Citizenship and the English Countryside Sian Edwards, 2017-11-28 This book explores the significance and meaning of the
countryside within mid twentieth century youth movements It examines the ways in which the Boy Scouts Girl Guides
Woodcraft Folk and Young Farmers Club organisations employed the countryside as a space within which good citizenship in
leisure work the home and the community could be developed Mid century youth movements identified the problem of
modern youth as a predominantly urban and working class issue They held that the countryside offered an effective antidote
to these problems being a good citizen within this context necessitated a respectful and mutually beneficial relationship with
the rural sphere Avenues to good citizenship could be found through an enthusiasm for outdoor recreation the stewardship of
the countryside and work on the land However models of good citizenship were intrinsically gendered Readers' Guide to
