future,1960 *The American Economic Review* ,1968 Includes annual List of doctoral dissertations in political economy in progress in American universities and colleges and the Hand book of the American Economic Association Budget Issues For Fiscal Year 1983: Hearings -- 97th Congress, 2nd Session, Volume 4. ,1982 *Explaining Fluctuations in the Availability of Mortgage Credit in the American Economy, 1945-1975* Michael Lyall Penzer,1976 *Intertemporal Comparison of the Structure of the Soviet Economy* Gene D. Guill,1974 **Brown V. Board of Education** Robert J. Cottrol,Raymond T. Diamond,Leland Ware,2003 Tracing the litigations highlighting the pivotal role of the NAACP and including incisive portraits of key players this book simply but powerfully shows that Brown not only changed the national equation of race and caste it also changed our view of the Court s role in American life *Input-output Table of Tanzania for 1992: Working papers* ,1999 Capital Coefficients and Dynamic Input-output Models Anne P. Carter,1975 Developings ex ante input output flow and capital coeficients Investment matrices for the United Kinggdom their structure and use in forecasting A dynamic model of capital replacement Old and new structures as alternatives optimal combinations of 1047 and 1958 technologies Relative prices and wages Bills under steady growth rates A traverse model for change of steady growth rate **Transactions** Actuarial Society of America,1929 **Mobilizing for Modern War** Paul A. C. Koistinen,1997 In this volume Koistinen examines war planning and mobilizing in an era of rapid industrialization and reveals how economic mobilization for defense and war is shaped at the national level by the interaction of political economic and military institutions and by increasingly powerful and expensive weaponry **Annual Review of Energy** ,1989
