## Stolen Light:

**Saga Tales** Charles E. Miller, 2010-04-15 The fact that Miller classifies his tales as historical requires an explanation One of them his accounts of the first murder recorded in Scripture is historically accurate in its spirit and its conscription of evil His second historical tale narrates the story of Noah and the construction of his ark precedent to the global flood That Noah by faith alone constructed his massive ark in the middle of a rainless desert marked him for strange and for the ridicule of his village The balance of the tales deal with the histories of their central characters and for that reason the author includes them in his parameter of historical This collection marks his fourth volume of short stories **The Fourfold Path**

Magdalena Lovejoy, How Do We Become Free and Enter into the Mystery of Life The Fourfold Path takes us on a healing journey inspired by the philosopher Plato and his teachings on how to know yourself by transcending all limitations within the human space The model of transcendence leaves behind the metaphors we live by to pioneer humankind into the deepest and most powerful gnosis ever attained through the love of wisdom Through transcendence you can discover how to free yourself from the suffering that obstructs the complete vision of the soul You can heal from the unconscious processes and go beyond the limitations of the ego Once you have learned the Path you can attain enlightenment and become like God and attain the characteristics of divinity immortality and bliss Transcendence is basic to all human cultures who move through the limitless possibilities given to humankind to evolve using the wisdom of the mind and the wisdom of the heart This wisdom invites us to go deeper and move from self realization to knowledge of God Life itself inspires this change through the experiences of love birth death miracles blessings and family True enlightenment occurs when we process these life experiences as lessons on a soul journey that initiate a spiritual awakening It is as simple as arguing that there are two identities a true self and a false self Philosophy is the means to know the difference between the two while transcendence is the path that can lead humankind to know the truth When humankind comes to know their true selves they will be set free from suffering This is the ascent toward what Plato called The Good which many believe is also called God The Fourfold Path shows us how to leave behind the limitations of the human space to discover a sacred place in communication and communion with Spirit so you can become one with God and find true happiness **Pennsylvania Superior Court Reports**

Technology, Mythology and the Search for Meaning Douglas Francis, 2023-11-15 This book offers a big picture look at the evolution of Western thought on technology by focusing on seven periods when there was a paradigm shift in perspective A techno myth is used to identify shape and capture the beliefs of each era Drawing from philosophy literature social sciences physical sciences mythology and cultural history the book brings to life the ideas of the great thinkers and the ancient myths What their message tells us is that we have failed to learn from the mistakes of the past We have allowed technology to take control of our lives and narrowed our thinking to a one dimensional materialistic perspective We have become prisoners in Max Weber s metaphoric iron cage But they also tell us how to free ourselves by humanizing technology so that humans are in control which is explored in depth in this book
