The Household Of Faith Roman Catholic Devotions In Mid Nineteenth Century America:

The Household of Faith Ann Taves, 1990-08-01 *The Church in the Nineteenth Century* Frances Knight, 2008-04-07 The nineteenth century was one of the most fascinating and volatile periods in Christian history. It was during this time that Christianity evolved into a truly global religion which led to an ever greater variety of ways for Christians to express and profess their faith. Frances Knight addresses the crucial question of how Christianity contributed to individual identity in a context of widespread urbanisation and modernisation. She explores important topics such as the Evangelical revival led by the likes of the founder of the Christian Mission later the Salvation Army William Booth the Oxford Movement under Newman Keble and Pusey Mormonism and Protestant revivalism in the USA socialism and the impacts of Karl Marx and anarchism continuing theological divisions between Protestants and Catholics and the development of pilgrimage and devotion at places like Lourdes and Knock. Her book also examines the most significant intellectual trends such as the rise of critical approaches to the Bible and the different directions that these took in Britain and America. The author's unique emphasis on the ordinary experience of Christians worldwide makes her volume indispensable for students and general readers who will be fascinated by this sensitive twenty first century perspective on the nineteenth century. *Catholic Devotion in Victorian England* Mary Heimann, 1995 Heimann offers a controversial analysis of the influence of long established recusant devotions and attitudes in the new context of the reestablishment of Roman Catholicism in England from the mid nineteenth century. *Who Shall Take Care of Our Sick?* Bernadette McCauley, 2020-03-03 This rich history chronicles the prominent role of Catholic women religious in establishing the hospitals at the core of New York City's extensive Catholic medical network. Beginning with the opening of St Vincent's Hospital in 1849 Bernadette McCauley relates how determined and pragmatic women of faith worked over the next eighty years to place the Catholic Church in the mainstream of American medicine. Exploring the differences and similarities between Catholic hospitals and other hospitals McCauley describes the particular cultural sensibility and management style that informed Catholic health care and gauges the ultimate success of Catholic efforts. Visionary sisters established, managed and staffed the hospitals and they sat on hospital boards and served as administrators at a time when women rarely occupied positions of leadership in business. McCauley illustrates how they at once embraced the world of God and the world of man playing an unheralded role in the development of the modern hospital while serving the daily needs of New York's immigrant poor. Encompassing such issues as immigration the education of nurses and doctors hospital care and organization and the role of women in the Catholic church this extensive study is a valuable resource for scholars and students in the history of medicine history of nursing American religion and women's history. *Voices of the Marketplace* Anne C. Rose analyzes the major shifts in intellectual life that occurred between 1830 and 1860 while exploring three sets of concepts that provided common languages: Christianity democracy capitalism. Habits of Devotion James M. O'Toole, 2018-07-05 For generations American Catholics lived out their faith through countless unremarkable routines Deep questions of theology usually meant little to them but parishioners clung to deeply ingrained habits of devotion both public and private Particular devotions changed over time waxing or waning in popularity but the habits endured going to mass on Sunday saying prayers privately and teaching their children to do the same filling their homes with crucifixes and other religious images participating in special services blending the church's calendar of feast and fast days with the secular cycles of work and citizenship negotiating their conformity or not to the church's demands regarding sexual behavior and even diet It was religious practice carried out in daily and weekly observance that embodied their faith more than any abstract set of dogmas from the Introduction In *Habits of Devotion* four senior scholars take the measure of the central religious practices and devotions that by the middle of the twentieth century defined the ordinary week to week religion of the majority of American Catholics Their essays investigate prayer devotion to Mary confession and the Eucharist as practiced by Catholics in the United States before and shortly after the Second Vatican Council

thorny relationship between faith and feminism in modern America by mapping Bushnell's story and her subsequent disappearance from the historical record. Most pointedly, the book reveals the challenges confronting Christian feminists today who wish to construct a sexual ethic that is both Christian and feminist, one rooted not in the Victorian era but rather one suited to the modern world.

The Origins of Women's Activism Anne M. Boylan, 2003-10-15. Tracing the deep roots of women's activism in America, Anne Boylan explores the flourishing of women's volunteer associations in the decades following the Revolution. She examines the entire spectrum of early nineteenth-century women's groups: Protestant, Catholic, and Jewish; African American and white; middle and working class, to illuminate the ways in which race, religion, and class could bring women together in pursuit of common goals or drive them apart. Boylan interweaves analyses of more than seventy organizations in New York and Boston with the stories of the women who founded and led them. In so doing, she provides a new understanding of how these groups actually worked and how women's associations, especially those with evangelical Protestant leanings, helped define the gender system of the new republic. She also demonstrates, as never before, how women in leadership positions combined volunteer work with their family responsibilities, how they raised and invested the money their organizations needed, and how they gained and used political influence in an era when women's citizenship rights were tightly circumscribed.
