Death and Dying John F. Szabo,2009-11-02 While it can be traced to the 1700s the term thanatology has gained traction in recent decades to refer to the study of death Because of the breadth of the published material and the challenges of discovery in large bibliographic databases and catalogs finding and identifying monographic material on death dying grief and bereavement can be extremely challenging Although there have been several bibliographical resources published on thanatology those titles were incomplete limited in scope or leaned heavily toward one area of the field In *Death and Dying An Annotated Bibliography of the Thanatological Literature* John F Szabo provides more than 2 200 citations of monographs on the science and study of death and dying Among the areas this volume addresses are the psychological philosophical and attitudinal aspects coping and dealing with the burdens of caregiving and working in the helping professions instructional and educational topics for practitioners primarily health care providers cultural differences in bereavement rituals and grief mourning and loss In addition notable titles on or relating to death and dying in popular culture death themes in literature methods of death or specific ethical policy or public issues are also included when they contribute important information to subject areas on which the book focuses This book will be helpful to students researchers academics caregivers health care professionals psychologists social workers and anyone with an interest in death dying bereavement or the care of the terminally ill

The Hospice Movement Sandol Stoddard,1979

Life's End David Wendell Moller,2019-05-23 The explicit purpose of this book is to analyze dying and death in the cosmopolitan modern setting There is however an additional theme that is implicit in the analysis and observations The portrait of dying which is provided in the pages of the book also tells us a great deal about life It demonstrates that the foundation for the medicalization of death that piercingly shapes the life experience of dying persons and loved ones is a product of the ways of life in the broader culture

Critical Approaches to Death, Dying and Bereavement Erica Borgstrom,Renske Visser,2024-10-03 This book is the first of its kind to examine key topics in death dying

and bereavement through a critical lens highlighting how the understanding and experience of death can vary considerably based on social cultural historical political and medical contexts It looks at the complex ways in which death and dying are managed from the political level down to end of life care and the inequalities that surround and impact experiences of death dying and bereavement Readers are introduced to key theories such as the medicalisation of dying as well as contemporary issues such as social movements pandemics and assisted dying The book stresses how death is not only a biological process or event but rather shaped by a range of intersecting factors Issues of inequalities in health inequities in support and intersectional analyses are brought to the fore and each chapter is dedicated to an issue that has interdisciplinary resonance thus showcasing the wider sociocultural and political factors that impact this time of life This book is valuable reading for scholars in thanatology and death studies and for those in related fields such as sociology of health medical and social anthropology and interdisciplinary social science courses *Death, Mourning, and Burial* Antonius C. G. M.

Robben,2017-04-26 The definitive reference on the anthropology of death and dying expanded with new contributions covering everything from animal mourning to mortuary cannibalism Few subjects stir the imagination more than the study of how people across cultures deal with death and dying This expanded second edition of the internationally bestselling *Death Mourning and Burial* offers cross cultural readings that span the period from dying to afterlife considering approaches to this transition as a social process and exploring the great variations of cultural responses to death Exploring new content including organ transplantation institutionalized care for the dying HIV AIDs animal mourning and biotechnology this text retains classic readings from the first edition and is enhanced by sixteen new articles and two new sections which provide increased breadth and depth for readers *Death Mourning and Burial Second Edition* is divided into eight parts reflecting the social trajectory of death conceptualizations of death death dying and care grief and mourning mortuary rituals and remembrance and regeneration Sections are introduced through foundational texts which provide the ideal introduction to this diverse field It is essential reading for anyone concerned with issues of death and dying as well as violence terrorism war state terror organ theft and mortuary rituals A thoroughly revised edition of this classic anthology featuring twenty three new articles two new sections and three reformulated sections Updated to include current topics including organ transplantation institutionalized care for the dying HIV AIDs animal mourning and biotechnology Must reading for anyone concerned with issues of death and dying as well as violence terrorism war state terror organ theft and mortuary rituals Serves as a text for anthropology classes and provides a genuinely cross cultural perspective to all those studying death and dying **Death, Grief, and Mourning** John S. Stephenson,1985-04-01 How do Americans cope with death Do our feelings about dying influence the way we live How are our ideas of death different from those of our ancestors These questions and others are addressed in this innovative new book a comprehensive interdisciplinary approach to the processes practices and experiences concerning death and dying in the United States Drawing on sociology and psychology as well as history and

literature John S Stephenson surveys the range of individual and social responses to death from our very conception of its meaning to the complex ethical dilemmas surrounding suicide and euthanasia Stephenson synthesizes a theoretical perspective of death from the contributions of such important thinkers as Freud Jung Ernest Becker and Robert Jay Lifton He reviews the evolution of American attitudes and behaviors toward death from the Puritan era to the present and charts the significance of such organizations for the dying as hospitals hospices and nursing homes Bereavement as both personal reaction grief and social convention mourning is also discussed as is the denial of death as a coping mechanism for individuals and institutions alike In his final chapters Stephenson analyzes the ceremonies of death including gravestones as social indicators and provides a psychosocial overview of suicide as a final desperate attempt to assert control He concludes by exploring the implications of euthanasia at a time when technology can extend life dramatically but is not always capable of assuring its quality Throughout authentic case examples many drawn from Stephenson s own clinical work illustrate the multi faceted imagery and experiences that comprise the American way of death Stephenson s book will be welcomed by sociologists psychologists social workers religious leaders nurses and others concerned with caring for the dying and the bereaved It is a brilliant and elegantly written work that crosses disciplinary boundaries to provide a valuable synthesis of existing knowledge and offer educators and professionals a firm foundation for teaching practice and research

