Prehistoric Biological Relationships in the Great Lakes Region Richard Guy Wilkinson, 1971-01-01 In this work author Richard Guy Wilkinson presents an examination of the biological relationships among certain Middle and Late Woodland populations from the Great Lakes area He studied the skeletal material from many Midwest archaeological sites including Juntunen Younge Bussinger Steuben and Norton Mounds the largest Hopewellian complex in Michigan His research attempts to answer questions related to Illinois Hopewellian migration into Michigan the relationship of Middle and Late Woodland populations in Illinois and the Great Lakes area and the apparent causes of these relationships

An Analysis of Effigy Mound Complexes in Wisconsin William M. Hurley, 1975-01-01 The Effigy Mound tradition of Wisconsin dates to between roughly AD 100 and AD 1400 Its center is in central and southern Wisconsin with a handful of sites also found in Illinois Iowa Minnesota and Michigan During excavation at two major Effigy Mound sites the Bigelow site and the Sanders site William M Hurley and his crew recorded 56 mounds 91 features 3 houses and 10 prehistoric burials and uncovered more than 55 000 artifacts

Soils Stones and Symbols Cultural Perceptions of the Mineral World Nicole Boivin, Owic, 2013-07-04 Ethnographic and archaeological records feature a rich body of data suggesting that understandings of the mineral world are in fact both culturally variable and highly diverse Soils Stones and Symbols highlights studies from the fields of anthropology archaeology and philosophy that

demonstrate that not all individuals and societies view minerals as commodities to be exploited for economic gain or as passive objects of disembodied scientific enquiry In visiting such diverse contexts as contemporary India colonial period Australia and prehistoric Europe and the Americas the papers in this volume demonstrate that in pre industrial societies minerals are often symbolically meaningful ritually powerful and deeply interwoven into not just economic and material but also social cosmological mythical spiritual and philosophical aspects of life In addressing the theme of the mineral world this book is not only unique within the social and geo sciences but also at the forefront of recent attempts to demonstrate the importance of materiality to processes of human cognition and sociality It draws upon theoretical developments relating to meaning experience the body and material culture to demonstrate that studies of rock art landscapes architecture technology and resource use are all linked through the minerals that constantly surround us and are the focus of our never ending attempts to understand and transform them

The Taking and Displaying of Human Body Parts as Trophies by Amerindians Richard J. Chacon, David H. Dye, 2007-08-21 This edited volume mainly focuses on the practice of taking and displaying various body parts as trophies in both North and South America The editors and contributors which include Native Peoples from both continents examine the evidence and causes of Amerindian trophy taking Additionally they present objectively and discuss dispassionately the topic of human proclivity toward ritual violence This book fills the gap in literature on this subject

The Prehistory of Missouri Michael John O'Brien, W. Raymond Wood, 1998 The Prehistory of Missouri is a fascinating examination of the objects that were made used and discarded or lost by Missouri's prehistoric inhabitants over a period of more than eleven thousand years Missouri's numerous vegetation zones and its diverse topography encompassed extreme variations forcing prehistoric populations to seek a wide range of adaptations to the natural environment As a result Missouri's archaeological record is highly complex and it has not been fully understood despite the vast amount of fieldwork that has been conducted within the state's borders In this groundbreaking account Michael J O'Brien and W Raymond Wood explore the array of artifacts that have been found in Missouri pinpointing minute variations in form They have documented the ranges in age and distribution of the individual forms explaining why certain forms persisted while others quickly disappeared Organized by chronological periods such as Archaic Woodland and Mississippian the book provides a comprehensive survey of what is currently known about Missouri's prehistoric peoples often revealing how they made their living in an ever changing world The authors have applied rigorous standards of archaeological inquiry Their main objective demonstrating that the archaeological record of Missouri can be explained in scientific terms is accomplished With more than 235 line drawings and photographs including 23 color photos The Prehistory of Missouri will appeal to anyone interested in archaeology particularly in the artifacts and the dates of their manufacture as well as those interested in the dichotomy between interpretation and explanation Intended for the amateur as well as the professional archaeologist this book is sure to be the new standard reference on Missouri's prehistory fulfilling current needs

