The History And Origin Of Language

John H. Moran,Alexander Gode

The History And Origin Of Language:

   The History and Origin of Language A.S. Diamond,2023-12-30 First Published in 1959 The history and origin of language deals with one of the most important and most fascinating subject matter of all human historical problems that of the origin and development of language It is the first attempt to solve it not by a priori methods but by marshalling and analyzing the whole of the evidence It is a work of great originality by a scholar who has written other well known sociological works and the treatment is that of the sociologist Dr Diamond writes for the intelligent layman as well as the linguist He first seeks the true nature of language and its true function and structure in modern society and traces the paths along which language has developed and changed in its known history both in the forms of its words and in their meanings examining for this purpose many languages of civilized and primitive peoples These paths he then pursues backwards with the aid of data from human physiology the language of children and observations of animal behaviour and shows how all these paths converge to one beginning and deduces how language originated both the form of its first words and their meanings He finally shows relics of these earliest words and meanings in languages which still survive The arguments are cumulative and many sided and the case made is convincing This is a must read for scholars and researchers of linguistics

   The History and Origin of Language Arthur Sigismund Diamond,1965   **The History and Origin of Language** Arthur Sigismund Diamond,1965   The History and Origin of Language Arthur Sigismund Diamond (avocat),1959   **The Origin of Language** Merritt Ruhlen,1996-08-15 Ruhlen is a leader in the new attempt to unify the theory of language development and diffusion Library Journal A powerful statement also a wonderfully clear exposition of linguistic thinking about prehistory Anthropological Science One of the world s foremost language researchers takes readers step by step through the hotly contested evidence that all modern languages derive from one mother tongue once spoken by primitive humans in Africa With The Origin of Language Merritt Ruhlen makes this fascinating science accessible to readers with no linguistic background MERRITT RUHLEN PhD Palo Alto California is the author of A Guide to the World s Languages

   Music and the Origins of Language Downing A. Thomas,1995-06-15 This study analyses reflections on music and considers ways in which it facilitates links between language and meaning   **Origins of Language** Sverker Johansson,2005-01-01 Sverker Johansson has written an unusual book on language origins with its emphasis on empirical evidence rather than theory building This is a book for the student or researcher who prefers solid data and well supported conclusions over speculative scenarios Much that has been written on the origins of language is characterized by hypothesizing largely unconstrained by evidence But empirical data do exist and the purpose of this book is to integrate and review the available evidence from all relevant disciplines not only linguistics but also e g neurology primatology paleoanthropology and evolutionary biology The evidence is then used to constrain the multitude of scenarios for language origins demonstrating that many popular hypotheses are untenable Among the issues covered 1 Human evolutionary history

2 Anatomical prerequisites for language 3 Animal communication and ape language 4 Mind and language 5 The role of gesture 6 Innateness 7 Selective advantage of language 8 Proto language   **New Essays on the Origin of Language** Jürgen Trabant,Sean Ward,2011-06-24 The contributions to this volume reflect the state of the art in the renewed discussion on the origin of language Some of the most important specialists in the field life scientists and linguists primarily examine two aspects of the question the origin of the language faculty and the evolution of the first language At stake is the relation between nature and culture and between universality and historical particularity as well as cognition communication and the very essence of language   **Prehistory, History and Historiography of Language, Speech, and Linguistic Theory** Bela Brogyanyi,1992-04-09 This collection of papers deals primarily with topics in general linguistics including history of linguistic science The volume is divided in 5 parts I Origin and Prehistory of Language II Historiography of Linguistics III Phonology and Phonetic Change IV Morphology and Syntax and V Socio Neurolinguistics and Multilingualism   *The Social Origins of Language* Daniel Dor,Chris Knight,Jerome Lewis,2014-06-27 This book offers an exciting new perspective on the origins of language Language is conceptualized as a collective invention on the model of writing or the wheel and the book places social and cultural dynamics at the centre of its evolution language emerged and further developed in human communities already suffused with meaning and communication mimesis ritual song and dance alloparenting new divisions of labour and revolutionary changes in social relations The book thus challenges assumptions about the causal relations between genes capacities social communication and innovation the biological capacities are taken to evolve incrementally on the basis of cognitive plasticity in a process that recruits previous adaptations and fine tunes them to serve novel communicative ends Topics include the ability brought about by language to tell lies that must have confronted our ancestors with new problems of public trust the dynamics of social cognitive co evolution the role of gesture and mimesis in linguistic communication studies of how monkeys and apes express their feelings or thoughts play laughter dance song ritual and other social displays among extant hunter gatherers the social nature of language acquisition and innovation normativity and the emergence of linguistic norms the interaction of language and emotions and novel perspectives on the time frame for language evolution The contributors are leading international scholars from linguistics anthropology palaeontology primatology psychology evolutionary biology artificial intelligence archaeology and cognitive science   Language and the History of Thought Nancy S. Struever,1995 17 essays discussing the role of language in the history of western thought Since Adam before the Fall named the animals by true insight into their essences language has never ceased to be the pivot of efforts to understand human nature and our capacity to feel at home in the twin worlds of nature and society This volume brings together seventeen essays that have appeared in the Journal of the History of Ideasover the last thirty years Their common theme is the role of language in aspects of the history of western thought from the Renaissance to the nineteenth century The essays cover questions in epistemology religion anthropology lexicography evolution the theory of signs and the

