Storming Caesars Palace Annelise Orleck, 2005 It was a spring day on the Las Vegas strip in 1971 when Ruby Duncan a former cotton picker turned hotel maid the mother of seven led a procession Followed by an angry army of welfare mothers they stormed the casino hotel Caesars Palace to protest Nevada s decision to terminate their benefits The demonstrations went on for weeks garnering the protesters and their cause national attention Las Vegas felt the pinch tourism was cut by half Ultimately a federal judge ruled to reinstate benefits It was a victory for welfare rights advocates across the country In Storming Caesars Palace historian Annelise Orleck tells the compelling story of how a group of welfare mothers and their supporters built one of this country s most successful antipoverty programs Declaring that we can do it and do it better these women proved that poor mothers are the real experts on poverty In 1972 they founded Operation Life which was responsible for all kinds of firsts for the poor in Las Vegas the first library medical center daycare center job training and senior citizen housing By the late 1970s Operation Life was bringing millions of dollars into the community each year And these women were influential in Washington D C respected and listened to by the likes of Daniel Patrick Moynihan Ted Kennedy and Jimmy Carter Ultimately in the 1980s Ruby Duncan and her band of reformers lost their funding with the country s move toward conservatism But the story of their incredible struggles and triumphs still stands as an important lesson about what can be achieved when those on welfare chart their own course

**The War on Poverty** Annelise Orleck, Lisa Gayle Hazirjian, 2011 Lyndon Johnson s War on Poverty has long been portrayed as the most potent symbol of all that is wrong with big government Conservatives deride the War on Poverty for corruption and the creation of poverty pimps and even liberals carefully distance themselves from it Examining the long War on Poverty from the 1960s onward this book makes a controversial argument that the programs were in many ways a success reducing poverty rates and weaving a social safety net that has proven as enduring as programs that came out of the New Deal The War on Poverty also transformed American politics from the grass roots up mobilizing poor people across the nation Blacks in crumbling cities rural whites in Appalachia Cherokees in Oklahoma Puerto Ricans in the Bronx migrant Mexican farmworkers and Chinese immigrants from New York to California built social programs based on Johnson s vision of a greater more just society Contributors to this volume chronicle these vibrant and largely unknown histories while not shying away from the flaws and failings of the movement including inadequate funding co optation by local political elites and blindness to the reality that mothers and their children made up most of the poor In the twenty first century when one in seven Americans receives food stamps and community health centers are the largest primary care system in the nation the War on Poverty is as relevant as ever This book helps us to understand the turbulent era out of which it emerged and why it remains so controversial to this day

Resisting Citizenship Martha A. Ackelsberg, 2013-01-11 Political participation in America supposedly the world's strongest democracy is startlingly low and many of the civil rights and economic equity initiatives that were instituted in the 1960s and 70s have been abandoned as significant proportions of the populace seem to believe that the civil rights battle has been won However rates of collective engagement like community activism are surprisingly high In Resisting Citizenship renowned feminist political scientist Martha Ackelsberg argues that community activism may hold important clues to reviving democracy in this time of growing bureaucratization and inequality This book brings together many of Ackelsberg's writings over the past 25 years combining her own field work and interviews with cutting edge research and theory on democracy and activism She explores these efforts in order to draw lessons and attempt to incorporate knowledge about current notions of democracy from those who engage in non traditional participation those who have in many respects been relegated to the margins of political life in the United States

The Obligated Self Mara H. Benjamin, 2018-05-24 Mara H Benjamin contends that the physical and psychological work of caring for children presents theologically fruitful but largely unexplored terrain for feminists Attending to the constant concrete and urgent needs of children she argues necessitates engaging with profound questions concerning the responsible use of power in unequal relationships the transformative influence of love human fragility and vulnerability and the embeddedness of self in relationships and obligations Viewing child rearing as an embodied practice Benjamin's theological reflection invites a profound reengagement with Jewish sources from the Talmud to modern Jewish philosophy Her contemporary feminist stance forges a convergence between Jewish theological anthropology and the demands of parental caregiving

**Forget "Having It All"** Amy Westervelt, 2018-11-13 A clear eyed look at the history of American ideas about motherhood how those ideas have impacted all women whether they have kids or not and how to fix the inequality that exists as a result After filing a story only two hours after giving birth and then getting straight back to full time work the next morning journalist Amy Westervelt had a revelation America might claim to revere motherhood but it treats women who have children like crap From inadequate maternity leave to gender based double standards emotional labor to the motherhood penalty wage gap racist devaluing of some mothers and overvaluing of others and our tendency to consider women s value only in terms of their reproductive capacity Westervelt became determined to understand how we got here and how the promise of having it all ever even became a thing when it was so far from reality for American women In *Forget Having It All* Westervelt traces the roots of our modern expectations of mothers and motherhood back to extremist ideas held by the first Puritans who attempted to colonize America and examines how those ideals shifted or didn t through every generation since Using this historical backdrop Westervelt draws out what we should replicate from our past bringing back home economics for example this time with an emphasis on gender balanced labor in the home and what we must begin anew as we overhaul American motherhood including taking a more intersectional view of motherhood thinking deeply about the ways in which capitalism influences our views on reproduction and incorporating working fathers into discussions about work life balance In looking for inspiration elsewhere in the world Westervelt turned not to Scandinavia where every work life balance story inevitably ends up but to Japan where politicians in an increasingly desperate effort to increase the country s birth rates sound familiar tried to apply Scandinavian style policies atop a capitalist democracy not unlike America s only to find that policy can t do much in the absence of cultural shift Ultimately Westervelt presents a measured historically rooted and research backed call for workplace policies cultural norms and personal attitudes about motherhood that will radically improve the lives of not just working moms but all Americans

Mack, 2014-08-20 In 1981 decades before mainstream America elected Barack Obama James Chase became the first African American mayor of Spokane Washington with the overwhelming support of a majority white electorate Chase's win failed to capture the attention of historians as had the century long evolution of the black community in Spokane In *Black Spokane: The Civil Rights Struggle in the Inland Northwest* Dwayne A Mack corrects this oversight and recovers a crucial chapter in the history of race relations and civil rights in America As early as the 1880s Spokane was a destination for black settlers escaping the racial oppression in the South settlers who over the following decades built an infrastructure of churches businesses and social organizations to serve the black community Drawing on oral histories interviews newspapers and a rich array of other primary sources Mack sets the stage for the years following World War II in the Inland Northwest when an influx of black veterans would bring about a new era of racial issues His book traces the earliest challenges faced by the NAACP and a small but sympathetic white population as Spokane became a significant part of the national civil rights struggle International superstars such as Louis Satchmo Armstrong and Hazel Scott figure in this story along with charismatic local preachers entrepreneurs and lawyers who stepped forward as civic leaders These individuals contributions and the black community's encounters with racism offer a view of the complexity of race relations in a city and a region not recognized historically as centers of racial strife But in matters of race from the first migration of black settlers to Spokane through the politics of the Cold War and the civil rights movement to the successes of the 1970s and 80s Mack shows that Spokane has a story to tell one that this book at long last incorporates into the larger history of twentieth century America
