politicians when the world seems to be falling down around us Drawing on his experience as both a research scientist and an expert advisor at the centre of government Ian Boyd takes an empirical approach to examining the current state of the relationship between science and politics He argues that the way politicians and scientists work together today results in a science that is on tap for ideological mis use and governance that fails to serve humanity s most fundamental needs Justice is unlikely perhaps impossible while science is not a fully integrated part of the systems for collective decision making across society In *Science in Politics* Boyd presents an impassioned argument for a series of conceptual and structural innovations that could resolve this fundamental tension revealing how a radical intermingling of these apparently contradictory professions might provide the world with better politics and better science Orange Coast Magazine ,1998-10 Orange Coast Magazine is the oldest continuously published lifestyle magazine in the region bringing together Orange County s most affluent coastal communities through smart fun and timely editorial content as well as compelling photographs and design Each issue features an award winning blend of celebrity and newsmaker profiles service journalism and authoritative articles on dining fashion home design and travel As Orange County s only paid subscription lifestyle magazine with circulation figures guaranteed by the Audit Bureau of Circulation Orange Coast is the definitive guidebook into the county s luxe lifestyle
