The Homilies Of The Emperor Leo Vi Medieval Mediterranean Vol 14:

The Homilies of the Emperor Leo VI Th. Antonopoulou, 2021-09-27 This monograph on the Homilies of the Byzantine emperor Leo VI 886-912 provides the first extensive analysis of a neglected corpus of secular and ecclesiastical speeches and sheds new light on both the fascinating figure of the author and the development of Byzantine homiletics [Kalligraphos - Essays on Byzantine Language, Literature and Palaeography](#) Alexander Alexakis, Dimitrios S. Georgakopoulos, 2023-07-04 The present volume is a Festschrift in honor of the distinguished scholar in Late Byzantine, post-Byzantine and Cretan Renaissance studies I Mavromatis. The title *Kalligraphos* is indicative of the foundations of his scholarship which lie in the fields of paleography and early printing. With manuscripts and early printed books as the primary material of his studies, Professor Mavromatis has produced several major works in the fields of Byzantine philology, Cretan Renaissance literature, especially Erotokritos and late Byzantine vernacular poetry. This volume includes a short preface and twenty-four articles by senior and younger scholars, former colleagues, collaborators and students of Professor Mavromatis. The articles are loosely arranged in chronological order of their subject matter and treat issues ranging from Byzantine historiography going back to the 4th century CE to post-Byzantine Cretan poetry of the 17th century. This philological kaleidoscope features new editions and interpretations of hitherto unknown or little-known poems and texts. The volume is intended for scholars, graduate and undergraduate students and the general readership interested in Byzantine and post-Byzantine literature.

The Ashgate Research Companion to Byzantine Hagiography Stephanos Efthymiadis, 2016-04-01 For an entire millennium, Byzantine hagiography, inspired by the veneration of many saints, exhibited literary dynamism and a capacity to vary its basic forms. The subgenres into which it branched out after its remarkable start in the fourth century underwent alternating phases of development and decline that were intertwined with changes in the political, social and literary spheres. The selection of saintly heroes, an interest in depicting social landscapes and the modulation of linguistic and stylistic registers captured the voice of *homo byzantinus* down to the end of the empire in the fifteenth century. The seventeen chapters in this companion form the sequel to those in volume I, which dealt with the periods and regions of Byzantine hagiography and complete the first comprehensive survey ever produced in this field. The book is the work of an international group of experts in the field and is addressed to both a broader public and the scholarly community of Byzantinists, medievalists, historians of religion and theorists of narrative. It highlights the literary dimension and the research potential of a representative number of texts, not only those appreciated by the Byzantines themselves but those which modern readers rank high due to their literary quality or historical relevance.

The Reign of Leo VI (886-912) Shaun Tougher, 1997 This book provides a fresh examination of the Byzantine emperor Leo VI 886-912 and his reign. A consideration of personal and political relationships and internal and external affairs forms the basis of a reassessment of his achievements and kingship.
