The Historical Encyclopedia Of Costume

Newton Bateman

The Historical Encyclopedia Of Costume:

Historical Encyclopedia of Costumes Auguste Racinet, 1992 The Historical Encyclopedia of Costume Auguste Racinet, 1988 This work condenses Racinet's classic six volume set *History of World Costume 1876-1888* and translates it into English for the first time. Its text and 2,000 illustrations, most in full color, cover worldwide costumes from ancient Egypt to nineteenth century Europe: royalty, the working class, soldiers, and the poor. High school libraries should consider acquiring this volume.

The Historical Encyclopedia of Costume Albert Racinet, Auguste Racinet, 1988 Meticulously researched, this survey of historical costume is illustrated throughout with a selection of images taken from contemporary photographs and travellers' reports. It ranges from America to Japan, from the Middle Ages to the 19th century.

The Historical Encyclopedia of Costumes Albert Racinet, 1995 Illustrations show the way they really looked, both from day to day on formal occasions.

Survey of Historic Costume Phyllis G. Tortora, Keith Eubank, 2009-06-08 In the Preface of the 5th Edition of *Survey of Historic Costume*, Tortora and Eubank conclude with the following: In the history of dress at the beginning of the 21st century, costume might be compared to a constantly moving river. This river divides into many narrower channels that separate, cross, come together and separate again, and yet that river continually moves on. Building on the previous editions, the authors update their analysis of Western dress to 2008. *Survey of Historic Costume* has from its beginnings taken seriously the need to accompany the text with appropriate illustrations, and the major change in the 5th Edition is the move to full color throughout the book to enrich the text and the concepts. Perfect for anyone interested in historic costume, fashion, textiles, drama, and design, this beautifully illustrated book is full of interesting facts and commentary. New to this Edition: Over 500 four color photographs and illustrations; Updated text to 2008; Additional influences from one period or civilization to another, including influences from other cultures; Index updated and organized to be utilized as a glossary with terms defined and page numbers printed in boldface; Instructor's Guide provides sources for visuals, websites, teaching strategies, and evaluation techniques; PowerPoint Presentation contains interactive visual presentation with links to Internet.

Historical Encyclopedia of Illinois Newton Bateman, 1908

American Masculinities: A Historical Encyclopedia Bret Carroll, 2003-10-14 This is a highly recommended purchase for undergraduate, medium-sized, and large public libraries wishing to provide a substantial introduction to the field of men's studies. Reference User Services Quarterly: Pleasing layout and good cross references make Carroll's compendium a welcome addition to collections serving readers of all ages. Highly recommended CHOICE. An excellent index, well-chosen photographs and illustrations, and an extensive bibliography add further value. *American Masculinities* is well worth what would otherwise be too hefty a price for many libraries because no other encyclopedia comes close to covering this growing field so well. *American Reference Books Annual*: *American Masculinities: A Historical Encyclopedia* is a first of its kind, reference detailing developments in the growing field of men's studies. This up-to-date analytical review serves as a marker of how the field has evolved over the last decade.

especially since the 1993 publication of Anthony Rotundo's *American Manhood*. This seminal book opened new vistas for exploration and research into American History, society and culture. Weaving the fabric of American history, *American Masculinities* illustrates how American political leaders have often used the rhetoric of manliness to underscore the presumed moral righteousness and ostensibly protective purposes of their policies. Seeing U.S. history in terms of gender archetypes, readers will gain a richer and deeper understanding of America's democratic political system, domestic and foreign policies, and capitalist economic system, as well as the private sphere of the home and domestic life. The contributors to *American Masculinities* share the assumption that men's lives have been grounded fundamentally in gender, that is, in their awareness of themselves as males. Their approach goes beyond scholarship which traditionally looks at men and women in terms of what they do and how they have influenced a given field or era. Rather, this important work delves into the psychological core of manhood, which is shaped not only by biology but also by history, society and culture. Encapsulating the current state of scholarly interpretation within the field of Men's Studies, *American Masculinities: A Historical Encyclopedia* is designed to help students and scholars advance their studies, develop new questions for research, and stimulate new ways of exploring the history of American life.

Key Features: Reader's Guide facilitates browsing by topic and easy access to information. Extensive name, place, and concept index gives users an additional means of locating topics of interest. More than 250 entries, each with suggestions for further reading. Cross references direct users to related information. Comprehensive bibliography includes a list of sources organized by categories in the field. Topics Covered: Arts, Literature, and Popular Culture; Body, Health, and Sexuality; Class; Ethnic, Racial, and Religious Identities; Concepts and Theories; Family and Fatherhood; General History; Icons and Symbols; Leisure and Work; Movements and Organizations; People; Political and Social Issues. About the Editor: Bret E. Carroll is Associate Professor of History at California State University, Stanislaus. He received his Ph.D. from Cornell University in 1991. He is author of *The Routledge Historical Atlas of Religion in America* (1997), *Spiritualism in Antebellum America* (1997), and several articles on nineteenth-century masculinity.

Historical Encyclopedia of Illinois, Charles Linnaeus Hostetter, 1913. [Historical Encyclopedia of Natural and Mathematical Sciences](#), Ari Ben-Menahem, 2009-03-06. The 5800-page Encyclopedia surveys 100 generations of great thinkers, offering 2070 detailed biographies of scientists, engineers, explorers, and inventors who left their mark on the history of science and technology. This six-volume masterwork also includes 380 articles summarizing the time line of ideas in the leading fields of science, technology, mathematics, and philosophy, plus useful tables, figures, and photos, and 20 Science Progress Reports detailing scientific setbacks. Interspersed throughout are quotations gathered from the wit and wisdom of sages, savants, and scholars throughout the ages, from antiquity to modern times. The Encyclopedia represents 20 years' work by the sole author, Ari Ben-Menahem, of Israel's Weizmann Institute of Science.
