The Hollywood Epic

Cecilia de Mille Presley, Mark A. Vieira

The Hollywood Epic:

The Hollywood Epic Foster Hirsch, 1978 The History of the Epic A. Johns-Putra, 2006-07-11 This book presents a history of the epic from the classical age to the present day It deals not just with the well know epics of antiquity and the Renaissance but also pursues developments in more recent literature and film It offers an exploration of the changes that have taken place in the genre from Homer to Hollywood *The Epic Films of David Lean* Constantine Santas, 2012 In this volume David Lean's now undervalued epics *The Bridge on the River Kwai* *Lawrence of Arabia* *Doctor Zhivago* *Ryan's Daughter* and *A Passage to India* are restored to the elevated esteem they once held **Cecil B. DeMille** Cecilia de Mille Presley, Mark A. Vieira, 2014-12-16 *Colossal Stupendous Epic* These adjectives used by movie companies to hawk their wares became clichés long ago When used to describe the films of one director they are accurate More than any filmmaker in the history of the medium Cecil B DeMille mastered the art of the spectacle In the process he became a filmland founder One hundred years ago he made the first feature film ever shot in Hollywood and went on to become the most commercially successful producer-director in history DeMille told his cinematic tales with painterly extravagant images The parting of the Red Sea in *The Ten Commandments* was only one of these There were train wrecks *The Greatest Show on Earth* orgies *Manslaughter* battles *The Buccaneer* *Ancient Rome* *The Sign of the Cross* *Ancient Egypt* *Cleopatra* and *the Holy Land* *The Crusades* The best of these images are showcased here in Cecil B DeMille *The Art of the Hollywood Epic* This lavish volume opens the King Tut's tomb of cinematic treasures that is the Cecil B DeMille Archives presenting storyboard art concept paintings and an array of photographic imagery Historian Mark A Vieira writes an illuminating text to accompany these scenes Cecilia de Mille Presley relates her grandfather's thoughts on his various films and recalls her visits to his sets including the Egyptian expedition to film *The Ten Commandments* Like the director's works Cecil B DeMille *The Art of the Hollywood Epic* is a panorama of magnificence celebrating a legendary filmmaker and the remarkable history of Hollywood

The Epic Film in World Culture Robert Burgoyne, 2010-09-13 With the recent release of spectacular blockbuster films from *Gladiator* to *The Lord of the Rings* trilogy the epic has once again become a major form in contemporary cinema This new volume in the AFI Film Readers series explores the rebirth of the epic film genre in the contemporary period a period marked by heightened and conflicting appeals to national ethnic and religious belonging The original essays in this volume explore the tension between the evolving global context of film production and reception and the particular provenance of the epic as an expression of national mythology and aspirations challenging our understanding of epics produced in the present as well as our perception of epic films from the past The contributors will explore new critical approaches to contemporary as well as older epic films drawing on ideas from cultural studies historiography classics and film studies

The Epic in Film Constantine Santas, 2008 Encourages us to wonder why critics have routinely dismissed the epic film This work argues that blockbuster and artistic are not mutually exclusive terms and that epic film is an inherently profound

