A History of Modern Italy addresses the question of how Italy's modern history from its prolonged process of nation building
in the nineteenth century to the crises of the last two decades has produced a paradoxical blend of hyper modernity and
traditionalism and thus made the country different in the broader context of Western Europe The text explores how Italians
have experienced seismic shifts in their social and economic landscape over the past two centuries while simultaneously
maintaining older cultural norms social practices and political methods As a second objective the book showcases a narrative
of modern Italy that incorporates and blends the research findings and methodological insights of the new quantitative and
cultural historical scholarship of the past two and a half decades In doing so it chronicles the regime changes that have taken
the country from a Liberal monarchy through the Fascist dictatorship to a Democratic Republic while also delving into the
simultaneous economic and social history of the nation through these periods **The Making of Modern Woman** Lynn
