Tucker, 2007-09-12 A comprehensive five volume reference on the defining conflict of the second half of the 20th century covering all aspects of the Cold War as it influenced events around the world The conflict that dominated world events for nearly five decades is now captured in a multivolume work of unprecedented magnitude from a publisher widely acclaimed for its authoritative military and historical references Under the direction of

internationally known military historian Spencer Tucker ABC CLIO's The Encyclopedia of the Cold War A Political Social and Military History offers the most current and comprehensive treatment ever published of the ideological conflict that not so long ago enveloped the globe From the Second World War to the collapse of the Soviet Union The Encyclopedia of the Cold War provides authoritative information on all military conflicts battlefield and surveillance technologies diplomatic initiatives important individuals and organizations national histories economic developments societal and cultural events and more The nearly 1 300 entries plus topical essays and an extraordinarily rich documents volume draw heavily on recently opened Russian Eastern European and Chinese archives The work is a definitive cornerstone reference on one of the most important historical topics of our time The New Economic Systems of Eastern Europe Hohmann,Hans-Hermann Höhmann,Michael Charles Kaser,Karl Christian Thalheim,1975-01-01 Monograph comprising a comparison of the economic systems of Eastern European countries covers the reform of economic administration economic planning the foreign trade system the situation of public enterprises pricing CMEA relations farming etc References and statistical tables **The Prague Spring** Nova Ashford, The Prague Spring of 1968 was a pivotal moment in the history of Czechoslovakia and the broader Eastern Bloc representing both a bold attempt to reform socialism and a symbol of the limits of Soviet control over its satellite states The events of the Prague Spring were sparked by a combination of political social and economic factors that reflected growing dissatisfaction with the rigid Communist system and the increasing desire for political and civil liberties Under the leadership of Alexander Dub ek Czechoslovakia embarked on a brief period of significant reform that aimed to create a more humane and flexible form of socialism which was dubbed socialism with a human face However this experiment was crushed by a military intervention from the Soviet Union and other Warsaw Pact nations highlighting the harsh realities of Soviet dominance in Eastern Europe The significance of the Prague Spring lies in its demonstration of the powerful forces of reform within a socialist state and the way in which it exposed the contradictions of the Soviet system Dub ek's reforms which included greater freedom of speech the decentralization of government control and an easing of censorship represented a major departure from the strict control that the Communist Party had maintained over Czechoslovakia since its 1948 communist coup These reforms reflected broader trends across Eastern Europe where the public's desire for more personal freedoms was growing and were viewed by many as a sign of hope for a better future beyond Soviet style authoritarianism

Czechoslovakia Behind the Curtain Thomas K. Murphy,2018-09-06 During the Cold War the West especially in the popular media tended to view communism as a monolithic phenomenon with little variation throughout the Eastern Bloc Yet culture and geography contributed to social diversity among and within communist systems Drawing on interviews with approximately 100 Czechs and Slovaks the author provides new perspectives on day to day life in the Czechoslovak Socialist Republic Their recollections paint a more complex picture of the life on the other side of the Iron Curtain from the Sputnik era reforms of the early 1960s through the tumult of the 1968 Prague Spring and the subsequent Soviet invasion to the
