They knew what they wanted to do And they went after it with everything they had heart mind and soul There s one characteristic that sets successful people apart from others Makes them stand out like lions amidst a herd of sheep It s easy to spot them thanks to that unmistakable aura What is that quality I ve had many people write to me They express their fears lack of self esteem They tell me how they shiver at the thought of addressing people Whether it s a public speech or a social gathering fear grips them and prevents them from doing anything else Some of my friends also have the same problem Not that they don t work hard No They give everything they have Yet they struggle to become successful So what is that quality that separates successful people from others You guessed it It s confidence I ve observed that most people are willing to work and give it their best shot but they lack confidence What exactly is confidence though Is it some mysterious secret you can t possess And why is it so hard to gain confidence especially when you need it the most Well confidence is a momentary emotion of clarity certainty and control Clarity of your thoughts control over your mind body and actions and certainty for performance followed by commitment to your goal Confidence is derived from fidere from Latin which means trust Simply put confidence is about trusting yourself Then why does that trust waver at times Because confidence is not permanent It s a momentary strength that needs to be practiced There are several techniques scientific and creative to do that And this book will reveal 101 ways to do it
