The pleasures of mystery novels and historical fiction double when the two genres meet in a single book. This detailed guide is the first to document and describe the diverse writings in the growing body of historical mystery literature. Its focus is on the best, most representative, most current, and easily accessible publications, with an emphasis on series novels. Most have been released in the past decade, with select classic historical mysteries, e.g., Christie's *Death Comes as the End* (1945) also cited. Organized alphabetically by author name and series title, the guide covers the works of approximately 70 authors and contains descriptions of more than 700 works with crime themes, whether strictly in the mystery genre or a mainstream literary novel. For those who want to read historical mysteries in sequence, this is an essential guide, and for those seeking background information on historical mysteries to guide their reading or collection development choices, this book offers a level of detail that facilitates selection. Each series entry names the scene of the crime, identifies the detective and his or her chief associates, notes the series premise, comments on characteristics, features, and overall series quality, and discusses the critical response. Individual series titles, *The Cases*, are then listed and described in series or chronological order. Additional access to titles is provided through detailed indexes: author, title, series, and individual characters and settings, time and place. Academic, public, and high school librarians will welcome this guide as a valuable reference, readers' advisory, and collection development tool.

*The Nurse Murders* Jon Talton, 2023-12-05. A sadistic killer is terrorizing Phoenix, and he's got Gene Hammons' number. It's 1936, and private investigator Gene Hammons has more work than he can handle. A crime syndicate, J. Edgar Hoover, a wealthy family from the East, and a wily stalker all want something from him. His capable but drug-addicted brother, still a homicide detective, is as much a hindrance as a help. Luckily, Hammons finds a professional ally in Pamela Bradbury, a fellow gumshoe with some new tricks to teach him. When the two pair up, there doesn't seem to be a case they can't solve, from kidnapping to blackmail to an intricate gold smuggling operation. But then a young nurse with red hair is sadistically raped and killed, and Gene recognizes the signs of a lust murderer, having famously solved the case of the University Park Strangler years earlier. When he's contacted by the killer, Hammons knows he and Pamela must work quickly to catch the brutal murderer before he strikes again. The two come to each other's rescue more than once, and as deep feelings develop between them, it's not lost on Gene that their relationship might well prove dangerous.

Elder, 2010-07-23 Sace Elder has exhaustively researched both newspaper and other popular and professional treatments of murder cases and archival sources of police investigations and trials in Berlin between 1919 and 1931. *Murder Scenes* is an innovative and insightful exploration of the ways in which these investigations and trials and the publicity surrounding them reflected and shaped changing notions of normality and deviance in Weimar era Berlin. Kenneth Ledford, Case Western Reserve University. Using police reports, witness statements, newspaper accounts, and professional publications, *Murder Scenes* examines public and private responses to homicidal violence in Berlin during the tumultuous years of the Weimar era. Criminology and police science, both of which became increasingly professionalized over the period, sought to control and contain the blurring of these boundaries but could only do so by relying on a public that was willing to participate in the project. These Weimar developments in police practice in Berlin had important implications for what Elder identifies as an emerging culture of mutual surveillance that was successful both because and in spite of the incompleteness of the system. Police sought to construct a culture that in many ways anticipated the culture of denunciation in the Nazi period. In addition to historians of Weimar modern Germany and modern Europe, German studies and criminal justice scholars will find this book of interest. Sace Elder is Associate Professor of History at Eastern Illinois University. **Paging New Jersey** James F. Broderick, 2003. This engaging book answers such intriguing questions as how author Peter Benchley got the idea for *Jaws* where Aaron Burr shot Alexander Hamilton and why the Hindenberg exploded over Lakehurst in 1937.
