The Honours System:

The Honours System Michael De-la-Noy, 1985 *The Honours System* Great Britain: Parliament: House of Commons: Public Administration Select Committee, 2012-08-29 The evidence is still that honours are more likely to be awarded to civil servants and celebrities than to people who volunteer in their local community The Committee heard that the process of awarding honours remains opaque even to the Queen's representatives in the counties the Lords Lieutenant PASC calls for an increase in the proportion of people receiving honours for work in their local community rather than to those who are awarded for their work as civil servants and in the wider public sector This report sets out proposals to increase accountability and transparency and strengthening the link to the Monarch These include the introduction of an independent Honours Commission to consider nominations a repeat recommendation from the last parliament that the Prime Minister's strategic direction over the honours system be removed a rebalancing of the proportion of honours awarded to civil servants and public sector workers and volunteers in their local communities that longer citations should be published explaining the reason for awarding an honour that the Lords Lieutenant should have an opportunity to consider and comment on all nominations for an honour within his or her lieutenancy and that the Cabinet Office set out proposals for broadening the range of people who take up roles as independent members of the honours committees The Committee also recommends considering the decision to strip Fred Goodwin of his knighthood that the Honours Forfeiture Committee be made independent and transparent with clear and expanded criteria for forfeiture chaired by an independent figure such as a retired high court judge **The Orders of Knighthood and the Formation of the British Honours System, 1660-1760**

Antti Matikkala, 2008 Sheds considerable new light on the nature development and functions of the orders in a key phase of their history and goes a long way to explaining how such archaic institutions could flourish in a culture that is commonly thought anti traditional and especially hostile to the middle ages Professor JONATHAN BOULTON University of Notre Dame This is the first comprehensive study to set the British orders of knighthood properly into the context of the honours system by analysing their political social and cultural functions from the Restoration of the monarchy to the end of George II's reign It examines the revival of the Order of the Garter and the proposals to establish the Orders of the Royal Oak and the Esquires of the Martyred King at the Restoration the foundation 1687 and the revival 1703 4 of the Order of the Thistle as well as the foundation of the Order of the Bath 1725 It establishes just how central a part the orders played in the British high political life and its comprehensive and multidimensional approach carefully contrasts the idealistic discourse of virtue and honour to the real workings of the honours system it also makes the case for the Chivalric Enlightenment The orders over the water the Garter and the Thistle conferred by the Jacobite claimants are discussed for the first time in the context of the established British honours system Overall the comparison between the socially very restricted British and the increasingly meritocratic Continental orders highlights the isolation of the British honours system from the European tendencies **The Canadian**

A Constitution for the Common Good W Elliot Bulmer,2024-08-19 If Scotland has voted YES on 18 September how can a written Constitution be good for the people of Scotland If Scotland has voted NO how could a new Constitution protect and enhance Scottish democracy within a restructured UK Whether YES or NO a reconstituted Scotland is possible and good for all its citizens Nearly every democracy in the world is built upon a written constitution and constitutions have been at the core of citizens demands for better governance in places as disparate as Kenya Tunisia and Ukraine With the Scottish National Party promising a written constitution in the event of a YES vote and other parties suggesting other possible options for constitutional change in the event of a NO vote constitutional change looks certain to remain central to the political agenda in Scotland for some time to come But what is a constitution for Is it a defensive charter to protect the basic structures of democratic government or is it a transformative covenant for a better society How can the Constitution sustain democracy and promote ethical politics while at the same time recognising and accommodating differences in society What difference would a good Constitution make to the poor How can the Constitution help ensure that the common good of the citizenry prevails over private vested interests In addressing these questions this book sets out a vision for how Scotland could reconstitute itself It emphasises the connection between the constitution democracy and the common good arguing that democratic self government is the true prize regardless of the relationship of Scotland to the rest of the UK This book not only makes a vital contribution to Scotland s current and on going constitutional debate whatever the outcome in September 2014 but also engages with fundamental questions of constitutionalism and democracy that are of enduring relevance to both citizens and scholars around the world
