MD,2003-02-01 NINDS has been one of the most powerful motors that pulled and pushed the rise of modern neuroscience  
This book was written in celebration of the fiftieth anniversary of the institute Its history and the history of neurology and  
neuroscience are essentially one Well written and lavishly accompanied by photographs that span the last half century this  
book will be a welcome addition to the library of everyone in brain research and the clinical neurosciences The first half is a  
history of the Institute starting with the enabling legislation and concentrating on the people who made NINDS a  
powerhouse of neuroscience research The cast includes administrators legislators scientists and two unique women Mary  
Lasker and Florence Mahoney Against this background the leaders of the intramural program provide the history of major  
contributions The much larger extramural program encompasses biomedical research centers throughout the United States  
NINDS has been a major source of training for basic scientists in neurosciences and the single major source in developing  
clinical investigation In the process modern scientific neurology and neurosurgery have been created Oral histories provide  
human terms for the history More than half of the book is devoted to biographies of scientists whose contributions earned
