

SHORT PRAYER FOR SOMEONE IN THE HOSPITAL

“Heavenly Father,

I thank You for this precious day You gave to us, May
Your name be highly exalted.

Lord, today, I have come humbly before You to pray for
my *friend/loved one* (**mention friend's name**), who is sick
and in the hospital.

I pray, Lord that You stretch forth Your mighty hands to
my sick friend and cause *him/her* to be well again. I know
You're the greatest healer and physician, and there's no
sickness You cannot end.

Amen”

an everyday occurrence giving rise to existential questions The full range of society's diversity is reflected in patients and staff Increasing religious and ethnic plurality alongside decades of secularizing trends is bringing new attention to how religion and nonreligion are expressed in public spaces Through critical ethnographic research in Vancouver and London Prayer as Transgression reveals how prayer occurs in hospitals long term care facilities and community based clinics in a variety of forms and circumstances Prayer occurs quietly on the edges of day to day healthcare provision and in designated sacred spaces Some requests for prayer however interrupt and transgress the clinical machinery of a hospital such as when a patient asks for prayer from the chaplain while the operating room waits With contributions by researchers healthcare practitioners and chaplains the authors consider how prayer transgresses the clinical priorities that mark healthcare opening up ways to think differently about institutional norms and social structures They show how prayer highlights trends of secularization and sacralization in healthcare settings They also consider the ambivalences about prayer arising from staff and patients varied views on religion and spirituality and their associated ethical concerns amidst clinical and workload demands A window onto religion in the public sphere Prayer as Transgression tells much about how people live well together even in the face of personal crises and fragilities suffering diversity and social change Prayer Philip Yancey, 2006 Yancey probes the very heartbeat of mankind's relationship to God in this invitation to communicate with God through prayer

When the Tears of Prayer Fall Down Paul Adu,2014-10-02 This book is about the author's experience on the altar of prayer It is a spiritually empowering and life changing book that explains how to approach God in prayers yourself It touches on the nitty gritty of rewriting your destiny without anyone's assistance It emphasizes the fact that only you are in the best position to explain yourself to God The main thesis of the book is that the power of answered prayers is not contingent upon any special anointing outside you It hypothesizes that power to change your situation is not an exclusive right of any spiritual leader somewhere and that it is a right you must claim by faith The book also highlights various tested biblical and acceptable concepts of talking to God for an answer through your own prayers Most importantly it elucidates on how you can reach God through effective and fervent prayers for a fulfilled life style and destiny maximization

The New Doctrine of Prayer. A Discourse ... Second Edition J. P. STUART,1873 *The Work of Hospitals* William C. Olsen,Carolyn Sargent,2022-03-18 In the context of neoliberalism and global austerity measures health care institutions

around the world confront numerous challenges in attempting to meet the needs of local populations. Examples from Africa including Ethiopia, Ghana, and Congo; Latin America, Peru, Mexico, Guatemala; Western Europe, France, Greece; and the United States illustrate how hospitals play a significant role in the social production of health and disease in the communities where they are. Many low resource countries have experienced increasing privatization and dysfunction of public sector institutions such as hospitals and growing withdrawal of funding for non profit organizations. Underlying the chapters in *The Work of Hospitals* is a fundamental question: how do hospitals function lacking the medications, equipment, and technologies and personnel normally assumed to be necessary. This collection of ethnographies demonstrates how hospital administrators, clinicians, and other staff in hospitals around the world confront innumerable risks in their commitment to deliver health care including civil unrest, widespread poverty, endemic and epidemic disease, and supply chain instability. Ultimately *The Work of Hospitals* documents a vast gulf between the idealized mission of the hospital and the implementation of this mission in everyday practice. Hospitals thus become contested space between policy and practice.
