Stories Of Awe And Abundance:

Stories of Awe and Abundance Jose Hobday, 1999-04-19 Sister Jose Hobday is one of America's most popular speakers on prayer and spirituality. Her stories drawn from her own experience growing up as a Native American Catholic in the American Southwest eloquently communicate her relationship with and commitment to God, family and community. In *Stories of Awe and Abundance* Sister Jose explores topics ranging from Native American Spirituality to living simply, women in the church and peace and justice. *Touching the Heart* William J. Bausch, 2007 No one can write about storytelling like Father Bill Bausch. Both his words and his stories are compelling, convincing and completely absorbing. Here in this landmark work which he insists is his last, his goal is to help readers see the centrality of stories to read and hear Scripture as story and not as history and to learn to enrich and expand their lives by looking at the story behind the story. He wants to break readers out of the literalism that constricts their spiritual and social lives so they might gain an appreciation of metaphor and symbol and the sacramentality of the world.

Imagining Extinction Ursula K.

Heise, 2016-08-10 We are currently facing the sixth mass extinction of species in the history of life on Earth; biologists claim the first one caused by humans. Activists, filmmakers, writers, and artists are seeking to bring the crisis to the public's attention through stories and images that use the strategies of elegy, tragedy, epic, and even comedy. *Imagining Extinction* is the first book to examine the cultural frameworks shaping these narratives and images. Ursula K. Heise argues that understanding these stories and symbols is indispensable for any effective advocacy on behalf of endangered species. More than that, she shows how biodiversity conservation—even and especially in its scientific and legal dimensions—is shaped by cultural assumptions about what is valuable in nature and what is not. These assumptions are hardwired into even seemingly neutral tools such as biodiversity databases and laws for the protection of endangered species. Heise shows that the conflicts and convergences of biodiversity conservation with animal welfare advocacy, environmental justice, and discussions about the Anthropocene open up a new vision of multispecies justice. Ultimately, *Imagining Extinction* demonstrates that biodiversity, endangered species, and extinction are not only scientific questions but issues of histories, cultures, and values.
