Witnessing Australian Stories Kelly Jean Butler, 2017-07-28 This book is about how Australians have responded to stories about suffering and injustice in Australia presented in a range of public media including literature history films and television Those who have responded are both ordinary and prominent Australians politicians writers and scholars All have sought to come to terms with Australia's history by responding empathetically to stories of its marginalized citizens Drawing upon international scholarship on collective memory public history testimony and witnessing this book represents a cultural history of contemporary Australia It examines the forms of witnessing that dominated Australian public culture at the turn of the millennium Since the late 1980s witnessing has developed in Australia in response to the increasingly audible voices of indigenous peoples migrants and more recently asylum seekers As these voices became public they posed a challenge not only to scholars and politicians but also most importantly to ordinary citizens When former Prime Minister Kevin Rudd delivered his historic apology to Australia's indigenous peoples in February 2008 he performed an act of collective witnessing that affirmed the testimony and experiences of Aboriginal Australians The phenomenon of witnessing became crucial not only to the recognition and reparation of past injustices but to efforts to create a more cosmopolitan Australia in the present This is a vital addition to Transaction's critically acclaimed Memory and Narrative series

In the Face of Diversity Nathan D. Gardner Molina, 2025-05-01 The unity or uniformity of the Chinese Australian community has been frequently referenced in many recent political popular and even academic discussions The oneness of the community is often described as latent and inevitable if not already a fact Yet many Chinese Australians have also aspirationally used collective terms to refer to themselves there have been perennial calls to unite and advance the community or have it speak with one voice But has a united or unitary Chinese Australian community ever actually existed If so would a united community be a means to an end or an end in itself And where would this community sit in contemporary multicultural Australia I Am You Are We Are attempts to answer to these questions it is a history of more than a dozen Chinese Australian community organisations from across the country over five decades that draws on the English and Chinese language materials these organisations have produced over the years as well as interviews with ten past and present leaders Instead of a single community the evidence demonstrates the existence of many diverse Chinese Australian communities Consequently the book advances two ideas Chinese Australian unity presents itself as a chimera that inhabits the social space shared by Chinese Australians and has only ever been momentarily or partially grasped by community organisations Imagining the Chinese Australian community has nonetheless produced real world outcomes the most prominent being a highly participatory style of Australian multiculturalism These two ideas are woven through six moments in recent history that have been highly decisive for Chinese Australian communities I Am You Are We Are conveys Chinese Australian history in clear and evocative prose while

remaining academically authoritative and socially conscious The result is a work that dismantles the prevailing myth of a single Chinese bloc to rebuild an appreciation of multiculturalism in Australia along with specific contributions made by Chinese Australian communities Internationalism in the Age of Nationalism Glenda Sluga,2013-03-16 The twentieth century a time of profound disillusionment with nationalism was also the great age of internationalism To the twenty first century historian the period from the late nineteenth century until the end of the Cold War is distinctive for its nationalist preoccupations while internationalism is often construed as the purview of ideologues and idealists a remnant of Enlightenment era narratives of the progress of humanity into a global community Glenda Sluga argues to the contrary that the concepts of nationalism and internationalism were very much entwined throughout the twentieth century and mutually shaped the attitudes toward interdependence and transnationalism that influence global politics in the present day Internationalism in the Age of Nationalism traces the arc of internationalism through its rise before World War I its apogee at the end of World War II its reprise in the global seventies and the post Cold War nineties and its decline after 9 11 Drawing on original archival material and contemporary accounts Sluga focuses on specific moments when visions of global community occupied the liberal political mainstream often through the maneuvers of iconic organizations such as the League of Nations and the United Nations which stood for the sovereignty of nation states while creating the conditions under which marginalized colonial subjects and women could make their voices heard in an international arena In this retelling of the history of the twentieth century conceptions of sovereignty community and identity were the objects of trade and reinvention among diverse intellectual and social communities and internationalism was imagined as the means of national independence and national rights as well as the antidote to nationalism This innovative history highlights the role of internationalism in the evolution of political economic social and cultural modernity and maps out a new way of thinking about the twentieth century

Blackburns Carolyn Rasmussen,2019-03-05 When socialist barrister and aspiring member of parliament Maurice Blackburn met Doris Hordern ardent feminist and campaign secretary to Vida Goldstein neither had marriage in their imagined futures But they fell in love with each other as much as with their individual aspirations to change the world for the better Theirs would be an exacting partnership as they held one another to the highest ideals They worked as elected members of parliaments and community activists influencing conscription laws benefits for working men and women atomic bomb tests civil rights and Indigenous recognition Together they shook Australia *Capital* Kristin Otto,2009 In 1901 the Australian colonies came together to form a new nation which for the next twenty six years was governed from Melbourne It was a small city a place where people knew each other not just the people who mattered but those who didn't yet where small changes loomed large and the import of big changes could scarcely be imagined Yet in the extraordinary first quarter of the twentieth century the world lurched headlong into a new era And this overgrown town in all but name the nation's capital oversaw the birth of modern Australia In *Capital* Kristin Otto describes how it happened She looks at the

developments that shaped the world we know today from the story of Helena Rubinstein and the invention of the cosmetics industry to the world's first feature film to confectionery king Mac Robertson packaging pioneer and author of the city's first motor car fatality And she traces with the lightest of touches the web of influence friendship and sheer coincidence that held it all together For anyone who knows Melbourne Capital will be a fascinating conversation with an old friend For anyone who doesn't it will be a compelling introduction to a new one Journal of the Royal Australian Historical Society Royal Australian Historical Society, 2007 Includes the Society's Annual report and statement of accounts **Historical Dictionary of Australia** J.
