Hutton, 1993 Hutton considers the ideas of philosophers poets and historians to seek out the roots of fact as mere recollection The Science of History in Victorian Britain Ian Hesketh, 2016-09-12 New attitudes towards history in nineteenth century Britain saw a rejection of romantic literary techniques in favour of a professionalized scientific methodology The development of history as a scientific discipline was undertaken by several key historians of the Victorian period influenced by German scientific history and British natural philosophy This study examines parallels between the professionalization of both history and science at the time which have previously been overlooked Hesketh challenges accepted notions of a single scientific approach to history Instead he draws on a variety of sources monographs lectures correspondence from eminent Victorian historians to uncover numerous competing discourses **Medieval Scholarship** Helen Damico, Joseph B. Zavadil, 2014-06-23 Surveying the development of medieval scholarship through biography this volume contains 23 original essays on scholars whose work shaped medieval historiography for the past 300 years Their subject was Europe between 500 and 1500 and they labored to define that protean and multinational culture Each of them pioneered or revolutionized traditional views on fields such as diplomatics Mabillon economic social and constitutional history Power Pirenne Bloch Stubbs Waitz Whitelock Maitland manuscript and archival studies Delisle Muratori Jewish history and the history of Islam and Byzantium von Grunebaum Ostrogorsky symbology and intellectual history Kantorowicz Schramm Smalley general and cultural history Gibbon Adams Haskins Sanchez Albornoz and ecclesiastical history Bolland Lea and the history of magic and science Thorndike Some of the scholars pioneered comparative and interdisciplinary studies all published work that is still essential to our understanding of the past and more important the present History and Community Florence S. Boos, 2016-04-14 The essays in this volume originally published in 1992 examine some of the pervasive implications of Victorian medievalism and assess its creative manifestations and dual capacities for expression of reformist anger and escapist retreat Some of the emotional and intellectual reasons for the strong Victorian attraction to medieval history and literature are discussed and emblematic responses to this attraction are examined *Writing the History of the British Stage* Richard Schoch, 2016-09-12 This is the first book on British theatre historiography It traces the practice of theatre history from its origins in the Restoration to its emergence as an academic discipline in the early twentieth century In this compelling revisionist study Richard Schoch reclaims the deep history of British theatre history valorizing the usually overlooked scholarship undertaken by antiquarians booksellers bibliographers journalists and theatrical insiders none of whom considered themselves to be professional historians Drawing together deep archival research close readings of historical texts from the seventeenth eighteenth and nineteenth centuries and an awareness of contemporary debates about disciplinary practice Schoch overturns received

interpretations of British theatre historiography and shows that the practice and the diverse practitioners of theatre history were far more complicated and far more sophisticated than we had realised His book is a landmark contribution to how theatre historians today can understand their own history      **The Cambridge History of English Literature, 1660-1780**

John Richetti,2005-01-06 The Cambridge History of English Literature 1660 1780 offers readers discussions of the entire range of literary expression from the Restoration to the end of the eighteenth century In essays by thirty distinguished scholars recent historical perspectives and new critical approaches and methods are brought to bear on the classic authors and texts of the period Forgotten or neglected authors and themes as well as new and emerging genres within the expanding marketplace for printed matter during the eighteenth century receive special attention and emphasis The volume s guiding purpose is to examine the social and historical circumstances within which literary production and imaginative writing take place in the period and to evaluate the enduring verbal complexity and cultural insights they articulate so powerfully

History, empire, and Islam Vicky Randall,2020-03-05 This book offers the first comprehensive treatment of the historian and public moralist E A Freeman since the publication of W R W Stephens Life and Letters of Edward A Freeman 1895 While Freeman is often viewed by modern scholars as a panegyrist to English progress and a proponent of Aryan racial theory this study suggests that his world view was more complicated than it appears Revisiting Freeman s most important historical works this book positions Thomas Arnold as a significant influence on Freeman s view of world historical development Conceptualising the past as cyclical rather than unilinear and defining race in terms of culture rather than biology Freeman s narratives were pervaded by anxieties about recapitulation Ultimately this study shows that Freeman s scheme of universal history was based on the idea of conflict between Euro Christendom and the Judeo Islamic Orient and this shaped his engagement with contemporary issues      Turning Points in Historiography Q. Edward Wang,Georg G. Iggers,2002 An examination of how historical thinking has changed in recent years through a comparison between Eastern and Western epochs