Preliminary Bibliography of Hopewell Archaeology William R. Page, 1976 **Miskwabik, Metal of Ritual** Amelia M. Trevelyan, 2021-12-14 *Miskwabik Metal of Ritual* examines the thousands of beautiful and intricate ritual works of art from ceremonial weaponry to delicate copper pendants and ear ornaments created in eastern North America before the arrival of Europeans. The first comprehensive examination of this 3,000-year-old metallurgical tradition, the book provides unique insight into the motivation of the artisans and the significance of these objects and highlights the brilliance and sophistication of the early civilizations of the Americas. Comparing the ritual architecture and metallurgy of the original Americans with the ethnological record, Amelia M. Trevelyan begins to unravel the mystery of the significance of the objects as well as their special functions within the societies that created them. The book includes dozens of striking color and black and white photographs. **Late Woodland Societies** Thomas E. Emerson, Dale L. McElrath, Andrew C. Fortier, 2000-01-01
Archaeologists across the Midwest have pooled their data and perspectives to produce this indispensable volume on the Native cultures of the Late Woodland period, approximately A.D. 300-1000. Sandwiched between the well-known Hopewellian and Mississippian eras of monumental mound construction, the Late Woodland period has received insufficient attention from archaeologists who have frequently characterized it as consisting of relatively drab artifact assemblages. The close connections between this period and subsequent Mississippian and Fort Ancient societies, however, make it especially valuable for cross-cultural researchers. Understanding the cultural processes at work during the Late Woodland period will yield important clues about the long-term forces that stimulate and enhance social inequality. *Late Woodland Societies* is notable for its comprehensive geographic coverage, exhaustive presentation and discussion of sites, artifacts, and prehistoric cultural practices, and critical summaries of interpretive perspectives and trends in scholarship. The vast amount of information and theory brought together, examined, and synthesized by the contributors produces a detailed, coherent, and systematic picture of Late Woodland lifestyles across the Midwest. The Late Woodland can now be seen as a dynamic time in

its own right and instrumental to the emergence of complex late prehistoric cultures across the Midwest and Southeast

Following the Mississippian Spread Robert A. Cook, Aaron R. Comstock, 2022-06-29 This book is the first to specifically trace the movement of Mississippian maize farmers throughout the US Midwest and Southeast By providing a backdrop of shifting climatic conditions during the period this volume also investigates the relationship between farmers and their environments Detailed regional overviews of key locations in the Mississippi Valley the Ohio Valley and the peripheries of the Mississippian culture area reveal patterns and variation in the expression of Mississippian culture and interactions between migrants and local communities Methodologically the case studies highlight the strengths of integrating a variety of data sets to identify migration The volume provides a broader case study of the links between climate change migration and the spread of agriculture that is relevant to archaeologists and anthropologists studying early agricultural societies throughout the world Key patterns of adaptation to and mitigation of the effects of droughts for example provide a framework for understanding the options available to societies in the face of climate change afforded by the time depth of an archaeological perspective

Archaeology and Ancient Religion in the American Midcontinent Brad H. Koldehoff, Timothy R. Pauketat, 2018-11-06 Analyses of big datasets signal important directions for the archaeology of religion in the Archaic to Mississippian Native North America Across North America huge data accumulations derived from decades of cultural resource management studies combined with old museum collections provide archaeologists with unparalleled opportunities to explore new questions about the lives of ancient native peoples For many years the topics of technology economy and political organization have received the most research attention while ritual religion and symbolic expression have largely been ignored This was often the case because researchers considered such topics beyond reach of their methods and data In *Archaeology and Ancient Religion in the American Midcontinent* editors Brad H Koldehoff and Timothy R Pauketat and their contributors demonstrate that this notion is outdated through their analyses of a series of large datasets from the midcontinent ranging from tiny charred seeds to the cosmic alignments of mounds they consider new questions about the religious practices and lives of native peoples At the core of this volume are case studies that explore religious practices from the Cahokia area and surrounding Illinois uplands Additional chapters explore these topics using data collected from sites and landscapes scattered along the Mississippi and Ohio River valleys This innovative work facilitates a greater appreciation for and understanding of ancient native religious practices especially their seamless connections to everyday life and livelihood The contributors do not advocate for a reduced emphasis on technology economy and political organization rather they recommend expanding the scope of such studies to include considerations of how

religious practices shaped the locations of sites the character of artifacts and the content and arrangement of sites and features They also highlight analytical approaches that are applicable to archaeological datasets from across the Americas and beyond

Gathering Hopewell Christopher Carr,D. Troy Case,2005-07-25 Among the most socially and personally vocal archaeological remains on the North American continent are the massive and often complexly designed earthen architecture of Hopewellian peoples of two thousand years ago their elaborately embellished works of art made of glistening metals and stones from faraway places and their highly formalized mortuaries In this book twenty one researchers in interwoven efforts immerse themselves and the reader in this vibrant archaeological record in order to richly reconstruct the societies rituals and ritual interactions of Hopewellian peoples By finding the faces actions and motivations of Hopewellian peoples as individuals who constructed knowable social roles the authors explore in a personalized and locally contextualized manner the details of Hopewellian life leadership its sacred and secular power bases recruitment and formalization over time systems of social ranking and prestige animal totemic clan organization kinship structures and sodalities gender roles prestige work load and health community organization in its tri scalar residential symbolic and demographic forms intercommunity alliances and changes in their strategies and expanses over time and interregional travels for power questing pilgrimage healing tutelage and acquiring ritual knowledge This book is useful to scholars graduate students and advanced undergraduates interested in the workings and development of social complexity at local and interregional scales recent theoretical developments in the anthropology of the topics listed above the prehistory of eastern North America its history of intellectual development and Native American ritual symbolism and belief
