The True Story Behind Alfred Hitchcock's The Birds Fergus Mason, 2020-09-01 The Birds was different from most of Hitchcock's work For admirers of Hitchcock The Birds also raises disturbing questions about the director as a person He was a complex and confusing character in many ways and perhaps it's not surprising that someone who built a career out of creating suspense and fear on screen might also have had some darker sides to his personal life Beyond the details of the story and how it came to be filmed though one of the most interesting questions about The Birds is why Hitchcock made it in the first place It took its title from a short story by English author Daphne du Maurier but beyond the basic idea of people being attacked by birds it didn't take much else from it The storyline was pure Hitchcock So where did it come from It turns out that his inspiration

was a strange and alarming incident that happened just a few miles from his home in California This book uncovers the truth behind the plot as well as other factoids that fascinate any fan of the film
