Moskowitz,2001-05-01 The Haunting Fetus focuses on the belief in modern Taiwan that an aborted fetus can return to haunt its family Although the topic has been researched in Japan and commented on in the Taiwanese press it has not been studied systematically in relation to Taiwan in either English or Chinese This fascinating study looks at a range of topics pertaining to the belief in haunting fetuses including abortion sexuality the changing nature of familial power structures the economy and traditional and modern views of the spirit world in Taiwan and in traditional Chinese thought It addresses the mental moral and psychological aspects of abortion within the context of modernization processes and how these ramify through historical epistemologies and folk traditions The author illustrates how images of fetus ghosts are often used to manipulate women either through fear or guilt into paying exorbitant sums of money for appeasement He argues at the same time however that although appeasement can be expensive it provides important psychological comfort to women who have had abortions as well as a much needed means to project personal and familial feelings of transgression onto a safely displaced object In addition to bringing to the surface underlying tensions within a family appeasing fetus ghosts like other dealings with supernatural beings in Chinese religions allows for atonement through economic avenues The paradox in which fetus ghost appeasement simultaneously exploits and assists evinces the true complexity of the issue and of religious and gender studies as a whole
