Stories For Little Comrades Revolutionary Artists And The Making Of Early Soviet Childrens:

Stories for Little Comrades Evgeny Steiner, 1999 In a major reassessment of their work Evgeny Steiner forcefully demonstrates that the Constructivists were as committed to implementing Utopia regardless of the human cost as their establishment counterparts **BOOK JACKET** *Stories Little Comrades-cl* , In the Soviet Union of the 1920s the most prominent avant garde artists were eager children s book illustrators Steiner now offers a look at the Constructivists work which combines the visual arts literature and politics 63 illustrations 23 in color **A Companion to Soviet Children's Literature and Film** Olga Voronina, 2019-10-14 A Companion to Soviet Children s Literature and Film offers a comprehensive and innovative analysis of Soviet literary and cinematic production for children Its contributors contextualize and reevaluate Soviet children s books films and animation and explore their contemporary re appropriation by the Russian government cultural practitioners and educators Celebrating the centennial of Soviet children s literature and film the Companion reviews the rich and dramatic history of the canon It also provides an insight into the close ties between Soviet children s culture and Avant Garde aesthetics investigates early pedagogical experiments of the Soviet state documents the importance of translation in children s literature of the 1920 80s and traces the evolution of heroic fantastic historical and absurdist Soviet narratives for children *The Things of Life* Alexey Golubev, 2020-12-15 The Things of Life is a social and cultural history of material objects and spaces during the late socialist era It traces the biographies of Soviet things examining how the material world of the late Soviet period influenced Soviet people s gender roles habitual choices social trajectories and imaginary aspirations Instead of seeing political structures and discursive frameworks as the only mechanisms for shaping Soviet citizens Alexey Golubev explores how Soviet people used objects and spaces to substantiate their individual and collective selves In doing so Golubev rediscovers what helped Soviet citizens make sense of their selves and the world around them ranging from space rockets and model aircraft to heritage buildings and from home gyms to the hallways and basements of post Stalinist housing Through these various materialist fascinations The Things of Life considers the ways in which many Soviet people subverted the efforts of the Communist regime to transform them into a rationally organized disciplined and easily controllable community Golubev argues that late Soviet materiality had an immense impact on the organization of the Soviet historical and spatial imagination His approach also makes clear the ways in which the Soviet self was an integral part of the global experience of modernity rather than simply an outcome of Communist propaganda Through its focus on materiality and personhood The Things of Life expands our understanding of what made Soviet people and society Soviet **Marie Neurath and Isotype Picturebooks** Susanne Blumesberger, Bettina Kümmerling-Meibauer, Jörg Meibauer, 2025-08-18 Marie Neurath 1898 1986 was an illustrator and graphic designer who from the mid 1940s to the late 1960s created innovative non fiction books for children Together with her husband politician and philosopher Otto Neurath 1882 1945 and artist and designer Gerd Arntz 1900 1988 she developed a method of visual