*An Analysis of Richard J. Evans's In Defence of History* Nicholas Piercey,Tom Stammers,2017-07-05 La 4 me de couv indique Postmodernist thinkers consider history to be not very far removed from a work of fiction something dependent on historians own interpretations of the past Evans however argues that we can trust history and it is possible to be objective about what happened and what caused it to happen because historians are constrained and enabled by the surviving evidence Evans shows how an understanding of social issues and rigorous scientific research give history shape and why history is not simply what we make of it He argues that this postmodernist view is contradictory and can lead to dangerous problems if we accept all historical interpretations as equally valid      *The Challenges of Command* Robert L. Davison,2016-04-01 In the period leading up to the First World War Britain s naval supremacy was challenged by an arms race with Germany fuelled not only by military and geo strategic rivalries but an onrush of technological developments As this book demonstrates steam turbines bigger guns mechanical computing devices and ever increasing tonnage meant that the Royal Navy was forced to

confront many long cherished beliefs and sensitive social and political issues By looking at key continuities over the period of 1880-1919 the study explores how the service and its officers attempted to deal with fundamental changes in professional requirements and how cultural and social values underwent a transformation in the run up to the First World War In particular the book looks at how the executive officer corps was presented with a revolution in naval affairs As the Navy was transformed into an industrialized workplace officers were challenged by an alteration in the culture of command as arrangements carried over from the days of sail began to breakdown under the practical requirements of a steam and steel fleet The book charts the ebb and flow of the debate and the various ideas put forward to deal with the structural challenges faced by the Royal Navy The writings of reformers and commentators such as Fisher Beresford Corbett Laughton and Mahan provide the background to the specific problems faced and are analysed both in relation to the nature of the reforms implemented and more crucially the performance of the Senior Service during the First World War

Women in English Society, 1500-1800 Mary Prior, 2005-09-30 Provides a systematic analysis of various aspects of women's lives between 1500 and 1800 concentrating on detailed research into specific groups of women where it has been possible to build up a picture in some detail

Continental Drift Benjamin Grob-Fitzgibbon, 2016-05-26 A fascinating new account of Britain's uneasy relationship with the European continent since the end of the Second World War set against the backdrop of decolonization the Cold War and the Anglo American relationship Benjamin Grob Fitzgibbon charts Britain's evolution from an island of imperial Europeans to one of post imperial Eurosceptics

*Enlightened Oxford* Nigel Aston, 2023-09-19 *Enlightened Oxford* aims to discern establish and clarify the multiplicity of connections between the University of Oxford its members and the world outside to offer readers a fresh contextualised sense of the University's role in the state in society and in relation to other institutions between the Williamite Revolution and the first decade of the nineteenth century the era loosely describable though not without much qualification as England's ancien regime Nigel Aston asks where Oxford fitted in to the broader social and cultural picture of the time locating the University's importance in Church and state and pondering its place as an institution that upheld religious entitlement in an ever shifting intellectual world where national and confessional boundaries were under scrutiny *Enlightened Oxford* is less an inside history than a consideration of an institutional presence and its place in the life of the country and further afield While admitting the degree of corporate inertia to be found in the University there was internal scope for members so inclined to be creative in their teaching open new research lines and be unapologetic Whigs rather than unrepentant Tories For if Oxford was a seat of learning rooted in its past and with an increasing antiquarian awareness of its inheritance yet it had a surprising capacity for adaptation a scope for intellectual and political pluralism that was not incompatible with enlightened values

**George Eliot and Victorian Historiography** Neil McCaw, 2000-07-25 In this new study of George Eliot's fiction textual attempts to imagine a coherent and unified national past are seen as producing a contradictory vision of Englishness It is a historiographical national identity constructed in the

image of predominant and conflicting trends in the Victorian writing of history The inherent uncertainty caused by the shift between different perceptions of English history leads in the later fiction to an abandonment of contemporaneous grand narratives The consequence is a history that anticipates a more modern radical philosophy of history

Tudor Histories of the English Reformation, 1530-83 Thomas Betteridge, 2016-12-05 This book examines the Tudor histories of the English Reformation written in the period 1530-83 All the reforming mid Tudor regimes used historical discourses to support the religious changes they introduced Indeed the English Reformation as a historical event was written and rewritten by Henrician Edwardian Marian and Elizabethan historians to provide legitimation for the religious policies of the government of the day Starting with John Bale's King Johan this book examines these histories of the English Reformation It addresses the issues behind Bale's editions of the Examinations of Anne Askewe discusses in detail the almost wholly neglected history writing of Mary Tudor's reign and concludes with a discussion of John Foxe's Acts and Monuments In the process of working chronologically through the Reformation historiography of the period 1530-1583 this book explores the ideological conflicts that mid Tudor historians of the English Reformation addressed and the differences but also the similarities often cutting across doctrinal differences that existed between their texts

**In Defence of History** Richard J. Evans, 2012-11-01 A lucid muscular and often sly reflection on the worth and purpose of historical scholarship by the award winning author of The Third Reich Trilogy Kirkus In this volume the renowned historian Richard J Evans offers a fervent and deeply insightful defense of his craft and its importance to civilization At a time when fact and historical truth are under unprecedented assault Evans shows us why history is necessary Taking us into the historians workshop he offers a firsthand look at how good history gets written In staunch opposition to the wilder claims of postmodern historians Evans thoroughly dismantles the notion that a realistic grasp of history is impossible to attain He then goes on to explain the deadly political dangers of losing a historical perspective on the way we live our lives In the tradition of E H Carr's What Is History and G R Elton's The Practice of History Evans In Defense of History delivers a model of lucid and intelligent historiographical analysis The Guardian UK
