At War's End Roland Paris,2004-05-24 All fourteen major peacebuilding missions launched between 1989 and 1999 shared a common strategy for consolidating peace after internal conflicts immediate democratization and marketization Transforming war shattered states into market democracies is basically sound but pushing this process too quickly can have damaging and destabilizing effects The process of liberalization is inherently tumultuous and can undermine the prospects for stable peace A more sensible approach to post conflict peacebuilding would seek first to establish a system of domestic institutions that are capable of managing the destabilizing effects of democratization and marketization within peaceful bounds and only then phase in political and economic reforms slowly as conditions warrant Peacebuilders should establish the foundations of effective governmental institutions prior to launching wholesale liberalization programs Avoiding the problems that marred many peacebuilding operations in the 1990s will require longer lasting and ultimately more intrusive forms of intervention in the domestic affairs of these states This book was first published in 2004 [The New African Diaspora](#) Isidore Okpewho,Nkiru Nzegwu,2009-08-26 The New York Times reports that since 1990 more Africans have voluntarily relocated to the United States and Canada than had been forcibly brought here before the slave trade ended in 1807 The key reason for these migrations has been the collapse of social political economic and educational structures in their home countries which has driven Africans to seek security and self realization in the West This lively and timely collection of essays takes a look at the new immigrant experience It traces the immigrants progress from expatriation to arrival and covers the successes as well as problems they have encountered as they establish their lives in a new country The contributors most immigrants themselves use their firsthand experiences to add clarity honesty and sensitivity to their discussions of the new African diaspora [Wasted World](#) Rob Hengeveld,2020-03-04 This biologist s monumental cri de Coeur for our planet offers a holistic view of our species the waste we produce and a path toward sustainability Nature In Wasted World Rob Hengeveld traces the entwined histories of population growth and resource consumption to reveal how our global waste crises came about As Hengeveld explains human life depends on energy which we first obtained through food Later we supplemented this with energy from water wind animals and finally fossil fuels as one source after another fell short of our ever growing needs Greater energy consumption has created greater waste including the atmospheric waste that is driving climate change As we face a web of interconnected problems addressing them individually will not work Instead Hengeveld argues we need to tackle their common cause our staggering population growth A practical look at the sustainability of our planet from a biologist and expert in the abundances and distributions of species Wasted World examines the whole process of using wasting and exhausting energy and material resources And by elucidating the complexity of the causes of our current global state Hengeveld offers us a way forward [The Political Economy of War and Peace](#) Murray Wolfson,2012-12-06 cancer n any malignant tumor Metastasis may occur via the bloodstream or the lymphatic

Patman,1999-06-23 For much of the post war era the substance and scope of international security was defined by the parameters of the Cold War But the end of the Cold War has created a new global context This book seeks to map out the nature of post Cold War security by exploring the patterns of international conflict weighing non state challenges to security examining inter state cooperation in the security field and evaluating the security dynamics of the Asia Pacific region *Fighting for Survival* Michael Renner,1997 **Human and Global Security** Peter John Stoett,1999-01-01 Discusses four principal security threats state violence environmental degradation population displacement and globalization and shows that any meaningful interpretation must include both a narrow legal definition and a broader global perspective

Asylum Seeking and the Global City Francesco Vecchio,2014-08-13 Asylum seeking and the global city are two major contemporary subjects of analysis to emerge both in the literature and in public and official discourses on human rights urban socioeconomic change and national security Based on extensive original ethnographic research this book examines the situation of asylum seekers in Hong Kong and offers a narrative of their experiences related to internal and external borders the performance of border crossing and asylum politics in the context of the global city Hong Kong is a city with no comprehensive legislation covering refugee claims and official and public opinion is dominated by the view that the city would be flooded with illegal economic migrants were policy changes to be implemented This book considers why Hong Kong has become a destination for asylum seekers how asylum seekers integrate into local and global economic markets and why the illegalization of asylum seekers plays a significant role in the processes of global city formation This book will be essential reading for academics and students involved in the study of migration globalization and borders research methods in criminology social problems and urban sociology **The Hour of Departure** Hal Kane,Jane A.