representation in 1920s Vienna that became known as Isotype International System of Typographic Picture Education Influenced by the progressive ideas of the Vienna Circle Isotype was intended to contribute to the democratization of knowledge To this end the Neuraths and their team created a special form of pictorial statistics that meant to make complex scientific relationships accessible to the layperson In the postwar period Marie Neurath developed several series of informative picturebooks for children that incorporated and further developed the Isotype principles Although these picturebooks were hugely successful in their time international picturebook research has barely acknowledged Marie Neurath's legacy This anthology is the first to elaborate Marie Neurath's achievement as a transformer of knowledge for children and to analyze her distinctive groundbreaking graphic method [Global Perspectives on Death in Children's Literature](#) Lesley D. Clement, Leyli Jamali, 2015-07-30 This volume visits death in children's literature from around the world making a substantial contribution to the dialogue between the expanding fields of Childhood Studies Children's Literature and Death Studies Considering both textual and pictorial representations of death contributors focus on the topic of death in children's literature as a physical reality a philosophical concept a psychologically challenging adjustment and or a social construct Essays covering literature from the US Mexico El Salvador Guatemala Canada the UK Sweden Germany Poland Bulgaria Brazil Czechoslovakia the Soviet Union India and Iran display a diverse range of theoretical and cultural perspectives Carefully organized sections interrogate how classic texts have been adapted for the twenty first century how death has been politicized ritualized or metaphorized and visual strategies for representing death and how death has been represented within the context of play Asking how different cultures present the concept of death to children this volume is the first to bring together a global range of perspective on death in children's literature and will be a valuable contribution to an array of disciplines **Pedagogy of Images** Marina Balina, Serguei Alex Oushakine, 2021-06-21 This collection offers a variety of scholarly views on illustrated books for Soviet children covering everything from artistic innovation to state propaganda **Avant-Garde Translation** Alexandra Lukes, 2023-09-20 Avant Garde Translation is a playful ensemble that celebrates creativity in all things translation by taking you on a journey to the cutting edge of translation practice and theory Through a refreshing mix of essay forms from scholarly study to practical translation toolkits Avant Garde Translation explores territories as diverse as children's picturebooks multilingual poems and visual artworks and proposes various translation strategies such as audio visual collages ninja invisibility and collaboration with invented translators The spirited and provocative contributions intervene in the field of translation studies to shake up the status quo by highlighting the critical and creative connections between thought and practice the book shows how literary translation can be an exploratory playground for radical transformation *Recasting Red Culture in Proletarian Japan* Samuel Perry, 2014-01-31 Recasting Red Culture turns a critical eye on the influential proletarian cultural movement that flourished in 1920s and 1930s Japan This was a diverse cosmopolitan and highly contested moment in Japanese history when notions of political egalitarianism

were being translated into cultural practices specific to the Japanese experience Both a political and historiographical intervention the book offers a fascinating account of the passions and antinomies that animated one of the most admirable intellectual and cultural movements of Japan s twentieth century and argues that proletarian literature cultural workers and institutions fundamentally enrich our understanding of Japanese culture What sustained the proletarian movement s faith in the idea that art and literature were indispensable to the task of revolution How did the movement manage to enlist artists teachers and scientist into its ranks and what sorts of contradictions arose in the merging of working class and bourgeois cultures Recasting Red Culture asks these and other questions as it historicizes proletarian Japan at the intersection of bourgeois aesthetics radical politics and a flourishing modern print culture Drawing parallels with the experiences of European revolutionaries the book vividly details how cultural activists recast forms of modern culture into practices commensurate with the goals of revolution Weaving over a dozen translated fairytales poems and short stories into his narrative Samuel Perry offers a fundamentally new approach to studying revolutionary culture By examining the margins of the proletarian cultural movement Perry effectively redefines its center as he closely reads and historicizes proletarian children s culture avant garde wall fiction and a literature that bears witness to Japan s fraught relationship with its Korean colony Along the way he shows how proletarian culture opened up new critical spaces in the intersections of class popular culture childhood gender and ethnicity

Tales for Little Rebels Julia L. Mickenberg, Philip Nel, 2008-11 A rarely discussed aspect of children s literature the politics behind a book s creation has been thoroughly explored in this intelligent enlightening and fascinating account

Opposing Jim Crow Meredith L. Roman, 2019-12 Before the Nazis came to power in Germany Soviet officials labeled the United States the most racist country in the world Photographs children s stories films newspaper articles political education campaigns and court proceedings exposed the hypocrisy of America s racial democracy In contrast the Soviets represented the USSR itself as a superior society where racism was absent and identified African Americans as valued allies in resisting an imminent imperialist war against the first workers state Meredith L Roman s Opposing Jim Crow examines the period between 1928 and 1937 when the promotion of antiracism by party and trade union officials in Moscow became a priority policy Soviet leaders stood to gain considerable propagandistic value at home and abroad by drawing attention to U S racism their actions simultaneously directed attention to the routine violation of human rights that African Americans suffered as citizens of the United States Soviet policy also challenged the prevailing white supremacist notion that blacks were biologically inferior and thus unworthy of equality with whites African Americans of various political and socioeconomic backgrounds became indispensable contributors to Soviet antiracism and helped officials in Moscow challenge the United States claim to be the world s beacon of democracy and freedom

