Story And Faith In The Biblical Narrative:

Story and Faith in the Biblical Narrative Ulrich E. Simon, 1975 *Telling God's Story* Gerard Loughlin, 1999-09-23

This book presents narrative theology as radically orthodox. It is orthodox because in the tradition of all those who maintain the priority of the story of Jesus as it is sacramentally performed in the Church and radical because it eschews all modern attempts to found Christian faith on some other story such as that of reason, critical history, or human consciousness. Acknowledging the indeterminacy of and textuality of human existence, *Telling God's Story* presents the Christian life as a truly postmodern venture: the groundless enactment of God's future now. **Biblical Narrative Learning** Tung Chiew Ha, 2015-10-02. Biblical narrative learning is a non-critical educational approach for Christian communities with diverse learning backgrounds involving three sets of movement: inquire and invent, interpret and imagine, inspire and imitate, and impart. It is grounded in humankind's universal capacity to teach and learn through stories and built on practices in narrative learning along with biblical narratives. The Gospel of John provides a model for this interpretive process that continues the teaching of living in a loving relationship with God and one another. John uses many literary devices to enhance an affective and reflective learning. The literary devices create the familiar/strange effect. John's narrative fosters remembrance of the Story and guides the learner to adequate faith in God. It inculcates adequate faith to wait in suspense while the Jesus Story and our stories when they are remembered create new understanding and transform the life experiences of the person.

Stories of Desire and Narratives of Faith Victor Hunter, Lanny Hunter, 2019-04-02. Stories are the foundation for identity and the ground of understanding. *Stories of Desire and Narratives of Faith* addresses humankind's search for identity and meaning through the stories of science and religion. Both arose in the mists of history. Both are awe-inspiring. Both beggar the imagination. Both have always competed for authority. Science gained preeminence in our postmodern, pluralistic, globalized world as evidenced based, while religion for many reasons lost credibility. Yet religion has not disappeared. *Stories* is a concise, engaging, inspiring, accessible account of the history of science, geological and biological evolution perceived through increasingly sophisticated technology and the history of nine text-based world religions of antiquity. *Stories* avoids insider language, democratizing both God-talk and scientific jargon without patronizing either. There is no attempt to identify the best or truest religion, and *Stories* disavows dogmatic religious triumphalism. The authors do follow the tradition of giving an account of their Christian faith, the only religious story with which they have experience. They invite others to do the same, paying attention to their own stories as they grapple with modern science, do theology, and engage faith. *Stories* proposes how and in what manner these disciplines can meaningfully converse in today's world. Faith and Narrative Keith E. Yandell, 2001. From epic to limerick, novel to anecdote, literary narratives engage and entertain us. From autobiography and biography to accounts of familial generations, narratives define communities. Myths and histories loom large in religious traditions as well. Recently, the importance of narrative to ethics and religion has become a pervasive theme in several

scholarly disciplines In the essays presented here a distinguished roster of scholars addresses a range of issues associated with this theme focusing especially on questions concerning narrative s contribution to knowledge **Children's**

Perceptions of the Role of Biblical Narratives in Their Spiritual Formation Annie George,2017-02-28 In the Bible storytelling is an important means to pass on the revelation of God God repeatedly commanded the people of Israel to tell his mighty acts to the next generation Invariably churches follow this mandate and use biblical narratives as a means to transmit God s self revelation to enable transformation The author Dr Annie George listens to the voices of children in order to understand their perceptions of how storytelling of biblical narratives help them in their spiritual formation Dr George s research highlights the importance of evaluating the impact of biblical narratives from a child s perspective as well as emphasising the need to give the same priority to the spiritual transformation of children as with other areas of study and ministry *Figuring the Sacred* Paul Ricoeur, The thought of Paul Ricoeur continues its profound effect on theology

