Viral Leonard Sweet,2012-03-13 The gospel is nothing without relationship And no one gets it like the Google Generation God came to earth to invite us personally into a relationship And while Christians at times downplay relationships the social media generation is completely sold on the idea In Viral Leonard Sweet says Christians need to learn about connecting with others from the experts those who can t seem to stop texting IM ing tweeting and updating their Facebook statuses What would happen he asks if Christians devoted less attention to strategies and statistics and paid more attention to pursuing relationships The current generation is driven by a God given desire to know others and to be known by others Most of them in seeking to connect in meaningful ways have found a place of belonging that is outside the organized church Why not bring the two together Those who are sold out to relationships can teach Christians how to be better friends to people who need God At the same time members of the social media generation can learn how to follow their desire for belonging straight into the arms of God It s time for relationship to be restored to the heart of the gospel And when that happens can revival be far behind End of Chapter Interactives Included **The School System of Norway** David Allen Anderson,2021-04-26 David

Allen Anderson's *The School System of Norway* offers a comprehensive analysis of the Norwegian educational framework renowned for its unique blend of egalitarian principles and innovative pedagogical practices. With a literary style marked by clarity and depth, Anderson navigates through the historical evolution, socio-political contexts, and contemporary challenges facing Norway's school system. The book is anchored in a comparative educational perspective, positioning Norway's practices against global educational trends, thus providing nuanced insights into how its values shape student outcomes and societal cohesion. Anderson, a respected educational researcher with deep ties to Scandinavian studies, draws upon his extensive background and personal experiences within Norway to inform his writing. His academic pursuits, which include an emphasis on social justice in education, find resonance in this work as he addresses how Norway's school system strives to balance individualized student needs with broader national educational goals. His familiarity with the cultural subtleties of Norwegian society enriches the narrative, allowing readers to appreciate the intricacies of the system. This book is highly recommended for educators, policymakers, and scholars seeking an in-depth understanding of a successful educational model. Anderson's work not only illuminates the strengths of Norway's approach but also encourages reflection on universal lessons that can be gleaned for improving global education systems.