Utopian Reality Christina Lodder, Maria Kokkori, Maria Mileeva, 2013-10-24 This collection of essays deals broadly with the visual and cultural manifestation of utopian aspirations in Russia of the 1920s and 1930s while examining the before and after life of

such ideas both geographically and chronologically The studies document the pluralism of Russian and Soviet culture at this time as well as illuminating various cultural strategies adopted by officialdom The result serves to complicate the excessively simplistic narrative that avant garde dreams were suddenly and brutally crushed by Soviet repression and to contest the notion of the avant garde s complicity in Stalinism Naturally some essays document episodes in the defeat and dismantling of utopian projects but others trace the persistence of avant garde ideas and the astonishing tenacity of creative individuals who managed to retain their personal integrity while continuing to serve the cause of Soviet power Contributors include John E Bowlt Natalia Budanova David Crowley Evgeny Dobrenko Maria Kokkori Christina Lodder Muireann Maguire Nicholas Bueno de Mesquita Maria Mileeva John Milner Nicoletta Misler Maria Starkova Vindman Brandon Taylor and Maria Tsantsanoglou

Children and Yiddish Literature From Early Modernity to Post-Modernity Gennady Estraiikh, Kerstin Hoge, Krutikov Mikhail, 2016-05-20 Children have occupied a prominent place in Yiddish literature since early modern times but children s literature as a genre has its beginnings in the early 20th century Its emergence reflected the desire of Jewish intellectuals to introduce modern forms of education and promote ideological agendas both in Eastern Europe and in immigrant communities elsewhere Before the Second World War a number of publishing houses and periodicals in Europe and the Americas specialized in stories novels and poems for various age groups Prominent authors such as Yankev Glatshteyn Der Nister Joseph Opatoshu Leyb Kvitko made original contributions to the genre while artists such as Marc Chagall El Lissitzky and Yisakhar Ber Rybak also took an active part In the Soviet Union meanwhile children s literature provided an opportunity to escape strong ideological pressure Yiddish children s literature is still being produced today both for secular and strongly Orthodox communities This volume is a pioneering collective study not only of children s literature but of the role played by children in literature

A Cultural History of the Avant-Garde in the Nordic Countries 1925-1950, 2019-02-04 A Cultural History of the Avant Garde in the Nordic Countries 1925 1950 is the first publication to deal with the avant garde in the Nordic countries in this period The essays cover a wide range of avant garde manifestations literature visual arts theatre architecture and design film radio body culture and magazines It is the first major historical work to consider the Nordic avant garde in a transnational perspective that includes all the arts and to discuss the role of the avant garde not only within the aesthetic field but in a broader cultural and political context the pre war and wartime responses to international developments the new cultural institutions sexual politics the impact of refugees and the new start after the war

Annual Bibliography of the History of the Printed Book and Libraries Department of Information & Collections, 2005-12-21 The Annual Bibliography of the History of the Printed Book and Libraries aims at recording articles of scholarly value which relate to the history of the printed book to the history of arts crafts techniques and equipment and of the economic social and cultural environment involved in its production distribution conservation and description

Russian Children's Literature and Culture Marina Balina, Larissa Rudova, 2013-02-01 Soviet literature in general and Soviet children s

literature in particular have often been labeled by Western and post Soviet Russian scholars and critics as propaganda. Below the surface however Soviet children's literature and culture allowed its creators greater experimental and creative freedom than did the socialist realist culture for adults. This volume explores the importance of children's culture from literature to comics to theater to film in the formation of Soviet social identity and in connection with broader Russian culture history and society.

An Ecology of the Russian Avant-Garde Picturebook Sara Pankenier Weld, 2018-02-15. *An Ecology of the Russian Avant Garde Picturebook* takes a new approach to interpreting 1920s and 1930s picturebooks by prominent Russian writers, artists, and intellectuals by examining them within the ecological environment that first made them possible and then led to their demise. It argues that naturalistic models of the complex interactions of dynamic systems offer effective tools for understanding the fraught interrelations of art and censorship in the early Soviet period. Through illustrative case studies it mounts a close analysis of word and image and their synergistic interplay in avant garde picturebooks while also recontextualizing them within the ecology of their original environment where extraordinary countervailing forces played out a drama of which these books survive as telling artifacts. Ultimately it argues that the Russian avant garde picturebook offers a uniquely illustrative example of literary ecology that sheds light on issues of creativity and censorship, politics, and art more broadly as well.