religious studies and biblical interpretation The 28 papers contained in this volume constitute the most comprehensive overview of Ricoeur s writings in religion since 1970 Ricoeur s hermeneutical orientation and his sensitivity to the mystery of religious language offer fresh insight to the transformative potential of sacred literature including the Bible The Historical Christ and the Jesus of Faith C. Stephen Evans,1996-04-18 The story of Jesus of Nazareth as recounted in the New Testament has always been understood by the church to be historically true It is an account of the life death and resurrection of a real person whose links with history are firmly signalled in the creeds of the early church which affirm that Jesus suffered under Pontius Pilate Contemporary historical scholarship has however called into question the reliability of the church s version of this story and thereby raised the question as to whether ordinary people can know its historical truth This book argues that the historicity of the story still matters and that its religious significance cannot be captured by the category of non historical myth The commonly drawn distinction between the Christ of faith and Jesus of history cannot be maintained The Christ who is the object of faith must be seen as historical the Jesus who is reconstructed by historical scholarship is always shaped by commitments of faith A reconsideration of the Enlightenment epistemologies that underlie much historical scholarship shows that historical knowledge of this story is still possible Such knowledge can be inferential based on historical evidence A careful look at contemporary New Testament studies and the philosophical and literary assumptions upon which it rests shows that this scholarship should not undermine the confidence of lay people who believe that they can know that the church s story about Jesus is true **Narrative Research in Ministry** Carl E. Savage,Dr

William Presnell,2008 We are in a real sense our stories Who we are what we think and how we act are all shaped by the many large and small stories that make up the discourse embedded in our multi sensory social experience It is this postmodern understanding of identity and reality that has prompted the authors to fashion a new way of thinking about doing research in faith communities today particularly through a Doctor of Ministry program It is our belief that in order for faith

communities to define themselves and to know what to do in ministry they must first understand the multiple stories which intersect with a given ministry situation in their specific context

Who's Afraid of Postmodernism? (The Church and Postmodern Culture) James K. A. Smith, 2006-04-01 The philosophies of French thinkers Derrida Lyotard and Foucault form the basis for postmodern thought and are seemingly at odds with the Christian faith However James K A Smith claims that their ideas have been misinterpreted and actually have a deep affinity with central Christian claims Each chapter opens with an illustration from a recent movie and concludes with a case study considering recent developments in the church that have attempted to respond to the postmodern condition such as the emerging church movement These case studies provide a concrete picture of how postmodern ideas can influence the way Christians think and worship This significant book winner of a Christianity Today 2007 Book Award avoids philosophical jargon and offers fuller explanation where needed It is the first book in the Church and Postmodern Culture series which provides practical applications for Christians engaged in ministry in a postmodern world

The Worldview of the Word of Faith Movement: Eden Redeemed Mikael Stenhammar, 2021-12-16 This volume approaches the Word of Faith as a worldview and analyses the movement through N T Wright's model for worldview analysis in order to provide necessary nuance and complexity to scholarly interpretations of the Word of Faith The reader receives insights into the movement's narrative semiotic practical and propositional dimensions which cumulatively offer a multifaceted understanding of how the Word of Faith interprets reality and engages with the world The analysis shows that there is a narrative core to Word of Faith beliefs in the form of a unique theological story with focus set on the present restoration of Eden's authority and blessings This study demonstrates how the Word of Faith operates as a distinct worldview that parses the world through the lens of faith's causative power to affect a direct correspondence between present reality and Eden's perfection The findings advance a critical and therapeutic approach that acknowledges how the worldview both strengthens and subverts Pentecostalism

Defending the Faith Bruce A. Little, Mark Liederbach, 2011 Scholars pay tribute to late Southern Baptist philosopher and apologist L Russ Bush remembering his efforts to engage the culture for Christ Contributors include Norman Geisler and Richard Land

The Hermeneutics of Participation Greg McKinzie, 2025-07-15 Many theological interpreters of Scripture have claimed that church practices produce well formed readers But which practices Greg McKinzie argues that missional hermeneutics challenges the church to include participation in God's mission among the indispensable components of readerly formation After a quarter century of contemporary reflection on missional theology however the meaning of participation in God's mission remains vague In order to explain why it is a critical hermeneutical experience therefore McKinzie sets out to develop a theological account of missional participation that incorporates the concepts of the *sis* embodied narrativity and solidarity Then in conversation with the hermeneutical phenomenology of Paul Ricoeur the study suggests how theologically recontextualizing a model of the movement from embodied commitments to textual interpretation in terms of participation in God's mission illuminates the

epistemic reconstitution of the church's theological interpretation of Scripture Understanding participation in God's mission as theological interpretation's proper locus theologicus should reorient the notion of readerly formation because the formation of missional readers is the process in which God opens the reading community's embodied eyes of faith through the works of faith seeking understanding **Faith, Life, and Learning Online** Brant M. Himes, John W.

