The History of the Science Fiction Magazine Michael Ashley, 1976 *Science Fiction and Fantasy Literature, Vol 1* R. Reginald, 2010-09-01 Science Fiction and Fantasy Literature A Checklist 1700 1974 Volume one of Two contains an Author Index Title Index Series Index Awards Index and the Ace and Belmont Doubles Index *Colonialism and the Emergence of Science Fiction* John Rieder, 2013-01-01 This groundbreaking study explores science fiction's complex relationship with colonialism and imperialism In the first full length study of the subject John Rieder argues that the history and ideology of colonialism are crucial components of science fiction's displaced references to history and its engagement in ideological production With original scholarship and theoretical sophistication he offers new and innovative readings of both acknowledged classics and rediscovered gems Rider proposes that the basic texture of much science fiction in particular its vacillation between fantasies of discovery and visions of disaster is established by the profound ambivalence that pervades colonial accounts of the exotic other Includes discussion of works by Edwin A Abbott Edward Bellamy Edgar Rice Burroughs John W Campbell George Tomkyns Chesney Arthur Conan Doyle H Rider Haggard Edmond Hamilton W H Hudson Richard Jefferies Henry Kuttner Alun Llewellyn Jack London A Merritt Catherine L Moore William Morris Garrett P Serviss Mary Shelley Olaf Stapledon and H G Wells *The Man with the Strange Head and Other Early Science Fiction Stories* Miles John Breuer, 2008-01-01 Gathered here for the first time are Miles J Breuer's first publication The Man with the Strange Head his neglected dystopian novel Paradise and Iron appearing here in book form for the first time stories such as Gostak and the Doshes and Mechanocracy and Breuer's essay The Future of Scientifiction one of the early critical statements of the genre Also included are some of the author's letters from the Discussions column of Amazing Stories Much of what we know as science fiction saw the light and found its themes styles and modes in the science fiction magazines of the early twentieth century It was in these magazines of the 1920s and 1930s that Breuer often led the way Breuer himself found his inspiration in the work of H G Wells and in turn influenced science fiction masters from Jack Williamson to Robert A Heinlein The Man with the Strange Head and Other Early Science Fiction Stories collects the best work of this pioneer of the genre *Sisters of Tomorrow* Lisa Yaszek, Patrick B. Sharp, 2016-06-07 Anthology of stories essays poems and illustrations by the women of early science fiction For nearly half a century feminist scholars writers and fans have successfully challenged the notion that science fiction is all about boys and their toys pointing to authors such as Mary Shelley Clare Winger Harris and Judith Merril as proof that women have always been part of the genre Continuing this tradition Sisters of Tomorrow The First Women of Science Fiction offers readers a comprehensive selection of works by genre luminaries including author C L Moore artist Margaret Brundage and others who were well known in their day including poet Julia Boynton Green science journalist L Taylor Hansen and editor Mary Gnaedinger Providing insightful commentary and context this anthology documents how women in the early twentieth century contributed to the pulp magazine community and showcases the content they produced

including short stories editorial work illustrations poetry and science journalism Yaszek and Sharp's critical annotation and author biographies link women's work in the early science fiction community to larger patterns of feminine literary and cultural production in turn of the twentieth century America In a concluding essay the award winning author Kathleen Ann Goonan considers such work in relation to the history of women in science and engineering and to the contemporary science fiction community itself

Yesterday's Faces, Volume 2 Robert Sampson, 1984 The second volume within this series presents more than fifty series characters within pulp fiction selected to represent four popular story types from the 1907-1939 pulps: scientific detectives, occult and psychic investigators, jungle men, and adventurers in interplanetary romance. Some characters, Tarzan, John Carter of Mars, Craig Kennedy, Anthony Buck Rogers, became internationally known. Others are now almost forgotten except by collectors and specialists.

Anti-Foreign Imagery in American Pulps and Comic Books, 1920-1960 Nathan Vernon Madison, 2013-01-17 In this thorough history the author demonstrates via the popular literature, primarily pulp magazines and comic books of the 1920s to about 1960, that the stories therein drew their definitions of heroism and villainy from an overarching nativist fear of outsiders that had existed before World War I but intensified afterwards. These depictions were transferred to America's new enemies both following U.S. entry into the Second World War and during the early stages of the Cold War. Anti-foreign narratives showed a growing emphasis on ideological as opposed to racial or ethnic differences and early signs of the coming multiculturalism indicating that pure racism was not the sole reason for nativist rhetoric in popular literature. The process of change in America's nativist sentiments so virulent after the First World War are revealed by the popular inexpensive escapism of the time: pulp magazines and comic books.

The Prentice Hall Anthology of Science Fiction and Fantasy Garyn G. Roberts, 2001 This one volume anthology explores the last two hundred years of Science Fiction and Fantasy featuring women and men authors of various ethnic backgrounds and a range of both traditional canonical literature and popular culture. Designed to heighten interest in a fun and exciting topic, this book will lead readers to meaningful intellectual, social, and historic investigations. Contributing authors include Mary Shelley, Edgar Allan Poe, Nathaniel Hawthorne, Charles Dickens, Louisa May Alcott, Harriet Beecher Stowe, Bram Stoker, Stephen King, J.R.R. Tolkien, Jules Verne, Jack London, Ray Bradbury, and Kurt Vonnegut. For fans of science fiction, fantasy, and the stories presented here who appreciate that they represent the best of humanity and include potential warnings for where humanity is headed.

Foundations of Science Fiction John J. Pierce, 1987-03-04 This important contribution to the study of science fiction explores the origins of the basic literary traditions of the genre. Thematic rather than chronological organization sets this work apart from previous analyses. The entire range of literary invention within science fiction is explored from its earliest beginnings through the past hundred years of serious development. Emphasis is on enabling the reader to perceive the evolution of science fiction as an organic whole rather than a mere accumulation of works linked solely by popular publishing trends.
