Sanchez, 2017-05-15 Toward the end of the fifteenth century the Habsburg family began to rely on dynastic marriage to unite an array of territories eventually creating an empire as had not been seen in Europe since the Romans Other European rulers followed the Habsburgs' lead in forging ties through dynastic marriages Because of these marriages many more aristocrats especially women left their homelands to reside elsewhere Until now historians have viewed these unions from a primarily political viewpoint and have paid scant attention to the personal dimensions of these relocations Separated from their family and thrust into a strange new land in which language attire religion food and cultural practices were often different these young aristocrats were forced to conform to new customs or adapt their own customs to a new cultural setting *Early Modern Dynastic Marriages and Cultural Transfer* examines these marriages as important agents of cultural transfer emphasizing how marriages could lead to the creation of a cosmopolitan culture common to the elites of Europe These essays focus on the personal and domestic dimensions of early modern European court life examining such areas as women's devotional practices fashion patronage and culinary traditions **The**

Treatment of the "pundonor." Mary Margaret Dougherty,1926 Peace Came in the Form of a Woman Juliana Barr,2009-11-30 Revising the standard narrative of European Indian relations in America Juliana Barr reconstructs a world in which Indians were the dominant power and Europeans were the ones forced to accommodate resist and persevere She demonstrates that between the 1690s and 1780s Indian peoples including Caddos Apaches Payayas Karankawas Wichitas and Comanches formed relationships with Spaniards in Texas that refuted European claims of imperial control Barr argues that Indians not only retained control over their territories but also imposed control over Spaniards Instead of being defined in racial terms as was often the case with European constructions of power diplomatic relations between the Indians and Spaniards in the region were dictated by Indian expressions of power grounded in gendered terms of kinship By examining six realms of encounter first contact settlement and intermarriage mission life warfare diplomacy and captivity Barr shows that native categories of gender provided the political structure of Indian Spanish relations by defining people s identity status and obligations vis a vis others Because native systems of kin based social and political order predominated argues Barr Indian concepts of gender cut across European perceptions of racial difference **Ay Tú!** Sonia Saldívar-Hull,Geneva M.