Sourcebook in the History of Philosophy of Language Margaret Cameron,Benjamin Hill,Robert J. Stainton,2016-09-08 For the first time in English this anthology offers a comprehensive selection of primary sources in the history of philosophy of language Beginning with a detailed introduction contextualizing the subject the editors draw out recurring themes including the origin of language the role of nature and convention in fixing form and meaning language acquisition ideal languages varieties of meanings language as a tool and the nexus of language and thought linking them to representative texts The handbook moves on to offer seminal contributions from philosophers ranging from the pre Socratics up to John Stuart Mill preceding each major historical section with its own introductory assessment With all of the most relevant primary texts on the philosophy of language included covering well over two millennia this judicious and generous selection of source material will be an indispensable research tool for historians of philosophy as well as for philosophers of language in the twenty first century A vital tool for researchers and contemporary philosophers it will be a touchstone for much further research with coverage of a long and varied tradition that will benefit today s scholars and enhance their awareness of earlier contributions to the field *A History of Language Philosophies* Lia Formigari,2004 Theory and history combine in this book to form a coherent narrative of the debates on language and languages in the Western world from ancient classic philosophy to the present with a final glance at on going discussions on language as a cognitive tool on its bodily roots and philogenetic role An introductory chapter reviews the epistemological areas that converge into or contribute to language philosophy and discusses their methods relations and goals In this context the status of language philosophy is discussed in its relation to the sciences and the arts of language Each chapter is followed by a list of suggested readings that refer the reader to the final bibliography About the author Lia Formigari Professor Emeritus at University of Rome La Sapienza Her publications include Language and Experience in XVIIth century British Philosophy Amsterdam Signs Science and Politics Philosophies of Language in Europe 1700 1830 Amsterdam La semiotique empiriste face au kantisme Liege Mardaga 1994 *Concise History of the Language Sciences* E.F.K. Koerner,R.E. Asher,2014-06-28 This book presents in a single volume a comprehensive history of the language sciences from ancient times through to the twentieth century While there has been a concentration on those traditions that have the greatest international relevance a particular effort has been made to go beyond traditional Eurocentric accounts and to cover a broad geographical spread For the twentieth century a section has been devoted to the various trends schools and theoretical framework developed in Europe North America and Australasia over the past seventy years There has also been a concentration on those approaches in linguistic theory which can be expected to have some direct relevance to work being done at the beginning of the twenty first century or those of

which a knowledge is needed for the full understanding of the history of linguistic sciences through the last half of this century The last section of this book reviews the applications of some of these findings Based on the foundation provided by the award winning Encyclopedia of Language and Linguistics this volume provides an excellent focal point of reference for anyone interested in the history of the language sciences **Origin Of Language** Roy Harris,1996-01-01 Public debate about language in the English speaking world during the nineteenth century turned on the issue of how language began The notion that language was a divine gift to humanity not shared by lower creatures was supported by the Biblical accounts of Adam naming the animals and of the Tower of Babel It was still accepted by leading religious authorities But this notion was seriously brought into question by the publication of Darwin s theory of evolution Those who rejected Darwinism ridiculed all attempts to conjure up language out of primitive calls grunts and ejaculations No animals it was pointed out had yet achieved communication remotely resembling the use of words On the other side were those who held that it was possible to account for the birth of language rationally as a function of the development of human communicational needs in society **On the Origin of Language** John H. Moran,Alexander Gode,1986-03-15 Additionally Rousseau s essay is an important text for semiotics and modern critical theory as it plays a very important role in Jacques Derrida s book Of Grammatology Rousseau supplements his discussion of the origin of languages with theories about the origins of music melody and harmony and the relationship of languages to government **Language, History, Ideology** Camiel Hamans,Hans Henrich Hock,2024-05-16 This volume presents twelve in depth case studies that critically examine the ways in which historical linguistics and language change interact with ideology These varying interactions have been present since the birth of historical comparative linguistics as a field of study Work in historical linguistics may be appropriated or rejected for ideological reasons most notably in the debates surrounding the Indo European homeland it can also by influenced by ideological biases as in the alternative histories that have been proposed for Moldovan and Maltese The development of linguistically defined nation states may itself fuel linguistic change for instance through the suppression of minority languages or the division of existing languages to mirror political divisions as occurred in the Balkans or it may lead to the formulation of pseudo histories designed to give a nation a more prestigious past The book will be of interest not only to historical linguists but also to anthropologists historians and all those interested in language policy *The Origins of Language* Nobuo Masataka,2008-08-27 Developments in cognitive science indicate that human and nonhuman primates share a range of behavioral and physiological characteristics that speak to the issue of language origins This volume has three major themes woven throughout the chapters First it is argued that scientists in animal behavior and anthropology need to move beyond theoretical debate to a more empirically focused and comparative approach to language Second those empirical and comparative methods are described revealing underpinnings of language some of which are shared by humans and other primates and others of which are unique to humans New insights are discussed and several hypotheses emerge concerning

the evolutionary forces that led to the design of language Third evolutionary challenges that led to adaptive changes in communication over time are considered with an eye toward understanding various constraints that channeled the process

    Language And Linguistic Introduction To History Vendryes,2014-01-09 First Published in 2005 Routledge is an imprint of Taylor Francis an informa company   **Studies in the History of the English Language VI** Michael Adams,Laurel J. Brinton,R.D. Fulk,2014-12-12 The relationships among data evidence and methodology in English historical linguistics are perennially vexed This volume which ranges chronologically from Old to Present Day English and from manuscripts to corpora challenges a wide variety of assumptions and practices and illustrates how diverse methods and approaches construct evidence for historical linguistic arguments from an increasingly large and diverse body of linguistic data
