H. Fong, Jieh-min Wu, Andrew J. Nathan, 2020-12-30 Bringing together a team of cutting edge researchers based in Hong Kong Taiwan and Indo Pacific countries this book focuses on the tug of war between China s influence and forces of resistance in Hong Kong Taiwan and selected countries in its surrounding jurisdictions China s influence has met growing defiance from citizens in Hong Kong and Taiwan who fear the extinction of their valued local identities However the book shows that resistance to China s influence is a global phenomenon varying in motivation and intensity from region to region and country to country depending on the forms of China s influence and the balances of forces in each society The book also advances a concentric center periphery framework for comparing different forms of extra jurisdictional Chinese influence mechanisms ranging from economic military and diplomatic influences to united front operations This book will be of key interest to scholars and students of comparative politics international relations geopolitics Chinese politics Hong Kong China relations Taiwan and Asian politics      *Lonely Planet Hong Kong* Lonely Planet, **Membership Directory** Foreign Correspondents' Club, Hong Kong, 2005      *Hong Kong English* Kingsley Bolton, 2002-09-01 The dominant view of many linguists and educators has been that Hong Kong English is a variety of the language that is derived from and dependent on the metropolitan norm of British English It has been argued that English in Hong Kong was never nativized as in other Asian societies and that it has not deserved the recognition accorded to other varieties of Asian English The contributions to this book challenge that view in a number of ways In addressing

sociolinguistic structural and literary issues they provide an up to date survey of current use of Hong Kong English and redress the question of its autonomy in terms of both distinctive linguistic features and the growing literary creativity of the variety An original and highly informed discussion on the futures for Hong Kong English and chapters providing additional resources for the study of the variety are also included      *Leadership: Political-economic, Regional Business And Socio-community Contexts* Tai Wei Lim,2020-03-20 Political leadership styles in East Asian states are shaped and influenced by a number of domestic factors These factors include the type of political system that an East Asian state adopted from their days of independence and decolonization There is a diverse array of political systems in the region ranging from Western style liberal democracies like Japan and South Korea to autocratic one party states like North Korea Most other East Asian countries adopt systems somewhere in between these two polar ends This volume begins with a macro political perspective of leadership It then looks at case studies of political leadership and the factors that influence the shape and outcome of leadership styles in the region The book also examines the concept of community leadership and its impact on community well being Several specific case studies are examined in depth While examining political leadership from a macro theoretical and empirical perspective the book also adopts historical anthropological perspectives to analyse case studies The case studies also examine policy formulation and implementation to look at the role of government in handling community level issues Finally the book focuses on economic leadership in international political economy and global business      *China's Forbidden Zones ,      Atrocity Fabrication and Its Consequences* A.B. Abrams,2023-03-15 Atrocity fabrication the invention and reporting of atrocities committed by an adversary without knowledge that they ever occurred has a centuries long history at the heart of propaganda and power politics as an effective means of moving public and international opinion Its use can provide pretext for a range of hostile measures against its targets transforming in the public eye wars of unprovoked aggression into wars of liberation of the oppressed or turning blockades to starve enemy civilians into humane efforts to pressure abusive governments under the moralistic label of sanctions As it plays a large and growing role in global conflict in the 21st century understanding atrocity fabrication and the consistent means by and ends to which it has been used has become crucial to comprehending geopolitical events in the present day This book elucidates the seldom explored but central role played by atrocity fabrication in eleven major conflicts from the 1950s to the present day from Korea Vietnam and Cuba during the Cold War to Iraq Libya and the emerging Sino U S cold war more recently It highlights the many variations of atrocity fabrication the strong consistencies in how atrocity fabrication is used and the consequences it has for the populations of the targeted countries The book demonstrates the roles played by media and both government and non governmental organizations in misleading the public as to the actuality of these highly publicized events The emerging trend towards this mode of action and the deep implications this has for world order make an understanding of its history particularly critical      **Political Developments in Contemporary China** Ian Jeffries,2010-07-23 This book provides a

comprehensive and detailed overview of contemporary political developments in China Key topics include human rights and China's international relations with its neighbours and with the international community more widely This is the companion volume to *Economic Developments in Contemporary China A Guide* also published by Routledge
