Instruments of War
 Spencer C. Tucker, 2015-07-28 This highly detailed and well illustrated single volume work documents the evolution of warfare across history through weaponry and technological change. In war the weapons and technologies employed have direct effects on how battles are waged. When new weapons are introduced they can dramatically alter the outcomes of warfare and consequently change the course of history itself. This reference work provides a fascinating overview of the major weapon systems and military technologies that have had a major impact on world history. Addressing weapons as crude as the club used by primitive man to the high tech weapons of today such as unmanned drones. *Instruments of War: Weapons and Technologies That Have Changed History* offers nearly 270 profusely illustrated entries that examine the key roles played by specific weapons and identify their success and failures. The book begins with an introductory essay that frames the subject matter of the work and discusses the history of weapons as a whole. The text is concise and accessible to general readers without extensive backgrounds in military history yet provides the detailed information necessary to convey the complexity of the evolution of warfare through technological change. A Global Chronology of Conflict Spencer C. Tucker, 2009-12-23 This monumental six volume resource offers engaging entries of major diplomatic military and political events driving world conflicts from ancient times to the present. Now from ABC CLIO long regarded as a premier publisher of military history comes a monumental resource that encapsulates the entire scope of conflict among human societies. Spanning nearly five millennia from the earliest documented fighting to the present *A Global Chronology of Conflict: From the Ancient World to the Modern Middle East* provides a comprehensive survey of major military events. With coverage that reaches beyond the battles this work examines the political and diplomatic forces driving world conflicts: revolutions, forced changes of governments, international treaties and acts of aggression and terrorism. Written by acclaimed military historian Spencer C. Tucker these six chronologically organized volumes offer an accessible richly detailed timeline of military conflict across human history. The concise entries cover all important events on the battlefield and in the corridors of power with special features highlighting hundreds of key leaders and weapon systems. From specific data on casualties to coverage of evolving weapons technology to insightful analyses of the social impact of war *A Global Chronology of Conflict* is an essential resource for students, researchers, history buffs and general readers alike. *Encyclopedia of Military Technology and Innovation* Stephen Bull, 2004-06-30 From the Abrams M1 tank to the zeppelin this essential reference details the invention and evolution of nearly 600 of the most important advances in military technology from prehistory to the present. International in scope it covers weapons, ammunition, defenses, land vehicles, aircraft, ships, detection, stealth, gear, supplies.
