Ancient History of China Shelia

Hollihan-Elliott, 2014-09-02 China is one of the world's oldest uninterrupted civilizations and the essential culture and identity of the Chinese people. The Chinese Way was formed more than 2,000 years ago. This volume chronicles the development of Chinese civilization from Neolithic times when agriculture revolutionized society to the early first century A.D. when the Han dynasty's triumph over a usurper firmly established a social and governmental model that would survive into the 20th century. *Ancient History of China* presents China's important formative legends, relates the story of China's early Bronze and Iron Age cultures, chronicles the chaotic periods of warfare that preceded the unification of the country in the third century B.C. and introduces such influential figures as the philosopher Confucius and the emperor Shi Huang Di who built the Great Wall and commissioned the sculpting of a huge terra cotta army to guard his grave. Students will be fascinated by this fast-moving and informative account.

Science and Civilisation in China: Volume 2, History of Scientific Thought Joseph

Needham, 1977 The second volume of Dr Joseph Needham's great work *Science and Civilisation in China* is devoted to the history of scientific thought. Beginning with ancient times it describes the Confucian milieu in which arose the organic naturalism of the great Taoist school, the scientific philosophy of the Mohists and Logicians and the quantitative materialism of the Legalists. Thus we are brought on to the fundamental ideas which dominated scientific thinking in the Chinese middle ages. The author opens his discussion by considering the remote and pictographic origins of words fundamental in scientific discourse and then sets forth the influential doctrines of the Two Forces and the Five Elements. Subsequently he writes of the important sceptical tradition, the effects of Buddhist thought and the Neo-Confucian climax of Chinese naturalism. Last comes a discussion of the conception of Laws of Nature in China and the West.