genre in its ability to tap into a nation's dreams and fears *Film and the Classical Epic Tradition* Joanna Paul, 2013-02-28 Paul explores the relationship between films set in the ancient world and the classical epic tradition arguing that there is a connection between the genres Through this careful consideration of how epic manifests itself through different periods and cultures we learn how cinema makes a claim to be a modern vehicle for a very ancient tradition [Return of the Epic Film](#) Andrew Elliot, 2015-03-05 With the success of *Gladiator* both critics and scholars enthusiastically announced the return of a genre which had lain dormant for thirty years However this return raises important new questions which remain unanswered Why did the epic come back and why did it fall out of fashion Are these the same kinds of epics as the 1950s and 60s or are there aesthetic differences Can we treat *Kingdom of Heaven*, *300* and *Thor* indiscriminately as one genre Are non Western histories like *Hero* and *Mongol* epics too Finally what precisely do we mean when we talk about the return of the epic film and why are they back The *Return of the Epic Film* offers a fresh way of thinking about a body of films which has dominated our screens for a decade With contributions from top scholars in the field the collection adopts a range of interdisciplinary perspectives to explore the epic film in the twenty first century **The Epic World** Pamela Lothspeich, 2024-01-30 Reconceptualizing the epic genre and opening it up to a world of storytelling The *Epic World* makes a timely and bold intervention toward understanding the human propensity to aestheticize and normalize mass deployments of power and violence The collection broadly considers three kinds of epic literature conventional celebratory tales of conquest that glorify heroism especially male heroism anti epics or stories of conquest from the perspectives of the dispossessed the oppressed the despised and the murdered and heroic stories utilized for imperialist or nationalist purposes The *Epic World* illustrates global patterns of epic storytelling such as the durability of stories tied to religious traditions and or to peoples who have largely stayed put the tendency to reimagine and retell stories in new ways over centuries and the imbrication of epic storytelling and forms of colonialism and imperialism especially those perpetuated and glorified by Euro Americans over the past 500 years resulting in unspeakable and immeasurable harms to humans other living beings and the planet Earth The *Epic World* is a go to volume for anyone interested in epic literature in a global framework Engaging with powerful stories and ways of knowing beyond those of the predominantly white Global North this field shifting volume exposes the false premises of Western civilization and Classics and brings new questions and perspectives to epic studies *The Epic Cinema of Kumar Shahani* Laleen Jayamanne, 2014-10-22 Laleen Jayamanne examines the major works of leading Indian film director Kumar Shahani and explores the reaches of modernist film aesthetics in its international form More than an auteur study Jayamanne approaches Shahani's films conceptually as those that reveal cinema's synaesthetic capabilities or cinaesthesia As the author shows Shahani's cinematic project entails a modern reformulation of the ancient oral tradition of epic narration and performance in order to address the contemporary world establishing a new cinematic expression an epic idiom As evidenced by his films constructing cinematic history becomes more than an archival project of retrieval and is instead a

living history of the present which can intervene in the current moment through sensory experiences propelling thought

Film Genre Reader IV Barry Keith Grant, 2012-12-01 From reviews of the third edition Film Genre Reader III lives up to the high expectations set by its predecessors providing an accessible and relatively comprehensive look at genre studies The anthology's consideration of the advantages and challenges of genre studies as well as its inclusion of various film genres and methodological approaches presents a pedagogically useful overview Scope Since 1986 Film Genre Reader has been the standard reference and classroom text for the study of genre in film with more than 25 000 copies sold Barry Keith Grant has again revised and updated the book to reflect the most recent developments in genre study This fourth edition adds new essays on genre definition and cycles action movies science fiction and heritage films along with a comprehensive and updated bibliography The volume includes more than thirty essays by some of film's most distinguished critics and scholars of popular cinema including Charles Ram rez Berg John G Cawelti Celestino Deleyto David Desser Thomas Elsaesser Steve Neale Thomas Schatz Paul Schrader Vivian Sobchack Janet Staiger Linda Williams and Robin Wood Epic in American

Culture Christopher N. Phillips, 2012-05 This book investigates the concept of what it means to be epic and its form in American life literature and art from the country's early days *Philosophy, Myth and Epic Cinema* Sylvie Magerstädt, 2014-12-15 Philosophy Myth and Epic Cinema looks at the power of cinema in creating ideas that inspire our culture Sylvie Magerst dt discusses the relationship between art illusion and reality a theme that has been part of philosophical debate for centuries She argues that with the increase in use of digital technologies in modern cinema this debate has entered a new phase She discusses the notion of illusions as a system of stories and values that inspire a culture similar to other grand narratives such as mythology or religion Cinema thus becomes the postmodern mythmaking machine par excellence in a world that finds it increasingly difficult to create unifying concepts and positive illusions that can inspire and give hope The author draws on the work of Friedrich Nietzsche Siegfried Kracauer and Gilles Deleuze to demonstrate the relevance of continental philosophy to a reading of mainstream Hollywood cinema The book argues that our longing for illusion is particularly strong in times of crisis illustrated through an exploration of the recent revival of historic and epic myths in Hollywood cinema including films such as Troy The Lord of the Rings Trilogy and Clash of the Titans **The**

