was the preserve of the flying boat which transported well heeled passengers in ocean liner style and comfort across the oceans But then the Second World War came and things changed Suddenly landplanes were more efficient and in abundance long concrete runways had been constructed during the war that could be used by a new generation of large transport aircraft and endless developments in aircraft meant they could fly faster and for further distances Commercial flying boat services resumed but their days would be numbered **The Airplane** Louise Spilsbury, Richard Spilsbury, 2010-09
