A Child's History of Scotland Mrs. Oliphant (Margaret), 1895 **Scotland's Story** Henrietta Elizabeth Marshall, 1907 The History and Theory of Children's Citizenship in Contemporary Societies Brian Milne, 2013-04-15 This book examines the notion of children having full citizenship It does so historically through intellectual discourse beliefs and moral and ideological positions on children It looks at the status and extent of knowledge of the position of children covering about 2500 years The book takes European and other cultures traditions and beliefs into consideration It reflects on the topic from a variety of disciplines including social sciences theology and philosophy The book places children's citizenship in the centre of children's rights discourse Part of the work is a critical appraisal of children's participation because it diverts attention away from children as members of society toward being a separable group The book moves on from child participation using a children's rights based argument toward examination of the relationship of the child with the state i.e. as potentially full member citizens Let's Learn About Scotland!