Encyclopedia of Epic Films Constantine Santas, James M. Wilson, Maria Colavito, Djoymi Baker, 2014-03-21 Soon after film came into existence the term epic was used to describe productions that were lengthy spectacular live with action and often filmed in exotic locales with large casts and staggering budgets The effort and extravagance needed to mount an epic film paid off handsomely at the box office for the genre became an immediate favorite with audiences Epic films survived the tribulations of two world wars and the Depression and have retained the basic characteristics of size and glamour for more than a hundred years Length was and still is one of the traits of the epic though monolithic three to four hour spectacles like Gone with the Wind 1939 and Lawrence of Arabia 1962 have been replaced today by such franchises as the Harry Potter

films and the Lord of the Rings trilogy Although the form has evolved during many decades of existence its central elements have been retained refined and modernized to suit the tastes of every new generation The Encyclopedia of Epic Films identifies describes and analyzes those films that meet the criteria of the epic sweeping drama panoramic landscapes lengthy adventure sequences and in many cases casts of thousands This volume looks at the wide variety of epics produced over the last century from the silent spectacles of D W Griffith and biblical melodramas of Cecil B DeMille to the historical dramas of David Lean and rollercoaster thrillers of Steven Spielberg Each entry contains Major personnel behind the camera including directors and screenwriters Cast and character listings Plot summary Analysis Academy Award wins and nominations DVD and Blu ray availability Resources for further study This volume also includes appendixes of foreign epics superhero spectaculars and epics produced for television along with a list of all the directors in the book Despite a lack of overall critical recognition and respect as a genre the epic remains a favorite of audiences and this book pays homage to a form of mass entertainment that continues to fill movie theaters The Encyclopedia of Epic Films will be of interest to academics and scholars as well as any fan of films made on a grand scale

Inventing the Movies Scott Kirsner, 2008 From Edison to the iPod from the Warner Brothers to George Lucas the story of how the movies became America's favorite form of escapist entertainment and retained their hold on our imaginations for more than a century is a story of innovators prevailing again and again over skeptics who prefer to preserve the status quo Inventing the Movies unspools the never before told story of the innovators who shaped Hollywood how a chance meeting at the Saratoga Race Track led to the end of black and white movies how Bing Crosby brought you the VCR how Walt Disney tamed television how a shotgun blast signaled the end of hand made models and the beginning of digital special effects and how even the almighty Morgan Freeman had trouble persuading theater owners that the Internet wasn't their mortal enemy Inventing the Movies is an important read not just for fans of Hollywood's history but for innovators trying to make change happen in any industry Cinemulacrum Aaron Sultanik, 2012-04-19

Cinemulacrum a conflation of cinema the art of the Hollywood film and simulacrum a reality counterfeit was coined to designate contemporary media culture This period is distinguished by the advent of digital film video an ideology of fantasy as the central narrative of movies and television and a ruling audience demographic of the young adult A pre cinemulacrum era 1960-1980 and Age of Cinemulacrum 1980 to the present day are demarcated to examine the fall and rise of classical Hollywood and the hegemony of television in a media dyad of movies and television Cinemulacrum argues that the convergence of technology ideology and audience represent the primary factors surrounding the social immediacy of movies and television and that video fantasy and the young adult have replaced film realism and the family as the outstanding attributes of contemporary media culture A contemporary vision of media culture emerges in the 1980s George Lucas and Steven Spielberg lead a populist new wave combining technological modernity with a retro sensibility grounded both in B movie melodramas and the genteel domesticated television sitcoms of the 1950s Television however gains an unrivaled

