The House Of Commons 1604 161:

Accounts and Papers of the House of Commons Great Britain. Parliament. House of Commons,1872 History of England from the Accession of James I to the Outbreak of the Civil War, 1603-1642 Samuel Rawson Gardiner,2011-12-08 Samuel Rawson Gardiner 1829 1902 was a Victorian historian of the seventeenth century noted for his use of and editorial work on primary sources This ten volume edition of his history of the period 1603 to 1642 was published in 1883 4 **The Lost Human and the Real End of History** George Yerby,2025-07-01 This book analyses the transformation in 16th and 17th century English economic life that overturned the traditional restraints of the medieval economy for the commercial ethos that governs the modern world and the resulting imbalance which opened the way to the environmental breakdown of today On the open fields and commons the smallholders had worked closely with the land as given with minimal intervention in natural processes The 16th century introduced a fundamental difference of approach as the inducement of exceptional profits encouraged manipulative exploitation of the land Freedom of trade from arbitrary restraints and impositions became the new economic ethos officially established by the mid 17th century revolution and reinforced by other changes such as the emergence of the nationstate The rise of science was associated with the agriculturalist adoption of empirical method for improvement and a new philosophy accorded humankind the right to degrade other species for its own ends By focusing on the causes and effects of capitalism at its first appearance this volume traces the environmental crisis back to the switch from an essentially universalist to a basically individualist world This book will be of interest to scholars and students of Early Modern England Economic Studies and Environmental Studies *History of England from the Accession of James I. to the Outbreak of the Civil War, 1603-1642: 1603-1607* Samuel Rawson Gardiner,1893 **The Parliamentary Debates (official Report)**. Great Britain. Parliament. House of Commons,1924 Contains the 4th session of the 28th Parliament through the 1st session of the 48th Parliament *Precedents of Proceedings in the House of Commons: Relating to lords and supply* John Hatsell,1818 *Reformed identity and conformity in England, 1559-1714* Jake Griesel,Esther Counsell,2024-04-16 This volume is the first collection of essays to focus specifically on how Reformed theology and ecclesiology related to one of the most consequential issues between the Elizabethan Settlement 1559 and the Hanoverian Succession 1714 namely conformity to the Church of England This volume enriches scholarly understandings of how Reformed identity was understood in the Tudor and Stuart periods and how it influenced both clerical and lay attitudes towards the English Church s government liturgy and doctrine In a reflection of how established religion pervaded all aspects of civic life in the early modern world and was sharply contested within both ecclesiastical and political spheres this volume includes chapters that focus variously on the ecclesio political liturgical and doctrinal aspects of conformity **The Economic Causes of the English Civil War** George Yerby,2019-08-19 This is a coordinated presentation of the economic basis of revolutionary change in 16th and early 17th century England addressing a crucial but neglected phase of historical development It traces a transformation in the

agrarian economy and substantiates the decisive scale on which this took place showing how the new forms of occupation and practice on the land related to seminal changes in the general dynamics of commercial activity An integrated self regulating national market generated new imperatives particularly a demand for a right of freedom of trade from arbitrary exactions and restraints This took political force through the special status that rights of consent had acquired in England based on the rise of sovereign representative law following the Break with Rome These associations were reflected in a distinctive merchant gentry alliance seeking to establish freedom of trade and representative control of public finance through parliament This produced a persistent challenge to royal prerogatives such as impositions from 1610 onwards Parliamentary provision especially legislation came to be seen as essential to good government These ambitions led to the first revolutionary measures of the Long Parliament in early 1641 establishing automatic parliaments and the normative force of freedom of trade

Parliamentary Debates (Hansard). Great Britain. Parliament. House of Commons, 1924 Contains the 4th session of the 28th Parliament through the session of the Parliament

The English Revolution and the Roots of Environmental Change George Yerby, 2015-08-20 This study brings a new perspective to a pivotal debate the causes of the English Revolution It pinpoints the economic motives behind the opposition to the crown and shows their connection to the changing mind set and political transitions of the time Distinctively it identifies the radicalism of the mercantile sphere and the developing claim of freedom of trade the basis on which parliament challenged the king's fiscal prerogative Freedom of trade was associated with rights of consent which were asserted as a guarantee of economic interests and as a political principle This informed the constitutional changes pushed through by parliament early in 1641 establishing freedom of trade by parliamentary control of the customs and giving the assembly an automatic place at the center of affairs the first requirement of representative government Crucially it was not the crown but parliament that appropriated the state interest through an independent definition of national priorities As England coalesced into a political and commercial unit the open and communal patterns of medieval times were overlaid The land itself came to be perceived and used in a different way Freedom of trade had an agrarian aspect An extended class of gentry and yeomanry occupied consolidated farms displacing the smallholders from the common lands With intensified marketing the old moral restraints on trade and property died away A more exploitative ethic undermined the balance of relationship with the land The book makes an original connection between the English Revolution and the processes of environmental change

[The Discourse of Legitimacy in Early Modern England](#) Robert Zaller, 2007 The Discourse of Legitimacy is a wide ranging synoptic study of England's conflicted political cultures in the period between the Protestant Reformation and the civil war
