Boroch, 2012 War is on the horizon the all powerful Gold Witch is dead and her only daughter has been abducted If she is turned by the shadows and unleashed on the world no one will be able to stop her In response an elite strike team of Knights have been called into action Allying themselves with dangerous characters and using their unique kinetic powers they must journey into the violent underworld of society to rescue her before it s too late Shadow Lords demons bounty hunters aliens soldiers warlocks witches ogres elves and pirates await them It will take a lot of bullets swearing blood and gore to fight through the nightmare but what awaits them at the end will be true horror An electric fusion of drama blood action comedy and chaos set in a futuristic post apocalyptic stage Enter the world of Gothic Opera      The Juggler of Notre Dame and the Medievalizing of Modernity. Jan M. Ziolkowski, 2018-08-29 This ambitious and vivid study in six volumes explores the journey of a single electrifying story from its first incarnation in a medieval French poem through its prolific rebirth in the nineteenth and twentieth centuries The Juggler of Notre Dame tells how an entertainer abandons the world to join a monastery but is suspected of blasphemy after dancing his devotion before a statue of the Madonna in the crypt he is saved when the statue delighted by his skill miraculously comes to life Jan Ziolkowski tracks the poem from its medieval roots to its rediscovery in late nineteenth century Paris before its translation into English in Britain and the United States The visual influence of the tale on Gothic revivalism and vice versa in America is carefully documented with lavish and inventive illustrations and Ziolkowski concludes with an examination of the explosion of interest in The Juggler of Notre Dame in the twentieth century

and its place in mass culture today

Volume 3 The American Middle Ages hinges upon two figures influenced by the juggler Henry Adams scion of Presidents and distinguished cultural historian whose works contributed to the rise of medievalism in America during the Gilded Age and Ralph Adams Cram the architect whose vision of Gothic accounts directly or indirectly for the campuses of West Point Princeton Yale Chicago Notre Dame and many other universities across America The Juggler of Notre Dame and the Medievalizing of Modernity is a rich case study for the reception of the Middle Ages in modernity

Spanning centuries and continents the medieval period is understood through the lens of its post modern reception in Europe and America

Profound connections between the verbal and the visual are illustrated by a rich trove of images including book illustrations stained glass postage stamps architecture and Christmas cards

Presented with great clarity and simplicity Ziolkowski's work is accessible to the general reader while its many new discoveries will be valuable to academics in such fields and disciplines as medieval studies medievalism philology literary history art history folklore performance studies and reception studies
