Family and HIV/AIDS Willo Pequegnat, Carl Bell, 2011-10-22. Three decades into the HIV pandemic, the goals remain clear: reduce the number of infections, improve the health outcomes of those who are infected, and eliminate disparities in care. And one observation continues to gain credence: families are a powerful resource in preventing, adapting to, and coping with HIV. Recognizing their complex role as educators, mentors, and caregivers, *Family and HIV/AIDS* assembles a wealth of findings from successful prevention and intervention strategies and provides models for translating evidence into effective real-world practice. Chapters spotlight the differing roles of mothers and fathers in prevention efforts, clarify the need for family-community collaborations, and examine core issues of culture, ethnicity, gender, and diagnosis, e.g., minority families, adolescents with psychological disorders. Throughout, risk reduction and health promotion are shown as a viable public health strategy. A reference with considerable utility across the health, mental health, and related disciplines, *Family and HIV/AIDS* will be a go-to resource for practitioners working with families, researchers studying at-risk populations, administrators seeking to create new or evaluate existing prevention and care programs, and policymakers involved in funding such programs.

Handbook for Working with Children and Youth Michael Ungar, 2005-05-11. To study resilience, one should adopt a fundamental humility about oneself and one's culture and society and simultaneously a respect for the human strength of others. The chapters in this book take these three cautions seriously and offer a convincing demonstration that resilience is indeed a many-splendored thing. James Garbarino, Cornell University. *The Handbook for Working With Children and Youth: Pathways To Resilience Across Cultures and Contexts* examines lives lived well despite adversity. Calling upon some of the most progressive thinkers in the field, it presents a groundbreaking collection of original writing on the theories, methods of study, and interventions that promote resilience. - Comprehensive: Provides broad developmental perspectives on resilience from theory and research methods to interventions with individuals, families, and communities.
- Connects theory to practice: Clarifies the construct of resilience from the viewpoint of resilience.
