Bickenbach,Franziska Felder,Barbara Schmitz,2015-07-30 This collection of original essays from both established scholars and newcomers takes up a recent debate in philosophy sociology and disability studies on whether disability is intrinsically a harm that lowers a person s quality of life While this is a new question in disability scholarship it also touches on one of the oldest philosophical questions what is the good human life Historically philosophers have not been interested in the topic of disability and when they are it is usually only in relation to questions such as euthanasia abortion or the moral status of disabled people Consequently disability has been either ignored by moral and political philosophers or simply equated with a bad human life a life not worth living This collection takes up the challenge that disability poses to basic questions of political philosophy and bioethics among others by focusing on fundamental issues and practical implications of the relationship between disability

C. Chang and the Universal Declaration of Human Rights** Hans Ingvar Roth,2018-09-10 The Universal

Declaration of Human Rights is one of the world's best known and most translated documents. When it was presented to the United Nations General Assembly in December in 1948, Eleanor Roosevelt, chair of the writing group, called it a new Magna Carta for all mankind. The passage of time has shown Roosevelt to have been largely correct in her prediction as to the declaration's importance. No other document in the world today can claim a comparable standing in the international community. Roosevelt and French legal expert René Cassin have often been represented as the principal authors of the declaration. But in fact it resulted from a collaborative effort involving a number of individuals in different capacities. One of the declaration's most important authors was the vice chairman of the Human Rights Commission, Peng Chun Chang (1892–1957), a Chinese diplomat and philosopher whose contribution has been the focus of growing attention in recent years. Indeed, it is Chang who deserves the credit for the universality and religious ecumenism that are now regarded as the declaration's defining features. Despite this, Chang's extraordinary contribution has been overlooked by historians. Peng Chun Chang was a modern-day Renaissance man: teacher, scholar, university chancellor, playwright, diplomat, and politician. A true cosmopolitan, he was deeply involved in the cultural exchange between East and West, and the dramatic events of his life left a profound mark on his intellectual and political work. *Peng Chun Chang and the Universal Declaration of Human Rights* is the first biography of this extraordinary actor on the world stage, who belonged to the same generation as Mao Zedong and Chiang Kai-shek. Drawing on previously unknown sources, it casts new light on Chang's multifaceted life and involvement with one of modern history's most important documents.