authority through the spinoff production model and the expanded resources of cable with its 24 7 news sports and movies Advocating a new or alternate history of movies and television the author assesses critical trends from America s hybrid media culture The pre cinemulacrum era is unraveled through an apocrypha of violence a cycle of conflicting portrayals of movie violence and heroism in Bonnie and Clyde Dirty Harry The Godfather Taxi Driver and Rocky The Age of Cinemulacrum is then characterized by the making of simulacra the proliferating nature of movie sequels prequels and special editions and by television s multi generational young adult demographic of The Cosby Show Seinfeld and The Simpsons The author concludes his study with an annotated timeline The Seven Ages of Cinemulacrum listing the history making movies and television programs in contemporary media culture

Handbook of Research on the Impact of Culture and Society on the Entertainment Industry Ozturk, R. Gulay,2014-06-30 This reference provides a review of the academic and popular literature on the relationship between communications and media studies cinema advertising public relations religion food

tourism art sports technology culture marketing and entertainment practices Provided by publisher Receptions of the Ancient Near East in Popular Culture and Beyond Agnes Garcia-Ventura,Lorenzo Verderame,2020-03-01 This book is an enthusiastic celebration of the ways in which popular culture has consumed aspects of the ancient Near East to construct new realities The editors have brought together an impressive line up of scholars archaeologists philologists historians and art historians to reflect on how objects ideas and interpretations of the ancient Near East have been remembered

constructed reimagined mythologized or indeed forgotten within our shared cultural memories The exploration of cultural memories has revealed how they inform the values structures and daily life of societies over time This is therefore not a collection of essays about the deep past but rather about the stories we tell ourselves about ourselves **Epic / everyday**

Sarah Cardwell,Jonathan Bignell,Lucy Fife Donaldson,2023-05-30 An exciting new strand in The Television Series the Moments in Television collections celebrate the power and artistry of television whilst interrogating key critical concepts in television scholarship Each Moments book is organised around a provocative binary theme Epic everyday explores the presence within television of the epic and the everyday It argues that attention to ideas of the epic and notions of the everyday can illuminate television programmes in new ways The book explores an eclectic range of TV fictions including Game of Thrones Lost and Dr Who Contributors from diverse perspectives come together to expand and enrich the kind of close analysis most commonly found in television aesthetics Sustained detailed programme analyses are sensitively framed within historical technological institutional cultural creative and art historical contexts **The Epic Film** Derek

Elley,2013-12-04 As Charlton Heston put it There s a temptingly simple definition of the epic film it s the easiest kind of picture to make badly This book goes beyond that definition to show how the film epic has taken up one of the most ancient art forms and propelled it into the modern world covered in twentieth century ambitions anxieties hopes and fantasies This survey of historical epic films dealing with periods up to the end of the Dark Ages looks at epic form and discusses the films

by historical period showing how the cinema reworks history for the changing needs of its audience much as the ancient mythographers did The form's main aim has always been to entertain and Derek Elley reminds us of the glee with which many epic films have worn their label and of the sheer fun of the genre He shows the many levels on which these films can work from the most popular to the specialist each providing a considerable source of enjoyment For instance spectacle the genre's most characteristic trademark is merely the cinema's own transformation of the literary epic's taste for the grandiose Dramatically it can serve many purposes as a resolution of personal tensions the chariot race in Ben Hur of monotheism vs idolatry Solomon and Sheba or of the triumph of a religious code The Ten Commandments Although to many people Epic equals Hollywood throughout the book Elley stresses debt to the Italian epics which often explored areas of history with which Hollywood could never have found sympathy Originally published 1984

Unveiling the Magic of Words: A Review of "**The Hollywood Epic**"

In a global defined by information and interconnectivity, the enchanting power of words has acquired unparalleled significance. Their ability to kindle emotions, provoke contemplation, and ignite transformative change is actually awe-inspiring.