Medical Storyworlds Elena Fratto, 2021-11-02. Though often seen as scientific or objective, medicine has a fundamentally narrative aspect. Much like how an author constructs meaning around fictional events, a doctor or patient narrates the course of an illness and treatment. In what ways have literary and medical storytelling intersected with and shaped each other? In *Medical Storyworlds*, Elena Fratto examines the relationship between literature and medicine at the turn of the twentieth century, a period when novelists were experimenting with narrative form and the modern medical establishment was taking shape. She traces how Russian writers such as Dostoevsky, Tolstoy, and Bulgakov responded to contemporary medical and public health prescriptions, placing them in dialogue with French and Italian authors including Romain Rolland and Svevo, and such texts as treatises by Paul Broca and Cesare Lombroso. In nuanced readings of these works, Fratto reveals how authors and characters question the rhetoric and authority of medicine and public health in telling stories of mortality, illness, and well-being. In so doing, she argues, they provide alternative ways of thinking about the limits and possibilities of human agency and free will.

Bridging the medical humanities: European literary studies and Slavic studies. *Medical Storyworlds* shows how narrative theory and canonical literary texts offer a new lens on today's debates in medical ethics and bioethics.

Music for the Revolution Amy Nelson, 2010-02-24. Mention twentieth century Russian music and the names of three giants: Igor Stravinsky, Sergei Prokofiev, and Dmitri Shostakovich immediately come to mind. Yet during the turbulent decade following the Bolshevik Revolution, Stravinsky and Prokofiev lived abroad, and Shostakovich was just finishing his conservatory training. While the fame of these great musicians is widely recognized, little is known about the creative challenges and political struggles that engrossed musicians in Soviet Russia during the crucial years after 1917.

Music for the Revolution examines musicians responses to Soviet power and reveals the conditions under which a distinctively Soviet musical culture emerged in the early thirties Given the dramatic repression of intellectual freedom and creativity in Stalinist Russia the twenties often seem to be merely a prelude to Totalitarianism in artistic life Yet this was the decade in which the creative intelligentsia defined its relationship with the Soviet regime and the aesthetic foundations for socialist realism were laid down In their efforts to deal with the political challenges of the Revolution musicians grappled with an array of issues affecting musical education professional identity and the administration of musical life as well as the embrace of certain creative platforms and the rejection of others Nelson shows how debates about these issues unfolded in the context of broader concerns about artistic modernism and elitism as well as the more expansive goals and censorial authority of Soviet authorities Music for the Revolution shows how the musical community helped shape the musical culture of Stalinism and extends the interpretive frameworks of Soviet culture presented in recent scholarship to an area of artistic creativity often overlooked by historians It should be broadly important to those interested in Soviet history the cultural roots of Stalinism Russian and Soviet music and the place of music and the arts in revolutionary change

Children's Literature and the Avant-Garde Elina Druker, Bettina Kümmerling-Meibauer, 2015-07-15 Children s Literature and the Avant Garde is the first study that investigates the intricate influence of the avant garde movements on children s literature in different countries from the beginning of the 20th century until the present Examining a wide range of children s books from Denmark France Germany Hungary the Netherlands Russia Sweden the United Kingdom and the USA the individual chapters explore the historical as well as the cultural and political aspects that determine the exceptional character of avant garde children s books Drawing on studies in children s literature research art history and cultural studies this volume provides comprehensive insights into the close relationships between avant garde children s literature images of childhood and contemporary ideas of education Addressing topics such as the impact of exhibitions the significance of the Bauhaus and the influence of poster art and graphic design the book illustrates the broad range of issues associated with avant garde children s books More than 60 full color illustrations demonstrate the impressive variety of design in avant garde picturebooks and children s books