The Matter of Death J. Hockey,C. Komaromy,K. Woodthorpe,2010-07-16 This collection opens up spaces where lives end bodies are disposed of and memories generated hospitals hospices care homes coroners courts funeral premises cemeteries roadsides the spirit world Using material culture studies it illuminates the ways human beings make meaningful the challenges of death dying and bereavement

The Good Death Marilyn Webb,2011-07-27 The Good Death is the first full scale examination of one of today s most complex issues the profound change in the way Americans think about and confront death Drawing on more than six years of firsthand research and reporting noted journalist Marilyn Webb builds her account around intimate portraits of the dying themselves She explains why some deaths become shockingly difficult and needlessly painful and how the struggles over end of life decisions can pit patient and family against hospitals doctors insurance companies religious groups and the law But there is good news as well Webb describes many extraordinary programs and individuals who are changing the face of dying An abundant source of comfort and hope The Good Death shows how the essential elements of humane even uplifted death are available to all of us if we know what is possible where to go for help and how to prepare

The Dying Experience Samuel H. LiPuma,Joseph P. DeMarco,2019-03-27 This vitally important book attempts to move beyond the current death denying culture The use of euphemistic and defiant phrases when dealing with terminal disease such as She lost her battle with cancer was more appropriate when medical doctors could do little to prolong life But treatments and technologies have significantly changed Now life prolonging interventions have outpaced our willingness to use medical intervention to secure patient control over death and dying We now face a new question When is it

morally appropriate for medical intervention to hasten the dying process LiPuma and DeMarco answer by endorsing expanded options for dying patients Unwanted aggressive treatment regimens and protocols which reject hastening death should be replaced by a patient's moral right in carefully defined circumstances to hasten death by means of medical intervention Expanded options range from patient directed continuous sedation without hydration to physician assisted suicide for those with progressive degenerative disorders such as Alzheimer's The authors overriding goal is to humanize the dying process by expanding patient centered autonomous control *Caring for the Elderly in Japan and the US* Susan Orpett Long, 2013-01-11 In an era of changing demographics and values this volume provides a cross national and interdisciplinary perspective on the question of who cares for and about the elderly The contributors reflect on research studies experimental programmes and personal experience in Japan and the United States to explicitly compare how policies practices and interpretations of elder care are evolving at the turn of the century **Parting Ways** Denise Carson, 2011-04-10 Carson explores in captivating detail the new alternatives to traditional institutionalized dying mourning and memorialization She deftly paints a vivid portrait of her own experiences and successfully ties in conceptual research on newer death rituals This book is truly unique and timely Tony Bell Professor Emeritus at California State University Fullerton Department of Sociology *Parting Ways* provides a fresh and contemporary perspective on American death rituals Carson expertly weaves her personal narrative around existing research and in the process she delivers an important analysis on ritual and death that is poignant and widely accessible Justin Holcomb Reformed Theological Seminary *A Good Death: On The Value Of Death And Dying* Sandman, Lars, 2004-09-01 Sandman highlights how our changing ideas about the value of life shape the concept of a good death He explores the varying perspectives on the good death that come from friends family physicians spiritual carers and others close to the dying person Setting out a number of arguments for and against existing thinking about a good death this book links to the practice of palliative care in several key areas He concludes that it is difficult to find convincing reasons for any one way to die a good death and argues for a pluralist approach **Textbook of Palliative Medicine** Eduardo Bruera, Irene Higginson, Charles F von Gunten, 2009-01-30 Textbook of Palliative Medicine provides an alternative truly international approach to this rapidly growing specialty This textbook fills a niche with its evidence based multi professional approach and global perspective ensured by the international team of editors and contributing authors In the absence of an international curriculum for the study of palliative medicine this textbook provides essential guidance for those both embarking upon a career in palliative medicine or already established in the field and the structure and content have been constructed very much with this in mind With an emphasis on providing a service anywhere in the world including the important issue of palliative care in the developing nations Textbook of Palliative Medicine offers a genuine alternative to the narrative approach of its competitors and is an ideal complement to them It is essential reading for all palliative care physicians in training and in practice as well as palliative care nurses and other health professionals in the

palliative care team **The Revival of Death** Tony Walter,2002-01-31 Talking about death is now fashionable but how should we talk Who should we listen to priests doctors counsellors or ourselves Has psychology replaced religion in telling us how to die This provocative book takes a sociological look at the revival of interest in death focusing on the hospice movement and bereavement counselling It will be required reading for anyone interested in the sociology of death and caring for the dying the dead or bereaved **The Many Ways We Talk about Death in Contemporary Society** Margaret Souza,Christina Staudt,2009 An interdisciplinary work that examines the representation of death in traditional and new media explores the meaning of assassination and suicide in a post 9 11 context and grapples with the use of legal and medical tools that affect the quest for a good death Death with Dignity Robert Orfali,2011 In this book the author makes a case for legalized physician assisted dying Using the latest data from Oregon and the Netherlands he puts a new slant on perennial debate topics such as slippery slopes the integrity of medicine and sanctity of life This book provides an in depth look at how we die in America today It examines the shortcomings of our end of life system You will learn about terminal torture in hospital ICUs and about the alternatives hospice and palliative care The author scrutinizes the good the bad and the ugly He provides a critique of the practice of palliative sedation The book makes a strong case that assisted dying complements hospice By providing both Oregon now has the best palliative care system in America This book above all may help you or someone you care about navigate this strange landscape we call end of life It can be an informed guide to a good death in the age of hospice and high tech medical intervention
