Alexander,2015-08-13 The book represents a personal quest in what Anselm referred to as faith seeking understanding The primary focus centers on proposing an interpretation of the nature and function of the human spirit and its relationship to the divine spirit and the living of a godly Christian life Thus the book has a dual concern namely an academic one and a spiritual one The undergirding premise is that apart of the human spirit the divine spirit is personally unknowable This premise contains the following supporting concepts First the core of human personhood resides in the human spirit and constitutes the unique capacity for personal self relatedness Second as the result of humanity s idolatrous displacement of God a radical reversal occurred with the human spirit When restored to its original relationship with the divine spirit the human spirit as James Loder writes is called out of its futility and perversity into the light and truth of the divine spirit
