The Historical Constellation Of The Sturm Und Drang:

The Historical Constellation of the Sturm und Drang Larry Vaughan, 1985 The study weaves the fabric of 18th century German history into a multilayered garment with an eye to the brilliant and unifying if broken thread of the Sturm und Drang The analysis proceeds in an interdisciplinary fashion between social layers political economy institutional structures cultural configurations forms of consciousness The study moves dialectically considering all phenomena equidistant from a riven yet holding center on the one hand a developing market economy and civil society but the retardive corporative feudal regime on the other a growing absence of genuine value if only in nostalgia and the seething need of the brothers of unseat the fathers of received opinion Though in life as in literature the brothers came undone or did themselves in and so ended this later 18th century socio aesthetic revolution the German form of the French Revolution Korff

Literature of the Sturm und Drang David Hill, 2003 Carefully focused essays on major aspects of one of the most significant German literary movements the Storm and Stress Sturm und Drang refers to a set of values and a style of writing that arose in Germany in the second half of the eighteenth century a particularly intense kind of pre Romanticism that has often been represented as marking the beginning of an independent modern German culture The circle of writers around the young Goethe including Herder Lenz Klinger and later Schiller felt frustrated by the Enlightenment world of reason balance and control and turned instead to nature as the source of authentic experience Inspired by Rousseau and Herder by Shakespeare and by folk culture they rebelled against propriety and experimented with new literary forms their creative energy bursting through conventions that seemed staid and artificial The Sturm und Drang has often been cited by those attempting to legitimate nationalism and irrationalism but scholars have more recently emphasized the diversity of the movement and the links between it and the Enlightenment This volume of essays by leading scholars from the UK the US and Germany illuminates the guiding ideas of the movement discussing its most important authors texts and ideas and taking account of the variety and complexity of the movement placing it more securely within late eighteenth century European history The main focus is on literature and in particular on the drama which was of special importance to the Sturm und Drang However the essays also outline the social conditions that gave rise to the movement and consideration is given to different currents of ideas that underlie the movement including areas of thought and bodies of work that traditional approaches have tended to marginalize Contributors Bruce Duncan Howard Gaskill Wulf Koepke Susanne Kord Frank Lamport Alan Leidner Matthias Luserke Michael Patterson Gerhard Sauder Margaret Stoljar Daniel Wilson Karin Wurst David Hill is a Senior Lecturer in the Department of German Studies at the University of Birmingham UK **Constellation** James McFarland, 2012-12-31 The first extended exploration of the relationship between the Weimar era revolutionary cultural critic and the radical philosopher In five chapters Constellation presents the changing figure of Friedrich Nietzsche as Walter Benjamin encountered him an inspiration to his student activism an authority for his skeptical philology a

manifestation of his philosophical nihilism a companion in his political exile and ultimately a subversive collaborator in his efforts to think beyond the hopeless temporality new and always the same of the present moment in history A Primer on German Enlightenment Sabine Roehr,1995 A translation into English of the work of late German Enlightenment thinker Karl Leonhard Reinhold 1757 1823 best known for his interpretations of Kant and whose writings on theoretical philosophy were significant for the development of philosophy after Kant Roehr prefaces the translation with an approximately 150 page analysis of the relevant moral religious political and philosophical thought of the German Enlightenment Annotation copyright by Book News Inc Portland OR *Sturm und Drang* Ulrich Karthaus,2000 **The Oxford Handbook of European Romanticism** Paul Hamilton,2016-01-14 TThe Oxford Handbook to European Romanticism brings together leading scholars in the field to examine the intellectual literary philosophical and political elements of European Romanticism The book focuses on the cultural history of the period extending from the French Revolution to the uprisings of 1848 It begins with a series of chapters examining key texts written by major writers in languages including French German Italian Spanish Russian Hungarian Greek and Polish amongst others A second section then explores the naturally inter disciplinary quality of Romanticism exemplified by the different discourses with which writers of the time set up an internal comparative dynamic These chapters highlight the sense a discourse gives of being written knowledgeably against other pretenders to completeness or comprehensiveness of self understanding of the time Discourses typically advance their own claims to resume European culture collaborating with and at the same time trying to assimilate each other in the process The main examples featured here are history geography drama theology language philosophy political theory the sciences and the media Each chapter offers an original and individual interpretation of an inherently comparative world of individual writers and the discursive idioms to which they are historically subject Together the forty one chapters provide a comprehensive and provocative overview of European Romanticism **Women Peasant Poets in Eighteenth-century England, Scotland, and Germany** Susanne Kord,2003 Table of contents Lessing Yearbook Index to Volumes I-XX and the Supplements Edward Dvoretzky,1994 This volume is a register and bibliography to the first 20 volumes of the Lessing Yearbook and its supplements Humanitaet und Dialog Lessing in heutiger Sicht Nation und Gelehrtenrepublik and Lessing und die Toleranz **Leidenschaft und Vernunft im Drama des Sturm und Drang** Nagla El-Dandoush,2004 In der Dramatik des Sturm und Drang wird die Selbstbestimmungsmaxime der Aufkl rung um einen ausgepr gten Leidenschaftsanspruch erg nzt These der vorliegenden Arbeit ist Die Umwertung der Leidenschaft im Zeichen der Natur der menschlichen wie der universellen bringt Kritik an sozialen Rollen hervor die im Rahmen der Norm als vern nftig gelten In Anlehnung an Kant der die nat rlichen Leidenschaften als Freiheits und Geschlechtsneigung definiert werden vier Dramen des Sturm und Drang auf folgende Aspekte hin interpretiert Goethes G tz auf Vitalit t Schillers R uber auf Freigeisterei Lenzens Hofmeister auf Entsagung und Wagners Kinderm rderin auf Liebe Die von Kant konstatierte selbstverschuldete Unm ndigkeit des Menschen