Washatka, 2022-04-08 Faith Life and Learning Online is an invitation for faith based institutions to take bold steps toward integrating a holistic mission of spiritual formation into the online learning environment For Christian higher education faith integration is a matter of mission not modality Regardless of whether learning happens in the traditional classroom through hybrid models or exclusively online Christian universities have a missional mandate to continue their long legacy of forming students of competence and character While traditional campuses continue to provide unique and meaningful opportunities for students to grow in their faith online learning has opened new avenues for engagement and development of spiritual formation As such all Christian higher education institutions are now called to take advantage of this unique technological moment to continue to offer transformative opportunities for the holistic integration of faith life and learning in the online environment *Telling God's Story* Preben Vang, Terry G. Carter, 2013-08-01

How well do you know His story By the time a Christian reaches young adulthood he is likely to be quite familiar with every major story in the Bible but not from having studied them in any particular order Ask an average Bible student to arrange certain characters and events chronologically and the results are telling *Telling God's Story* looks closely at the Bible from its beginning in Genesis to its conclusion in Revelation By approaching Scripture as one purposefully flowing narrative emphasizing the inter connectedness of the text veteran college professors Preben Vang and Terry G Carter reinforce the Bible's greatest teachings and help readers in their own ability to share God's story effectively with others Ideal for classroom settings this second edition of *Telling God's Story* now features all supporting charts photographs and illustrations in full color *Faith and Doubt* R. L. Brett, 1997

Pairing great writers from each generation who typify the contrasts and concerns of their age Professor Brett explores the complex interplay between faith and doubt in English literature since the Enlightenment *From Fear to Faith* Joel L. Watts, Travis Milam, 2013-05-13 There's a stereotype of a young zealous Christian who feels called to the ministry as a pastor goes to seminary and then loses his faith as he studies the writings of all those intellectuals and theologians The stereotype may not be accurate but there are those who fit this description not to mention many who leave home for college as passionate Christians and come home unbelievers More importantly that stereotype represents a fear the fear that too much education or contact with those whose beliefs differ from those of a particular community will cause someone to lose their faith But there's another group much larger but not heard nearly as frequently This group consists of people who have gone from the position of fear that creates the stereotype to a position of faith a faith that is no longer afraid of that outer darkness that looms outside the walls of their religious community Indeed they may not perceive any looming darkness at all *From Fear to*

Faith edited by Travis Milam and Joel L Watts gives voice to that too often unheard group. It is a collection of essays from those who have lived in fear, have faced the looming dark, collided with their share of brick walls but have come out with a new found faith and undismayed trust. The journeys of faith presented in this book reveal a group deeply insightful and grounded, minds rich in thriving spirituality, joy and hope. Where there was once trepidation in asking the tough questions of human existence, of the divine relationship with creation, there is now a certain hope found when these authors have struggled to overcome canyons of fear, leaving behind a life of black and white certitude to live in a beautiful world of gray. They have learned that having questions and even doubts does not reflect a lack of faith. Rather, hiding in fear from the serious questions indicates a lack of faith in the one who said, "Don't be afraid. Come join in this journey from fear to faith."

Faith Seeking Understanding Daniel L. Migliore, 2014-08-08 A superb standard Christian theology text for nearly a quarter century, Daniel Migliore's *Faith Seeking Understanding* explores all of the major Christian doctrines in freshly contemporary ways. Further, the three imaginary theological dialogues culminating the book, pointedly playful exchanges that have delighted countless readers, are here joined by a fourth dialogue between Karl Barth and Friedrich Nietzsche on atheism. All in all, a new generation of students, pastors and Christian educators eager to better understand the rich heritage, central themes and contemporary challenges of Christian theology will find both guidance and stimulation in Migliore's updated work.
