The Human Cycle:The Ideal of Human Unity War and Self-Determination Aurobindo C.,1997 International University Centre Collection Aurobindo,1962 **Social and Political Thought** Sri Aurobindo" (Śrī),1971 The Complete Works of Sri Aurobindo Aurobindo,1997 Cultivating Gardens of God Ananta Kumar Giri,2024-11-12 In self society religion and politics we are used to the language and discourse of Kingdom of God But in this God is presented as an omnipotent king who is also angry at slight deviation We get glimpses of such powerful and angry God in Old Testament as well as in many other religious traditions of the world In such a discourse and portrayal of God we fail to realize that God is mercy rahim karuna and compassion God is our ever awakened nurturer and He and She is continuously walking and meditating with us with mercy as well as firm challenges for self development mutual realizations and responsible cosmic engagement and participation The vision and discourse of Kingdom of God has many a time been confined within a logic of power where we are prone to valorize God s power in order to valorize our own power on Earth especially the logic of sovereignty at the level of self and society rather than realize God s mercy This book strives to transform this to Gardens of God Philosophy After Nature Rosi Braidotti,Rick Dolphijn,2017-06-23 The significant changes that have dominated the social and the scientific world over the last thirty years have brought about upheavals and critical re appraisals that have proved quite positive in fostering 21st century thought This interdisciplinary collection of state of the art essays offers innovative and thought provoking insights concerning contemporary philosophical and cultural reflection on the nature culture interaction Starting from the assumption that the binary opposition between the two terms has been replaced by a continuum of the two the volume explores both the terms of this new interaction and its implications Technology occupies a central place in the shift towards a nature cultural continuum but it is not the only factor The consequences of economic globalization notably the global spread of digital mediation also account for this change of perspective Last but not least the climate change issue and a renewed urgency around the state of the environmental crisis also contribute to bring the natural much closer to home Digital mediation has by now become a standard way to live and interact The electronic frontier has altered dramatically the practice of education and research especially in the Humanities and social sciences with direct consequences for the institutional practice and the methodology of these disciplinary fields This book aims to explore the implications of these complex shifts for the practice of critical thinking **The Integral Philosophy of Aurobindo** Brainerd Prince,2017-01-20 Sri Aurobindo was an Indian nationalist philosopher yogi guru and poet This book is an enquiry into the integral philosophy

of Aurobindo and its contemporary relevance It offers a reading of Aurobindo s key texts by bringing them into conversation with religious studies and the hermeneutical traditions The central argument is that Aurobindo s integral philosophy is best understood as a hermeneutical philosophy of religion Such an understanding of Aurobindo s philosophy offering both substantive and methodological insights for the academic study of religion subdivides into three interrelated aims The first is to demonstrate that the power of the Aurobindonian vision lies in its self conception as a traditionary hermeneutical enquiry into religion the second to draw substantive insights from Aurobindo s enquiry to envision a way beyond the impasse within the current religious secular debate in the academic study of religion Working out of the condition of secularism the dominant secularists demand the abandonment of the category religion and the dismantling of the academic discipline of religious studies Aurobindo s integral work on religion arising out of the Ved nta tradition critiques the condition of secularity that undergirds the religious secular debate Finally informed by the hermeneutical tradition and building on the methodological insights from Aurobindo s integral method the book explores a hermeneutical approach for the study of religion which is dialogical in nature This book will be of interest to academics studying Religious Studies Philosophy of Religion Continental Hermeneutics Modern India Modern Hinduism as well as South Asian Studies *Integral Philosophy* Johannes Heinrichs,2018-04-30 This cumulative course on Johannes Heinrichs philosophical works presents the essence of his previous publications a rich consistent and novel system based on a common principle and method reflection theory Starting with an emphasis on implicit self reflection as the basis of epistemology Heinrichs clarifies the triad of body soul and spirit rejecting the current dualism which results in the sevenfold anthropology of Vedic and theosophical thinking then moves on to presenting a summary of his well known democracy model based on value levels and further on unfolds his fundamental thesis in the area of philosophical semiotics the big semiotic levels action language arts and mystics In addition he presents his religious philosophy followed by an outline of structural and integral ontology Finally an overview of ethical positions and on ethics as value reflection proves the fertility of his method Heinrichs developed a reflection system theory which is an original up to date development of German idealism inspired by the multi value logic of Gotthard G nther His reflection theory of language presents an alternative to the current language analysis as well as to Noam Chomsky s genetic way of universal grammar By his systematic approach he opposes the mere historicism of most Western philosophers In spiritual respects he is near to Sri Aurobindo
